access to titles **Boomeritis** Ken Wilber,2003-09-09 Ken Wilber's latest book is a daring departure from his previous writings a highly original work of fiction that combines brilliant scholarship with tongue in cheek storytelling to present the integral approach to human development that he expounded in more conventional terms in his recent *A Theory of Everything* The story of a naive young grad student in computer science and his quest for meaning in a fragmented world provides the setting in which Wilber contrasts the alienated flatland of scientific materialism with the integral vision which embraces body mind soul and spirit in self culture and nature The book especially targets one of the most stubborn obstacles to realizing the integral vision a disease of egocentrism and narcissism that Wilber calls boomeritis because it seems to plague the baby boomer generation most of all Through a series of sparkling seminar lectures skillfully interwoven with the hero's misadventures in the realms of sex drugs and popular culture all of the major tenets of extreme postmodernism are criticized and exemplified including the author's having a bad case of boomeritis himself Parody intellectual slapstick and a mind twisting surprise ending unite to produce a highly entertaining summary of the work of cutting edge theorists in human development from around the world **Tulpa** Max Overton,2015-09-11 From the rainforests of tropical Australia to the cane fields and communities of the North Queensland coastal strip comes a tale of the horror than can be unleashed by playing with unknown forces It starts with a fairy story to amuse small children but when four bored teenagers and a young university student in a North Queensland town become interested in an ancient Tibetan technique for creating a life form all hell breaks loose literally A seemingly harmless experiment unleashes terror and death and soon the teenagers are fighting to contain a menace that grows exponentially The police are helpless to end the horror and it is left to the teenagers to find a way of destroying the menace aided by two old big game hunters a student of the paranormal and a few small children But how do you destroy beings that can escape into an alternate reality when threatened **The Living Age** ,1927 *Monkey Tricks* Christopher M. White,1983-01-01 **Souls of Distortion Awakening** J. Wicherink,2006-02-17 This book reunites science and spirituality after her roads separated 300 years ago More and more scientists are discovering that both disciplines are only two sides of the same coin We are on the verge of a major paradigm change in science where the immaterial subjective world of the mind can no longer be separated from the objective material world This leap in human consciousness was already foreseen by the ancients and American indigenous people like the Maya Hopi and Aztecs who prophesized that this transformation of consciousness would take place in our time This book takes you on a journey from the ancient wisdom to the most modern scientific insights and demonstrates how both can be united
