Monkey Tale:

A Monkey's Tale Nathan Kravetz, 2012-12-05 A Monkey's Tale by Nathan Kravetz It was a moonlit night at the rocket base For weeks the scientists had been preparing for the launching of a new rocket Reporters were standing by On this night everyone was asleep except the guard who carefully kept watch Suddenly there was a roar that grew louder and louder and the rocket began to lift off its pad Its going up shouted the guard Its blasting off yelled the scientists What Where called the reporters as they climbed out of their beds Who Why When and how Inside the capsule Sam the monkey was pulling switches and pushing buttons as he had been taught Everything was according to plan except that the rocket had not been launched by the scientists but by another monkey Sarah But this is only the beginning What happens is important to the whole world and makes a tale of a monkey that is full of fun

Monkey Tales and Other Short Stories Mahmoud Hirji, 2022-07-20 Monkey Tales and other Short Stories is a collection of 14 short stories based on the author's life growing up in East Africa his global travels experiences working in Canada and abroad and more Hirji deftly blurs the boundaries between memoir and fiction creating vivid characters such as Aziz who stars prominently in many stories along with nefarious biker and monkey gangs a gruesome toilet cleaner a beautiful haunted spirit endearing old women sexy girlfriends nudes and others who leap off the pages in their largesse Stories come to life with Hirji's vivid prose you can practically smell the puri bubbling in oil and feel the victim's terror when he takes on an unlikely intruder in a riotous showdown Although Monkey Tales teases out humour and suspense in its stories there's plenty of poignancy in the collection too Whether facing financial hardship or racial bias the characters demonstrate resilience and good nature as they struggle for survival between both humankind and the animal kingdom This book is registered with the US Copyright Office

The Monkey's Tale Peter Bonnici, 1995

The Monkey's Tail Tom Lethbridge, 2024-11-01 In the 1960s T C Lethbridge's challenging probing studies were well established First published in 1969 The Monkey's Tail was as remarkable as his previous investigations Mr

Lethbridge who was trained in Natural Science before he became an archaeologist had for years been unable to accept Darwin's theory of Evolution. In this book he examines the theory in the light of his observations and experience. He found it wanting in every particular which he examined. In the first part of the book Mr Lethbridge puts his case against the theory of Evolution and in the second part he shows that the known facts of Evolution could be equally well explained in another way. He had for many years been working on the fringe study of Extra Sensory Perception and he used that study to present an alternative theory to Darwinism. Mr Lethbridge was well aware that much more evidence was needed before his ideas could either be proved or disproved finally but they do provide a reasoned explanation based on years of careful study. The theory he put forward was not only more compatible with observed scientific fact at the time but less at variance with accepted religious beliefs. This book is a re-issue originally published in 1969. The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this re-publication.

Yet the history and relevance of the fairy tale film have largely been neglected. In this follow-up to Jack Zipes's award-winning book *The Enchanted Screen* 2011 *Fairy Tale Films Beyond Disney* offers the first book-length multinational multidisciplinary exploration of fairy tale cinema. Bringing together twenty-three of the world's top fairy tale scholars to analyze the enormous scope of these films, Zipes and colleagues Pauline Greenhill and Kendra Magnus-Johnston present perspectives on film from every part of the globe from Hayao Miyazaki's *Spirited Away* to Jan van Kester's *Alice* to the transnational adaptations of *1001 Nights* and Hans Christian Andersen. Contributors explore filmic traditions in each area not only from their different cultural backgrounds but from a range of academic fields including criminal justice studies, education, film studies, folkloristics, gender studies and literary studies. *Fairy Tale Films Beyond Disney* offers readers an opportunity to explore the intersections, disparities, historical and national contexts of its subject and to further appreciate what has become an undeniably global phenomenon.

fairy tales have long played an important role in cultures around the world. They pass customs and lore from generation to generation, provide insights into the peoples who created them, and offer inspiration to creative artists working in media that now include television, film, manga, photography, and computer games. This second expanded edition of an award-winning reference will help students and teachers as well as storytellers, writers, and creative artists delve into this enchanting world and keep pace with its past and its many new facets. Alphabetically organized and global in scope, the work is the only multivolume reference in English to offer encyclopedic coverage of this subject matter. The four-volume collection covers national, cultural, regional, and linguistic traditions from around the world, as well as motifs, themes, characters, and tale types. Writers and illustrators are included, as are filmmakers and composers, and of course the tales themselves. The expert entries within volumes 1 through 3 are based on the latest research and developments, while the contents of volume 4 comprises tales and texts. While most books either present readers with tales from certain countries or cultures or with thematic entries, this encyclopedia stands alone in that it does both, making it a truly unique one-stop resource. *Telling Tales* Kylie Cardell, Kate Douglas, 2017-08-10

Young writers have historically played a pivotal role in shaping autobiographical genres, and this continues into the graphic and digital texts which characterise contemporary life writing. This volume offers a selection of pertinent case studies which illuminate some of the core themes which have come to characterise autobiographical writings of childhood, including cultural and identity representations and tensions coming into knowledge and education, sexuality, prejudice, war, and trauma. The book also reveals preoccupations with the cultural forms of autobiographical writings of childhood and youth, taking engaging discussions of archives, graphic texts, digital forms, testimony, didacticism in autobiography, and the anthologising of life writing. This collection will open up broader conversations about the scope of life writing about childhood and youth, and the importance of life writing genres in prompting dialogues about literary cultures and coming of age. This book was originally published as a special issue of *Prose Studies*. *Tales from Around the World: A Dog's Tale by Mark Twain, Folk-Tales of Bengal and Philippine Folk Tales (A Dog's Tale by Mark Twain/ Folk-Tales of Bengal by Lal Behari Day/ Philippine Folk Tales by Mabel Cook Cole)* Mark Twain, Lal Behari Day, Mabel Cook Cole, 2024-06-22
