Kuyanuka and other Plays Gha-Makhulu Diniso,2009-10-19 Kuyanuka and other Plays by Gha Makhulu Diniso is also a collection of three one person plays Kuyanuka was first performed in 1991 Koropa in 2000 and Shoeville in 2005 As critic Darryl Accone observes It is

precisely because of his conscience and commitment to true freedom that Diniso remains an artist neglected in his own country Not for him complacency about the much lip serviced Rainbow Nation a least not while the stench of inequality not only persists but grow fouler by the day There is no extravagant escapism imported from abroad and peddled to the nouveaux riches and petite bourgeois of the New South Africa Instead though the creation of multiple characters reflecting the harshness of life under the neo liberal economic order Diniso expresses the problematic of celebrating political freedom when most black people find their living standards under threat and soaring unemployment and casualization undermining much of the early liberation promise

 career as a dramatist **New Perspectives on Emotions in Finance** Jocelyn Pixley,2012 The financial crisis that started
 in 2007 is a concern for the world Some countries are in depression and governments are desperately trying to find solutions
 In the absence of thorough debate on the emotions of money bitter disputes hatred and moralizing can be misunderstood
 New Perspectives on Emotions in Finance carefully considers emotions often left unacknowledged in order to explain the
 socially useful versus de civilising destructive nature of money This book offers an understanding of money that includes the
 possible civilising sentiments This interdisciplinary volume examines what is seemingly an uncontrollable fragile world of
 finance and explains the panics of traders and immoral panics in banking confidence of government and commercial decision
 makers shame or cynicism of investors and asymmetries of impersonal trust between finance corporations and their many
 publics Money is shown to rely on this abstract trust or faith but such motivations are in crisis with angry conflicts over the
 power of disposition Restraining influences on uncivilised emotions and rule breaking need democratic consensus due to
 enduring national differences in economic sentiments even in ostensibly similar countries Promising ideas for global reform
 are assessed from these cautionary interpretations Instead of one correct vision sociologists in this book argue that
 corporations and global dependencies are driven by fears and normless sentiments which foster betrayal This book is not
 about individuals but habitus and market crudities Human nature or greed cannot describe banks which do not feel because
 their motivations are not from personal psyches but organisational pressures and are liable to switch under money s
 inevitable uncertainties This more inclusive social science studies emotions as a crucial factor among others to expand the
 informed public debate among policy makers bankers academics students and the public **International Financial**
