Montana Dennis B. Fradin, 1992 This book discusses the geography history industries and famous citizens of the Treasure State Discerning the Dynamics of Jeremiah 25-52 (MT) Mark O'Brien, 2020-06-01 This is the second of a two volume study of the dynamics of the MT version of the Book of Jeremiah The first volume published in 2017 analyzed

chapters 1-25 and this volume will focus on chapters 25-52 of the MT version. As with the first volume, the aim of this one is to show the reader how by paying attention to the Dynamics of the Text, namely how individual passages relate to their immediate and wider contexts, a new understanding of the book emerges. Rather than a loose collection of material assembled over a period of time by a variety of hands, one can discern how the parts of the book combine to portray the dramatic unfolding of Jeremiah's prophetic vocation and how his relationship with God and God's people form an integral part of the book's presentation of the Word of God.

Annual Report on Introduction of Domestic Reindeer Into Alaska United States. Office of Education, 1896 **Miscellaneous Documents** United States. Congress. House, 1883 Theorizing the Standoff Robin Wagner-Pacifici, 2000-03-28. This book combines original theoretical analysis with real-life case studies to examine the nature of the standoff. Starting with the standoffs of Wounded Knee, MOVE, Ruby Ridge, Waco, Freeman of Montana, Tupac Amaru, Republic of Texas, the author explores the archetypal patterns of human action and cognition that move us into and out of these highly charged situations and seeks to theorize the contingency of all such moments. As an emergency situation where interaction is both frozen and continuing, the standoff evokes original ideas about time, space, and appropriate or anticipated action, and individuals and organisations often find their standard operating procedures and categories deflected and transformed. By tracking and analysing such impositions and deflections, this book aims to develop a theory of the fundamental existential indeterminacy of social life and the possible role that improvisation can play in navigating this indeterminacy and preventing a violent and destructive conclusion. Co-winner of the 2001 Best Book Award given by the Sociology of Culture Section of the American Sociological Association. **Congressional Record** United States. Congress, 1994 **Montana Summer: 101 Great Adventures in Big Sky Country** Brian D'Ambrosio, **Federal Energy Regulatory Commission Reports** United States. Federal Energy Regulatory Commission, 2005-04 *The Nez Perces in the Indian Territory* J. Diane Pearson, 2014-10-22. Following the Nez Perce War of 1877, federal representatives promised the Nimiipuu who surrendered with Chief Joseph repatriation to their Pacific Northwest homes. Instead, they were driven into exile. This book tells the story of the Nimiipuu captivity and deportation and offers an in-depth analysis of the resistant Nez Perce, Cayuse, and Palus bands during their incarceration. Focusing on the tribes' eight years in exile, J. Diane Pearson describes their arduous forced journey from Montana to the Ponca Agency in Indian Territory. She depicts their everyday experiences in a captivity marked by grueling poverty and disease to weave a compelling story of tragedy and heroism. The resistance of the survivors is a never-before-told story reconstructed through new sources and oral histories. Pearson tells how the Nimiipuu advocated for their aboriginal and civil rights and for the return to their Wallowa Valley homelands. And she describes how they turned their prison odyssey into a time of renewal, learning to adapt to federal strategies in order to force authorities to heed their voices and finally negotiating their release in 1885. Impeccably researched with insights into the prisoners' daily lives, *The Nez Perces in the Indian Territory* is the only comprehensive

record of this phase of Nez Perce history *The Historical Archaeology of Military Sites* Clarence Raymond Geier, Lawrence E. Babits, Douglas Dowell Scott, David G. Orr, 2010-12-15 The recent work of anthropologists historians and historical archaeologists has changed the very essence of military history While once preoccupied with great battles and the generals who commanded the armies and employed the tactics military history has begun to emphasize the importance of the common man for interpreting events As a result military historians have begun to see military forces and the people serving in them from different perspectives The Historical Archaeology of Military Sites has encouraged efforts to understand armies as human communities and to address the lives of those who composed them Tying a group of combatants to the successes and failures of their military commanders leads to a failure to understand such groups as distinct social units and in some instances self supporting societies structured around a defined social and political hierarchy regulated by law needing to be supplied and nurtured and often at odds with the human community whose lands they occupied be they those of friend or foe The Historical Archaeology of Military Sites will afford students professionals dealing with military sites and the interested public examples of the latest techniques and proven field methods to aid understanding and conservation of these vital pieces of the world s heritage **After Custer** Paul L. Hedren, 2012-09-04 Between 1876 and 1877 the U S Army battled Lakota Sioux and Northern Cheyenne Indians in a series of vicious conflicts known today as the Great Sioux War After the defeat of Custer at the Little Big Horn in June 1876 the army responded to its stunning loss by pouring fresh troops and resources into the war effort In the end the U S Army prevailed but at a significant cost In this unique contribution to American western history Paul L Hedren examines the war s effects on the culture environment and geography of the northern Great Plains their Native inhabitants and the Anglo American invaders As Hedren explains U S military control of the northern plains following the Great Sioux War permitted the Northern Pacific Railroad to extend westward from the Missouri River The new transcontinental line brought hide hunters who targeted the great northern buffalo herds and ultimately destroyed them A de buffaloed prairie lured cattlemen who in turn spawned their own culture Through forced surrender of their lands and lifeways Lakotas and Northern Cheyennes now experienced even more stress and calamity than they had endured during the war itself The victors meanwhile faced a different set of challenges among them providing security for the railroad crews hide hunters and cattlemen Hedren is the first scholar to examine the events of 1876 77 and their aftermath as a whole taking into account relationships among military leaders the building of forts and the army s efforts to memorialize the war and its victims Woven into his narrative are the voices of those who witnessed such events as the burial of Custer the laying of railroad track or the sudden surround of a buffalo herd Their personal testimonies lend both vibrancy and pathos to this story of irreversible change in Sioux Country *Framing First Contact* Kate Elliott, 2020-10-29 Representations of first contact the first meetings of European explorers and Native Americans have always had a central place in our nation s historical and visual record They have also had a key role in shaping and interpreting that record In *Framing First Contact*

author Kate Elliott looks at paintings by artists from George Catlin to Charles M Russell and explores what first contact images tell us about the process of constructing national myths and how those myths acquired different meanings at different points in our nation's history. First contact images with their focus on beginnings rather than conclusive action or determined outcomes might depict historical events in a variety of ways. Elliott argues that nineteenth century artists responding to the ambiguity and indeterminacy of the subject used the visualized space between cultures meeting for the first time to address critical contemporary questions and anxieties. Taking works from the 1840s through the 1910s as case studies, paintings by Robert W Weir, Thomas Moran, and Albert Bierstadt along with Catlin and Russell, Elliott shows how many first contact representations, especially those commissioned and conceived as official history, speak blatantly of conquest, racial superiority, and imperialism. Yet others communicate more nuanced messages that might surprise contemporary viewers. Elliott suggests it was the very openness of the subject of first contact that allowed artists consciously or not to speak of contemporary issues beyond imperialism and conquest. Uncovering those issues, *Framing First Contact* forces us to think about why we tell the stories we do and why those stories matter.
