Monism As Connecting Religion And Science:

Monism as Connecting Religion and Science Ernst Haeckel, 2019-11-29 In *Monism as Connecting Religion and Science* Ernst Haeckel presents a compelling philosophical framework that seeks to unify the realms of spirituality and empirical science. Written during the rise of German Idealism and the advancement of the natural sciences in the late 19th century, the book is characterized by Haeckel's incisive prose and passionate advocacy for a monistic worldview. Haeckel argues that all forms of knowledge, whether religious, scientific, or philosophical, can converge into a single coherent system, expanding on themes of Darwinian evolution and materialism. His integration of artistic and scientific perspectives marks a significant contribution to the intellectual discourse of his time, challenging the rigid dichotomy often drawn between faith and reason. Ernst Haeckel, a biologist and naturalist, was profoundly influenced by the theories of Charles Darwin and the vibrant philosophical landscape of his era. His academic background in biology and his fervent interest in evolutionary theory propelled him to explore the intersections between human belief systems and scientific understanding. Haeckel's advocacy for monism reflects his quest to reconcile the conflicting views of his contemporaries, positioning him as a pivotal figure in the development of modern thought. Readers seeking to deepen their understanding of the connections between science and spirituality will find Haeckel's work invaluable. *Monism as Connecting Religion and Science* is not only a historical document but a thought-provoking examination that invites contemporary audiences to reflect on the continuity of knowledge. It challenges readers to consider how philosophical inquiries can inform scientific understanding, making it a must-read for anyone interested in the dialogue between science and religion. Monism as Connecting Religion and Science Ernst Haeckel, 2015-06-25 Excerpt from *Monism as Connecting Religion and Science* The Confession of Faith of a Man of Science The following lecture on Monism is an informal address delivered extemporaneously on October 9, 1892, at Altenburg on the seventy-fifth anniversary of the Naturforschende Gesellschaft des Osterlandes. The immediate occasion of it was a previous address delivered by Professor Schlesinger of Vienna on Scientific Articles of Faith. This philosophical discourse contained with reference to the weightiest and most important problems of scientific investigation much that was indisputable, but it also contained some assertions that challenged immediate rejoinder and a statement of the opposite view. Disability's Challenge to Theology
Devan Stahl, 2022-08-15 Disability s Challenge to Theology uses insights from disability studies to understand in a deeper way the ethical implications that genetic technologies pose for Christian thought Theologians have been debating genetic engineering for decades but what has been missing from many theological debates is a deep concern for persons with genetic disabilities In this ambitious and stimulating book Devan Stahl argues that engagement with metaphysics and a theology of nature is crucial for Christians to evaluate both genetic science and the moral use of genetic technologies such as human genetic engineering gene therapy genetic screenings preimplantation genetic diagnosis and gene editing Using theological notions of creation ex nihilo and natural law alongside insights from disability studies Stahl seeks to recast the debate concerning genetic well being Following the work of Stanley Hauerwas Stahl proposes the church as the locus for reimagining disability in a way that will significantly influence the debates concerning genetic therapies Christianity has all too frequently been complicit in excluding degrading and marginalizing people with disabilities but the new Christian metaphysics developed here provides normative theological guidance on the use of genetic technologies today Only by heeding the voices of people with disabilities can Christians remain faithful to the call to find Christ in the least of these and from there draw closer to God
