The Merrimack Bruce L. Brager, 2004-01-01 Recounts the construction battles and historical impact of the Civil War battleships the Monitor and the Virginia known to Union forces as the Monitor and the Merrimack focusing on the Battle of Hampton Roads *Johnson's New Universal Cyclopaedia* , 1878 **Sea Power** Nelson Macy, N. M. Hubbard, 1920 The History of Navies Around the World Richard Barrington, 2014-01-01 An essential guide for all readers interested in high seas combat this book covers the history of navies from the time of ancient Greek galleys to the development of battleships in the late 19th and early 20th centuries to the present day Various types of combat vessels are explained in detail with vivid photographs to illustrate Significant attention is also given to the most noteworthy modern navies including those of North Korea Russia and the United States *Gunsmoke Over the Atlantic* Jack Coombe, 2008-12-18 On April 12 1861 the Civil War began when shots were fired on an unfinished fort in Charleston Harbor From that thunderous opening salvo the naval battles to control the Atlantic coast that followed daring savage and often deadly were not only crucial in determining the outcome of the war and the fate of a nation but would change the face of naval warfare forever GUNSMOKE OVER THE ATLANTIC Historian Jack D Coombe author of the critically acclaimed *Thunder Along the Mississippi* and *Gunfire Around the Gulf* combines brilliant research with a novelist's flair for re creation to put us directly into the action of the Civil War on river on shore and at sea In this vivid account we experience the soul gnawing terror of a bombardment the claustrophobic confines of a still unproven submarine and the smoke choked chaos of a harbor in the grips of a full bore naval engagement between two desperate enemies Coombe focuses on the Civil War as it was fought along the Atlantic coast a fierce contest of blockaders and blockade runners ironclads wood hulled battleships land cannon submarines and the first underwater antiship weapons For the North the challenge was to implement a blockade over 3 500 miles of Confederate coastline from Virginia to Texas To do so they would have to modernize an ineffective and outdated U S Navy fallen into incompetence and disrepair For the South the challenge was to create a fledgling navy from whatever meager resources were at hand The Confederacy patched together a navy of river runners and converted battleships turned cornfields into shipyards and put the first ironclad battleship into action And it was the South that introduced the new

concept of underwater weaponry sending spar torpedoes mines submarines and a few incredibly brave men willing to deploy them into battle against the North Gunsmoke over the Atlantic chronicles the key engagements from the Monitor and the Virginia dueling at Hampton Roads to the ill fated campaign against Fort Fisher Along the way we meet a remarkable cast of naval strategists and warriors on both sides of the battle witness the crucial often deadly role played by the weather and the sea itself and get a vivid view of such important events as the first amphibious landing in history at Cape Hatteras in 1861 An important work for students of the Civil War and of naval history this book fills in missing pieces of America's most tragic war and shows why when the guns finally fell silent a new era had begun Four years after the fall of Fort Sumter a once divided country had the beginnings of the most powerful navy in the world

Five Flags Stuart Buxton, 2025-05-20 As wooden ships gave way to ironclads and sail gave way to steam in the nineteenth century one warship fought through the civil wars that shaped modern America Germany and Japan Its career spanned high politics and secret diplomacy arms dealers and royal courts spies sailors and samurai across three continents In a vivid narrative travelling from London to Paris from Copenhagen to Havana from Washington to Tokyo Five Flags brings this incredible true story to life Strangled by the Union's naval blockade the Confederacy needed ships and turned to Europe to build them In 1862 Emperor Napoleon III agreed to deliver a unique new design whose 300 pounder canon 5 inches of armour and twenty foot bow ram made her a threat to every warship on earth Before the mighty ironclad was finished U S agents discovered it and she was sold to Denmark only to be smuggled back after her defeat by Prussia Christened Stonewall after the legendary general the ship took on an elite crew with 5 captains among them narrowly survived terrifying storms took refuge in Spain and had to run the gauntlet of Union warships and Spanish courts to escape The Stonewall reached Cuba in May 1865 too late to change the Civil War before her sale to the Queen of Spain and a handover to a newly re united America But the ironclad would not end its career mothballed at the Washington Navy Yard Though sold to the Tokugawa shogun in 1867 she was delivered to his bitter enemy the emperor and led the brutal and harrowing war at sea that secured the Meiji restoration and set Japan on a path of modernization industrialization and expansion that would end in World War II
