neighborhood infill to the influential Grand Avenue project in Los Angeles Howard Shubert examines the architectural and planning strategies and political complexities of several civic structures in Canada and the United States Luis Hoyos explores Myers's additions and adaptations to historic buildings in diverse urban contexts Lauren Bricker focuses on the use of steel and other industrial materials in Myers's houses and analyses the neighborhood based designs of his multi family housing Charles Oakley describes the technical innovations site planning and historical underpinnings of Myers's theaters and performance complexes Gaviota Marine Terminal Project, Santa Barbara County, 1992 *Tremaine Houses* Volker M. Welter, 2019-11-19 This volume analyzes the extraordinary patronage of modern architecture that the Tremaine family sustained for nearly four decades in the mid twentieth century From the late 1930s to the early 1970s two brothers Burton G Tremaine and Warren D Tremaine and their respective wives Emily Hall Tremaine and Katharine Williams Tremaine commissioned approximately thirty architecture and design projects Richard Neutra and Oscar Niemeyer designed the best known Tremaine houses Philip Johnson and Frank Lloyd Wright also created designs and buildings for the family that achieved iconic status in the modern movement Focusing on the Tremaines houses and other projects such as a visitor center at the meteor crater in Arizona this volume explores the Tremaines architectural patronage in terms of the family's motivations and values exposing patterns in what may appear as an eclectic collection of modern architecture Architectural historian Volker M Welter argues that the Tremaines patronage was not driven by any single factor rather it stemmed from a network of motives comprising the clients practical requirements their private and public lives and their ideas about architecture and art **FCC Record** United States.
