Mono Lake Guidebook

David Carle, Don Banta

Mono Lake Guidebook:

Mono Lake Guidebook David Gaines, Lauren C. Davis, 1989 **Mono Lake Basin** David Carle, Don Banta, 2008-11-01

Mono Lake dominates the volcanic landscape east of the Sierra Nevada between Yosemite National Park and Nevada. The lake's unusual water chemistry produces algae and brine shrimp feeding millions of birds and creating strange mineral formations called tufa for which the lake is famed. From the early days of the Kuzedika Paiutes to the arrival of miners and settlers in the late 19th century, the lake has stood sentinel for the surrounding camps, mines, and towns. Around the lake, the town of Lee Vining has served travelers and residents since 1926, and Carson Camp has been a recreational destination for generations. Some of the world's earliest hydroelectric plants were established here, and Los Angeles began diverting streams and channeling their waters beneath the Mono Craters to the city's aqueduct in the 1940s. Impacts of those water diversions gradually became apparent, generating controversy around this otherwise placid landscape. The Deva Handbook

Nathaniel Altman, 1995-06. Draws on native traditions around the world as well as modern teachings to explore the significance of the devas, often known as angels, orishas, and the shining ones. B & W photos. Guidebook, 1933. *California Tourist Guide and Handbook* Wells Drury, Aubrey Drury, 1913 **Algae from the Arid Southwestern United States**

William Hewitt Thomas, 1983. This report is a bibliography of papers pertaining to algae found in the arid southwestern United States. Also included are some related papers that pertain to the habitats where the algae occur. Following each reference is an annotation describing the contents of the paper. The annotation in most cases consists of the author's abstract. Sometimes we have written an abstract particularly for long review papers and books. The report is organized by state: California, Nevada, Utah, etc., and papers on algae are separated from related papers on their habitat. Keywords are included for each paper, and the bibliography is set up on microcomputer disk for searching by these keywords. **The Complete**

Guidebook to Yosemite National Park Steven P. Medley, 2018-03-06. In addition to things to see and do in the major regions of Yosemite, this guidebook also provides reservation information and dining options, suggests hikes and excursions at any level of desired activity, promotes safe enjoyment of the park, and covers major and little-known natural features. Also included are information on roads and gateway communities, tips on how to reserve a campsite or lodging, photos of flora and fauna, and important phone numbers, emails, and web sites, and updated maps. New to this eighth edition are connectivity and technology information, a Hike Smart safety section with loads of tips, all new photographs. *The Conservation Handbook*

William J. Sutherland, 2008-04-15. Textbooks on the principles of conservation biology abound. Yet how does one put this theoretical knowledge into practice? The aim of *The Conservation Handbook* is to provide clear guidance on the implementation of conservation techniques. The wide range of methods described includes those for ecological research, monitoring, planning, education, habitat management, and combining conservation with development. Nineteen case studies illustrate how the methods have been applied. The book will be of interest to conservation biology students and practicing

conservationists worldwide For each copy of the book sold another copy will be sent free to a practicing conservationist outside Western Europe North America Australia New Zealand and Japan Foreword by E O Wilson Concise practical guide packed full of ideas methods and advice Provides solutions for the main conservation problems most commonly encountered 18 global case studies illustrate the application of techniques The Conservation Handbook Donations Project this book is being sent free to those practising conservationists outside Western Europe North America Australia New Zealand and Japan who are otherwise unlikely to obtain a copy These copies are provided at cost price by Blackwell Science the publisher and paid for with the author s royalties Each book sold means another one will be donated **The California Naturalist**
