**Monopoly's Moment** Christopher Armstrong, 1986      Making Managers in Canada, 1945-1995 Jason

Russell, 2018-06-14 Management education and training was a key influence on Canadian capital and labour in the post World War II decades however it has been the subject of comparatively little academic inquiry In many ways historians have frequently learned about management behavior in unionized workplaces by examining labor management relations The management experience has thus often been seen through the eyes of rank and file workers rather than from the perspective of managers themselves This book discusses how managers were trained and educated in Canada in the years following the Second World War Making Managers in Canada 1945 1995 seeks to shed light on the experience of workers who have not received much attention in business history managers This book approaches management training from both institutional and social history perspectives Drawing from community colleges universities and companies in British Columbia Ontario and Qu bec this book reveals the nature of management education and training in English and French Canada It integrates institutional analysis and examines how factors such as gender and social class shaped the development of Canadian management in the post war years and illustrates the various international influences on Canadian management education

Alan Bowker's Canadian Heritage 2-Book Bundle Alan Bowker, 2015-12-07 In this two book bundle Alan Bowker sheds new light on two subjects with a surprising connection the great Canadian writer Stephen Leacock and the rise of Canada on the world stage which Leacock profiled with keen wit and observational skill With Bowker as your guide explore what it was really like to live through the great upheaval that pushed Canada to come into its own on the world stage A Time Such as There Never Was Before Ottawa Book Award 2015 Shortlisted The years after World War I were among the most tumultuous in Canadian history a period of unrelenting change drama and conflict They were in the words of Stephen Leacock a time such as there never was before The war had been a great crusade and its end was supposed to bring a world made new But the conflict had cost sixty thousand Canadian lives with many more wounded and had stirred up divisions in the young diverse country With Canada struggling to define itself labour farmers business the church social reformers and minorities all held extravagant hopes irrational fears and contradictory demands Whose hopes would be realized and whose dreams would end in disillusionment Which changes would prove permanent and which would be transitory A Time Such As There Never Was Before describes how this exciting period laid the foundation of the Canada we know today On the Front Line of Life In the last decade of his life Stephen Leacock turned to writing informal essays that blended humour with a conversational style and ripened wisdom to address issues he cared about most education literature economics Canada and its place in the world and to confront the joys and sorrows of his own life With an introduction that sets them in the context of his life thoughts and times these essays reveal a passionate intelligent personal Leacock against a backdrop of Depression and war finding hope and conveying the timeless message that only the human spirit can bring social justice peace and

progress     Failure of l'Action Libérale Nationale Patricia Dirks,1991-08-01 The ALN gained widespread business popular and church support by promising francophones both control of a modern Quebec economy and preservation of the traditional social order As Dirks shows however this support came from people with different and sometimes contradictory objectives causing internal tensions which weakened the ALN from the outset This weakness was compounded by poor leadership financial difficulties and the tactics of the other political parties in Quebec The Quebec Liberal and Conservative Parties worked independently to undermine the ALN and any possibility of its gaining power in Quebec Maurice Duplessis leader of the Quebec Conservative party skilfully exploited the ALN s weaknesses in the interests of his own party by the formation of the Union Nationale This coalition of the ALN and the provincial Conservatives capitalized on the popularity of the ALN to win the provincial election of 1935 but ensured that power remained in the hands of what was essentially the Quebec Conservative Party Dirks insight into the political history of Quebec is informed by a multitude of sources She conducted interviews with many of the leading political players of the time including the late Paul Gouin the original leader of the ALN She also consulted many public and private archives including Gouin s and was allowed unrestricted access to Duplessis papers for the period up to 1939 the year the ALN ceased to exist In relating the rise and fall of the ALN to the socio economic ideological and political developments which shaped Quebec during the early decades of the twentieth century Dirks reveals its long term impact on the operation and organization of political parties in Quebec and Canada     *Invisible Empire* Jean-Guy Rens,2001 The Invisible Empire provides the first overview of Canadian telecommunications from the laying of the first telegraph line between Toronto and Hamilton in 1846 to the separation between Nortel then known as Northern Electric and the American Bell System in 1956     Native Peoples and Water Rights Kenichi Matsui,2009-05 The first in depth interdisciplinary study of Native water rights issues in Canada     **J.W. spending and giving away money on the grandest scale

**The Grid** Julie A Cohn, 2018-02-02 The history of the grid the world's largest interconnected power machine that is North America's electricity infrastructure The North American power grid has been called the world's largest machine The grid connects nearly every living soul on the continent Americans rely utterly on the miracle of electrification In this book Julie Cohn tells the history of the grid from early linkages in the 1890s through the grid's maturity as a networked infrastructure in the 1980s She focuses on the strategies and technologies used to control power on the grid in fact made up of four major networks of interconnected power systems paying particular attention to the work of engineers and system operators who handled the everyday operations To do so she consulted sources that range from the pages of historical trade journals to corporate archives to the papers of her father Nathan Cohn who worked in the industry from 1927 to 1989 roughly the period of key power control innovations across North America Cohn investigates major challenges and major breakthroughs but also the hidden aspects of our electricity infrastructure both technical and human She describes the origins of the grid and the growth of interconnection emerging control issues including difficulties in matching generation and demand on linked systems collaboration and competition against the backdrop of economic depression and government infrastructure investment the effects of World War II on electrification postwar plans for a coast to coast grid the northeast blackout of 1965 and the East West closure of 1967 and renewed efforts at achieving stability and reliability after those two events

*Cities of Light and Heat* Mark H. Rose, 1995-01-01 *Cities of Light and Heat* takes us to Kansas City and Denver during the late nineteenth century when gas and electricity were introduced to these instant cities of the west With rich detail Mark Rose shows how the new technology spread during the next century from a few streets and businesses within the city limits to countless private homes in the suburbs In Kansas City and Denver as in most communities throughout the U S business executives city leaders and engineers acted as early promoters of the new technology But by the early 1900s educators home builders architects and salespersons were becoming increasingly important as gas and electric utilities and appliances reached more and more American homes But these voices for the new technology brought with them their own social attitudes and cultural values By mid century whether in the classroom or in advertisements Americans were regularly encouraged to fit the new technology within prevailing notions of cleanliness comfort convenience and gender Although in hindsight the spread of modern technology might seem inevitable to us Rose shows how even the leaders of the nation's great gas and electric corporations with their vast production and distribution facilities were subject to geography competing ideologies urban politics and even the choices of ordinary consumers Rose thus locates the driving force behind the diffusion of technology in the neighborhoods kitchens and offices of the city *Cities of Light and Heat* shows the importance of culture politics and urban growth in shaping technological change in the cities of North America

*Historic Cities of the Americas* David F. Marley, 2005-09-12 With rare maps prints and photographs this unique volume explores the dramatic history of the Americas through the birth and development of the

hemisphere's great cities Written by award winning author David F Marley *Historic Cities of the Americas* covers the hard to find information of these cities earliest years including the unique aspects of each region's economy and demography such as the growth of local mining trade or industry The chronological layout aided by the numerous maps and photographs reveals the exceptional changes relocations destruction and transformations these cities endured to become the metropolises they are today *Historic Cities of the Americas* provides over 70 extensively detailed entries covering the foundation and evolution of the most significant urban areas in the western hemisphere Critically researched this work offers a rare look into the times prior to Christopher Columbus arrival in 1492 and explores the common difficulties overcome by these European conquered or founded cities as they flourished into some of the most influential locations in the world *Municipal Services and Employees in the Modern City* Michèle Dagenais,Irene Maver,2016-04-15 *Municipal Services and Employees in the Modern City* considers the roles played by local institutions and particular processes that shaped the urban fabric It rediscovers from models and maps the constituent dynamics of cities since the beginning of the nineteenth century and demonstrates how patterns evolved in the way services and locations were organized how urban transformation was underpinned by structural development and how the municipal workforce became an integral part of the agencies of change *Municipal Services and Employees in the Modern City* suggests that municipal experiences are central to the development of urban studies Its focus of analysis ranges across Europe and the Americas from high ranking bureaucrats to firefighters engineers to accountants and town clerks to public servants Each essay provides detailed information on how change was formulated or resisted within the administrative apparatus offering insight into a sector of the white collar class and the degree of commitment to public values often at times of social and political upheaval They explore the course of relationships between local and central government and the shifting bounds of municipal interventionism over a broad period whilst incorporating a social history approach to interpret the day to day responsibilities and routine of administration *Powering Up Canada* R.W. Sandwell,2016-11-01 With growing concerns about the security cost and ecological consequences of energy use people around the world are becoming more conscious of the systems that meet their daily needs for food heat cooling light transportation communication waste disposal medicine and goods *Powering Up Canada* is the first book to examine in detail how various sources of power fuel and energy have sustained Canadians over time and played a pivotal role in their history *Powering Up Canada* investigates the ways that the production processing transportation use and waste issues of various forms of energy changed over time transforming almost every aspect of society in the process Chapters in the book's first part explore the energies of the organic regime food animal muscle water wind and firewood while those in the second part focus on the coal oil gas hydroelectricity and nuclear power that define the mineral regime Contributors identify both continuities and disparities in Canada's changing energy landscape in this first full overview of the country's distinctive energy history Reaching across disciplinary boundaries these essays not only demonstrate why and how energy serves as a

lens through which to better understand the country's history but also provide ways of thinking about some of its most pressing contemporary concerns Engaging Canadians in an urgent international discussion on the social and environmental history of energy production and use and its profound impact on human society Powering Up Canada details the nature and significance of energy in the past present and future Contributors include Jenny Clayton University of Victoria George Colpitts University of Calgary Colin Duncan Queen's University J I Little Emeritus Simon Fraser University Joanna Dean Carleton University Matthew Evenden University of British Columbia Laurel Sefton MacDowell Emerita University of Toronto Mississauga Joshua MacFadyen Arizona State University Eric Sager University of Victoria Jonathan Peyton University of Manitoba Steve Penfold University of Toronto Philip van Huizen McMaster University Andrew Watson University of Saskatchewan and Lucas Wilson independent scholar **Canada and Arctic North America** Graeme Wynn,2006-11-10

This comprehensive treatment of the environmental history of northern North America offers a compelling account of the complex encounters of people technology culture and ecology that shaped modern day Canada and Alaska From the arrival of the earliest humans to the very latest scientific controversies the environmental history of Canada and Arctic North America is dramatic diverse and crucial for the very survival of the human race Packed with key facts and analysis this expert guide explores the complex interplay between human societies and the environment from the Aleutian Islands to the Grand Banks and from the Great Lakes to the Arctic Islands How has the challenging environment of America's most northerly regions with some areas still dominated by native peoples helped shape politics and trade What have been the consequences of European contact with this region and its indigenous inhabitants How did natives and newcomers cope with and change this vast and forbidding territory Can a perspective on the past help us in grappling with the conflict between oil exploration and wilderness preservation on the North Slope of Alaska Part of ABC CLIO's Nature and Human Societies series this unique work charts the region's environmental history from prehistory to modern times and is essential reading for students and experts alike **Innovation as a Social Process** W. White Gold Karl Froschauer,2011-11-01 During the past fifty years Canadians have seen many of their white water rivers dammed or diverted to generate electricity primarily for industry and export The rush to build dams increased utility debts produced adverse consequences for the environment and local communities and ultimately resulted in the layoff of 25 000 employees White Gold looks at what went wrong with hydro development with the predicted industrial transformation with the timing and magnitude of projects and with national and regional initiatives to link these major projects to a trans Canada

power grid Karl Froschauer examines five major hydroelectric projects Niagara Falls Ontario Churchill Falls Labrador James Bay Quebec the Nelson River Manitoba and the Peace River British Columbia applying a political economic perspective that unifies his analysis of patterns of hydro development in Canada He points out that in the 1960s and 70s federal and interprovincial conflicts over transmission line ownership hydro plant investments extra provincial authority and export agendas undermined several national and regional power grid initiatives He then argues that if the provinces had chosen to integrate their power project within a national electricity network substantial technical economic and environmental advantages could have resulted Instead of providing the infrastructure for a national power grid and serving as a force for indigenous secondary industry the provincial expansions of Canada's hydro resources have merely fostered continued dependence on branch plant industrial development and staples export and have created vast surpluses of electricity for continental rather than national use Meticulously researched and documented *White Gold* is the first comprehensive study of hydroelectric power development in Canada Its useful analytical framework and provincial comparisons illuminate and critique the path of development over the last century and offer lessons for the future Negotiating a River Daniel

Macfarlane, 2014-03-01 It was a megaproject half a century in the making a technological and engineering marvel that stands as one of the most ambitious borderlands undertakings ever embarked upon by two countries The planning and building of the St Lawrence Seaway and Power Project is one of the defining episodes in North American history The project began with transnational negotiations that spanned two world wars and the formative years of the Cold War and included a failed attempt to construct an all Canadian seaway which was scuttled by US national security fears Once an agreement was reached the massive engineering and construction operation began as did the efforts to move people and infrastructure away from the thousands of acres of land that would soon be flooded *Negotiating a River* looks at the profound impacts of this megaproject from the complex diplomatic negotiations political manoeuvring and environmental diplomacy to the implications on national identities and transnational relations **Uniting in Measures of Common Good** Darren

Ferry, 2008 In a compelling and comprehensive treatment of the nineteenth century voluntary association movement Darren Ferry situates these organizations within the much larger framework of the construction of collective liberal identities He shows that by attempting to transcend the political religious class and ethnic divisions of their constituencies voluntary societies acted as cultural mediators in the reproduction transmission and contestation of liberal values throughout central Canadian society Ferry examines a wide selection of voluntary societies mechanics institutes mutual benefit organizations agricultural associations temperance societies and literary and scientific associations He reinterprets the history of these organizations in terms of their own internal tensions over liberal doctrines and the effect of social cultural and economic change and compares the effects of liberalism on rural and urban associations and on societies in both English and French Canada Anchored with an array of archival documentation minute books lectures associational periodicals personal papers

pamphlets and tracts *Uniting in Measures of Common Good* illuminates the experience of ordinary Canadians with the voluntary association movement and as well as the relations of the movement with the larger liberal society Expressive Acts Ian Radforth, 2023-01-31 In nineteenth century Toronto people took to the streets to express their jubilation on special occasions such as the 1860 visit of the Prince of Wales and the return in 1885 of the local Volunteers who helped to suppress the Riel resistance in the North West In a contrasting mood people also took to the streets in anger to object to government measures such as the Rebellion Losses bill to heckle rival candidates in provincial election campaigns to assert their ethnic religious differences and to support striking workers *Expressive Acts* examines instances of both celebration and protest when Torontonians publicly displayed their allegiances politics and values The book illustrates not just the Victorian city's vibrant public life but also the intense social tensions and cultural differences within the city Drawing from journalists' accounts in newspapers *Expressive Acts* illuminates what drove Torontonians to claim public space where their passions lay and how they gave expression to them *Tax, Order, and Good Government* E.A. Heaman, 2017-06-08 Was Canada's Dominion experiment of 1867 an experiment in political domination Looking to taxes provides the answer they are a privileged measure of both political agency and political domination To pay one's taxes was the sine qua non of entry into political life but taxes are also the point of politics which is always about the control of wealth Modern states have everywhere been born of tax revolts and Canada was no exception Heaman shows that the competing claims of the propertied versus the people are hardwired constituents of Canadian political history Tax debates in early Canada were philosophically charged politically consequential dialogues about the relationship between wealth and poverty Extensive archival research from private papers commissions the press and all levels of government serves to identify a rising popular challenge to the patrician politics that were entrenched in the Constitutional Act of 1867 under the credo Peace Order and good Government Canadians wrote themselves a new constitution in 1867 because they needed a new tax deal one that reflected the changing balance of regional racial and religious political accommodations In the fifty years that followed politics became social politics and a liberal state became a modern administrative one But emerging conceptions of fiscal fairness met with intense resistance from conservative statesmen culminating in 1917 in a progressive income tax and the bitterest election in Canadian history *Tax Order and Good Government* tells the story of Confederation without exceptionalism or misplaced sentimentality and in so doing reads Canadian history as a lesson in how the state works *Tax Order and Good Government* follows the money and returns taxation to where it belongs at the heart of Canada's political economic and social history
