Monopoly on the Tyne, 1650-58 Tyne and Wear (England). Archives Department, 1978 **Life on the Tyne** Peter D. Wright, 2016-05-06 Whilst the early modern period has long been recognized as witnessing a growth in trade and consumerism the majority of studies to date have tended to focus upon London and southern England In order to provide a more balanced understanding of the dynamics at work on a national level this book explores the local economy and waterborne trades of Newcastle and the River Tyne in North East England Drawing upon a variety of primary sources including parish records probate inventories Newcastle Exchequer port books and the previously unpublished diary of an apprentice hostman none of which have been examined previously in this context the study adds significantly to our understanding of the growing community in North East England In particular it underlines the expansion of a thriving middling class with an associated culture of consumption driving a rapid increase in the import and often re export of a wide range of luxury items of food clothing and soft furnishings As the coal trade and a flourishing general trade with London and other home and overseas ports grew the book highlights the major impact upon the size and variety of work in the port and the subsequent increasing size and complexity of the water trades community and its associated business networks **The First Modern Society** Lawrence Stone, A. L. Beier, 1989-07-06 Intended to celebrate the 70th birthday of the distinguished historian Lawrence Stone these essays owe much to his influence There are also four appreciations by friends and colleagues from Oxford and Princeton and a little known autobiographical piece by Lawrence Stone himself **Ralph Tailor's Summer** Keith Wrightson, 2011-12-06 The plague outbreak of 1636 in Newcastle upon Tyne was one of the most devastating in English history This hugely moving study looks in detail at its impact on the city through the eyes of a man who stayed as others fled the scrivener Ralph Tailor As a scrivener Tailor was responsible for many of the wills and inventories of his fellow citizens By listening to and writing down the final wishes of the dying the young scrivener often became the principal provider of comfort in people s last hours Drawing on the rich records left by Tailor during the course of his work along with many other sources Keith Wrightson vividly reconstructs life in the early modern city during a time of crisis and envisions what such a calamitous decimation of the population must have meant for personal familial and social relations *The Tudor and Stuart Town 1530 - 1688* Jonathan Barry, 2014-06-17 The Tudor and Stuart Town brings together many of the most important articles in the field of urban history **The English Town, 1680-1840** Rosemary Sweet, 2014-06-17 An impressively thorough exploration of the changing functions character and experience of English towns in a key age of transition which includes smaller communities as well as the larger industrialising towns Among the issues examined are demography social stratification manners religion gender dissent amenities and entertainment and the resilience of provincial culture in the face of the growing influence of London At its heart is an authoritative study of urban politics the structures of authority the realities of civic administration and the general movement for reform that climaxed in the Municipal Corporations Act of

1835 Cities and Solidarities Justin Colson,Arie van Steensel,2017-01-06 Cities and Solidarities charts the ways in which the study of individuals and places can revitalise our understanding of urban communities as dynamic interconnections of solidarities in medieval and early modern Europe This volume sheds new light on the socio economic conditions the formal and informal institutions and the strategies of individual town dwellers that explain the similarities and differences in the organisation and functioning of urban communities in pre modern Europe It considers how communities within cities and towns are constructed and reconstructed how interactions amongst members of differing groups created social and economic institutions and how urban communities reflected a sense of social cohesion In answering these questions the contributions combine theoretical frameworks with new digital methodologies in order to provoke further discussion into the fundamental nature of urban society in this key period of change The essays in this collection demonstrate the complexities of urban societies in pre modern Europe and will make fascinating reading for students and scholars of medieval and early modern urban history
