found herein covers many states ignored by previous food writers. Students will find much of cultural interest here to complement country studies and foodies will discover fresh perspectives. From prehistoric times there has been considerable mixing of cultures and cuisines within India. Today the endless variations in cuisine reflect religious, community, regional, and economic differences and histories. Sen, a noted author on Indian cuisine, consummately encapsulates the foodways in historical context, including the influence of the British period, the Raj. Among the topics covered are the restrictions of various religions and castes and the northern wheat-based vs. the southern rice-based cuisine, with an extensive review of each regional cuisine with typical meals. She characterizes the only recent restaurant culture with mention of Indian fare offered abroad. In addition, the Indian sweet tooth so apparent in the dishes made for many festivals and celebrations is highlighted. The roles of diet and health are also explained with an emphasis on Ayurveda, which is gaining support in Western countries. A plethora of recipes for different regions and occasions complements the text.

**Salman Rushdie in the Cultural Marketplace** Ana Cristina Mendes, 2016-03-23 Taking up the roles that Salman Rushdie himself has assumed as a cultural broker, gatekeeper, and mediator in various spheres of public production, Ana Cristina Mendes situates his work in terms of the contemporary production, circulation, and consumption of postcolonial texts within the workings of the cultural industries. Mendes pays particular attention to Rushdie as a public performer across various creative platforms, not only as a novelist and short story writer but also as a public intellectual, reviewer, and film critic. Mendes argues that how a postcolonial author becomes personally and professionally enmeshed in the dealings of the cultural industries is of particular relevance at a time when the market is strictly regulated by a few multinational corporations. She contends that marginality should not be construed exclusively as a basis for understanding Rushdie's work, since a critical grounding in marginality will predictably involve a reproduction of the traditional postcolonial binaries of oppressor/oppressed and colonizer/colonized that the writer subverts. Rather, she seeks to expand existing interpretations of Rushdie's work, itineraries, and frameworks in order to take into account the actual conditions of postcolonial cultural production and circulation within a marketplace that is global in both orientation and effects.

**Diasporic Tastes** Paula Torreiro Pazo, 2016 *Diasporic Tastes* seeks to explore the culinary metaphors present in a selection of Asian American narratives written by a variety of contemporary authors. The intricate web of culinary motifs featured in these texts offers a fertile ground for the study of the real and imaginary histories of the Asian American community, an ethnic minority that has been persistently racialized through its eating habits. Thus, this book examines those literary contexts in which the presence of food images becomes especially meaningful as an indicator of the nostalgia of the immigrant, the sense of community of the diasporic family, the clash between generations, and the shocks of arrival and return. The reading of Asian American edible metaphors from these perspectives will prove particularly revealing in relation to the notions of home, identity, and belonging, all of them mainstays of the diasporic consciousness.
