

Monnaies Grecques Antiques

Ernest Babelon

Monnaies Grecques Antiques:

Les Monnaies Grecques Ernest Babelon, 2018-03-02 Ce petit livre d'Ernest Babelon publié pour la première fois en 1921 est le fruit d'une rudition sans failles mise à la portée du grand public. En 160 pages foisonnantes l'auteur fait un aperçu historique complet des monnaies grecques antiques. Entre leur invention au VII^e siècle avant J.C. et la fin des monnaies grecques au III^e siècle après J.C. 1000 ans d'histoire se sont coulés. Au fil des pages le lecteur découvre de façon originale la civilisation grecque et ses grandes évolutions sous un angle économique, politique et artistique. 5 chapitres courts mais très riches présentent l'invention de la monnaie par les Grecs dans l'Antiquité et l'évolution des monnaies au cours des différentes périodes de l'histoire grecque. Chapitre I Genèse de la Monnaie. Chapitre II La période archaïque Des origines aux Guerres Médiques. Chapitre III La grande époque de l'art monétaire V^e et IV^e siècles avant J.C. Chapitre IV l'époque hellénistique. Chapitre V les monnaies grecques sous l'Empire romain. Au fil des pages le lecteur découvrira les plus anciens systèmes monétaires et les différentes pièces grecques antiques comme l'obole, la drachme ou encore le statère qui sont encore bien connues aujourd'hui. Le lecteur découvrira également quelques pièces exceptionnelles qui ont marqué l'histoire de l'art comme le didrachme de Marathon ou encore l'exceptionnel didrachme de Syracuse. Au détour des pages on croise quelques personnages historiques célèbres qui ont marqué l'histoire grecque comme Crésus, Darius, Philippe de Macédoine ou encore bien sûr Alexandre le Grand. Naturellement les Grecs ont représenté sur les monnaies les dieux, demi-dieux, héros et les multiples divinités de leur foisonnante mythologie. Chaque cité avait son propre symbole : Athènes et la chouette pour Athènes mais aussi le Minotaure et le Labyrinthe en Crète, la tortue pour la Péloponnèse, le taureau de Sybaris. On découvre aussi sur les pièces Apollon, la Victoire, Poséidon, Zeus et quasiment tout le Panthéon de la mythologie grecque ainsi qu'une multitude d'animaux variés, de fruits, de temples et même d'insectes. Les artistes grecs ont très rapidement poussé la perfection de l'art de la fabrication des pièces de monnaie. Certaines de ces pièces sont des chefs-d'œuvre immortels comme par exemple les merveilleux tétradrachmes de Syracuse signés par leurs auteurs Cimon, Eucléidas ou encore Eumène et Euthymos. 21 illustrations en noir et blanc ponctuent le livre. Parmi ces illustrations on peut découvrir les images de quelques unes des pièces les plus remarquables de la numismatique grecque. L'ouvrage qui constitue une excellente initiation à la numismatique grecque intéressera sans doute les collectionneurs mais aussi les étudiants en histoire et en histoire de l'Art ainsi bien sûr que les amateurs de mythologie grecque et de façon générale les curieux soucieux de mieux comprendre les origines de la civilisation occidentale.

Monnaies grecques antiques Naville & Cie (Geneva, Switzerland), Samuel Pozzi, 1920 Monnaies grecques antiques, 1992 *Traité des monnaies grecques et romaines* Ernest Babelon, 1901. According to the editor's preface in the 1st vol. this work was originally intended to be divided into just 3 overall parts: Thémis et doctrine, pt I, v 1-3; Description historique, pt II, v 1-4; Planches, pt III, plates I-CCCLV. However, as the publication continued, another section was added called Monnaies orientales, designated only as III and issued with at least 1 vol of text and 1 set of plates.
