When the Center Is on Fire Diane Sue Harriford, Becky W. Thompson, 2021 In this lively and provocative book two feminist public sociologists turn to classical social thinkers W E B Du Bois Max Weber Karl Marx and mile Durkheim to understand a series of twenty first century social traumas including the massacre at Columbine High School the 9 11 attacks the torture at Abu Ghraib prison and Hurricane Katrina Each event was overwhelming in its own right while the relentless pace at which they occurred made it nearly impossible to absorb and interpret them in any but the most superficial ways Yet each uncovered social problems that cry out for our understanding and remediation In *When the Center Is on Fire* Becky Thompson and Diane Harriford assert that classical social theorists grappled with the human condition in ways that remain profoundly relevant They show for example that the loss of double consciousness that Du Bois identified in African Americans enabled political elites to turn a blind eye to the poverty and vulnerability of many of New Orleans s citizens The authors compelling sometimes irreverent often searing interpretations make this book essential reading for students activists generations X Y and Z and everybody bored by the 6 o clock news

Senseless Violence and Its Ramifications Ami Rokach, 2018-10-22 The baby boomer generation grew up in the 1950s when there existed the general belief that the Cold War was the greatest threat to the world order and a frightening possibility. It was difficult to believe then that it could get worse but the same threat of violence is now a daily occurrence around the globe. People are being shot, slaughtered, maimed and disappear for a multitude of reasons none having any connection most of the time with the victims. The scale of loss when these tragedies occur is devastating leaving the public as well as policy makers and legislators scrambling for solutions, clarification and understanding of how we have become a society where violence is so rampant, so frequent and so senseless. This book includes contributions by leading experts on violence and its ramifications who review the devastation, reasons and consequences of violence which is senseless, cruel and aims to hurt and destroy anyone in its path. This book was originally published as a special issue of *The Journal of Psychology*.

Digital Innovations for Mass Communications Paul Martin Lester, 2013-11-12 In every field of mass communications: advertising, entertainment studies, journalism, public relations, radio, television, film, tourism and visual reporting, professionals understand the importance of storytelling. Regardless of whether the finished product is a commercial, an in-depth investigative piece, a public service campaign, an independent documentary, a travelogue or a collection of photographs, effective storytelling requires a combination of creativity, empathy and expertise. Through the innovative technologies and techniques described in this textbook, students will learn how to turn passive readers and viewers into engaged and regular users. The sixteen chapters each include a brief introduction, assignments, simple to follow step-by-step exercises and sources for additional information in which users will learn to produce apps, informational graphics, quick response codes, quizzes, simulations, smartphone and tablet icons, social media campaigns, three-dimensional pictures and video. Students will work with the following programs: Blogger, Dreamweaver, Excel, Facebook, GeoCommons, Google Maps, Illustrator, iMovie, iPhoto, iShowU, JavaScript, JustGive, Kaywa, Kickstarter, LinkedIn, Onvert, Photoshop, Pixel Resort, QuickTime, Reddit, Second Life, SurveyMonkey, TheAppBuilder, Twitter, Vizualize, Wikipedia, Word, WordPress and YouTube. When digital innovations are added to traditional print and screen presentations, a media user is not only allowed to interact with the information but can also physically engage with the story displayed. Giving students the tools they need to transform their storytelling in this manner is the ultimate goal of this textbook.

Image Control Patrick Nathan, 2022-08-09 Susan Sontag meets Hanif Abdurraqib in this fascinating exploration of the unexpected connections between how we consume images and the insidious nature of Fascism. Images come at us quickly, often without context. A photograph of Syrian children suffering in the wake of a chemical attack segues into a stranger's pristine Instagram selfie. Before we can react to either, a new meme induces a laugh and a share. While such constant give and take might seem innocent, even entertaining, this barrage of content numbs our ability to examine critically how the world broken down into images affects us. Images without context isolate us, turning everything we experience into mere transactions. It is exactly this alienation that leaves us vulnerable to fascism.

reactionary politics that is destroying not only our lives and our nations but also the planet's very ability to sustain human civilization Who gets to control the media we consume Can we intervene or at least mitigate the influence of constant content Mixing personal anecdotes with historical and political criticism *Image Control* explores art social media photography and other visual mediums to understand how our culture and our actions are manipulated all the while building toward the idea that if fascism emerges as aesthetics then so too can anti fascism Learning how to ethically engage with the world around us is the first line of defense we have against the forces threatening to tear that world apart *What to Watch When* Christian Blauvelt, Laura Buller, Andrew Frisicano, Stacey Grant, Mark Morris, Drew Toal, Eddie Robson, Maggie Serota, Matthew Turner, Laurie Ulster, 2020-10-27 Answering the eternal question WHAT TO WATCH NEXT Looking for a box set to get your adrenaline racing or to escape to a different era In need of a good laugh to lift your spirits Hunting for a TV show that the whole family can watch together If you're feeling indecisive about your next binge watching session we've done the hard work for you Featuring 1 000 carefully curated reviews written by a panel of TV connoisseurs *What To Watch When* offers up the best show suggestions for every mood and moment *The Vampire in Folklore, History, Literature, Film and Television*, 2015-09-18 This comprehensive bibliography covers writings about vampires and related creatures from the 19th century to the present More than 6 000 entries document the vampire's penetration of Western culture from scholarly discourse to popular culture politics and cook books Sections by topic list works covering various aspects including general sources folklore and history vampires in literature music and art metaphorical vampires and the contemporary vampire community Vampires from film and television from Bela Lugosi's *Dracula* to *Buffy the Vampire Slayer* *True Blood* and the *Twilight Saga* are well represented **Fans, Bloggers, and Gamers** Henry Jenkins, 2006 Henry Jenkins's pioneering work in the early 1990s promoted the idea that fans are among the most active and socially connected consumers of popular culture This volume maps the core theoretical and methodological issues in Fan Studies and also charts the growth of participatory culture on the web **Nothing But Noise** Zachary Wallmark, 2022 *Nothing but Noise* Timbre and Musical Meaning at the Edge explores how timbre shapes musical affect and meaning Integrating perspectives from musicology with the cognitive sciences author Zachary Wallmark advances a novel model of timbre interpretation that takes into account the bodily sensorimotor dynamics of sound production and perception The contribution of timbre to musical experience is clearest in drastic situations where meaning is itself contested that is in polarizing contexts of reception where evaluation of musical timbre by some listeners collides headlong against a competing claim that it is just noise Taking this ubiquitous moment as a starting point the book explores affect reception and timbre semantics through diverse cultural historical case studies that frustrate the acoustic and perceptual boundary between musical sound and noise *Nothing but Noise* includes chapters on the racial and gender politics in the reception of free jazz saxophone screaming in the late 1960s an analysis of contested timbral ideals in the performance practices of the Japanese shakuhachi flute and an historical examination of the overlooked role of

brutal timbres in the moral panic over heavy metal in the eighties and nineties The book closes with a discussion of the slippery social fault lines separating perceptions of musical sound from noise and the ethical stakes of encountering another's aural face

Military Waste Joshua O. Reno, 2020-02-04 World War III has yet to happen and yet material evidence of this conflict is strewn everywhere resting at the bottom of the ocean rusting in deserts and floating in near Earth orbit In *Military Waste* Joshua O Reno offers a unique analysis of the costs of American war preparation through an examination of the lives and stories of American civilians confronted with what is left over and cast aside when a society is permanently ready for war Using ethnographic and archival research Reno demonstrates how obsolete military junk in its various incarnations affects people and places far from the battlegrounds that are ordinarily associated with warfare Using a broad swath of examples from excess planes ships and space debris that fall into civilian hands to the dispossessed and polluted island territories once occupied by military bases to the militarized masculinities of mass shooters *Military Waste* reveals the unexpected and open ended relationships that non combatants on the home front form with a nation permanently ready for war
