***Beyond the Hill*** Rebecca Borders, C. C. Dockery, 1995 Where do most of the former members of Congress go after leaving office This book is a chronicle of where former members are living what they are doing how they happened to leave Congress voluntarily or not and what they see for themselves in the future Rebecca Borders and C C Dockery examine a focus group consisting of 350 former members of the United States House of Representatives and United States Senate who left office from 1984 through 1993 They provide a look into the lives of the former members without regard to party or ideology It is an attempt to answer some of the personal historical and ethical questions that arise when a member of Congress leaves office They also present in depth interviews with several former

members including Dick Cheney, Lindy Boggs, Roy Dyson, and William Proxmire. Also included is a directory of their current activities. Copublished with The Center for Public Integrity. *Beyond September 11* Phil Scraton, 2002-06-20. The unprecedented and tragic events in New York, Washington, and Pennsylvania left an indelible mark on world politics. Civilian deaths in horrific circumstances triggered an uncompromising response from the US administration and its allies: an open-ended war on terrorism. This anthology includes some of the world's leading commentators: Noam Chomsky, Robert Fisk, Naomi Klein, John Pilger, Paul Foot, and A. Sivanandan. It presents accessible, detailed, and often deeply personal accounts of the aftermath, the bombing of Afghanistan, and the dubious claims for its legality. From investigative journalists to critical academics, human rights lawyers, and anti-racist campaigners, the contributors are united in their opposition to military intervention in Afghanistan and beyond, and to the attack on civil liberties in the US, the UK, and Europe. Examining the context and rhetoric of US vengeance, ennobled by the symbolic title *Enduring Freedom*, they challenge political and popular definitions, constructions, pathologisation, and reporting of terrorism. In questioning the representation of war as just the anthology focuses on civilian deaths in Afghanistan, evidence of US allied atrocities, violations of prisoners' rights, and US determination to escalate military offensives regardless of global destabilisation. **Beyond the Outer Limits** James R. Mori, 2008-02-26. WHAT IS THE FORCE That drove them on foot across the land bridge from Asia to the New World long before recorded history. That keeps Joshua Warden on the wagon train headed to the California gold fields after losing so much. That is found in a shovel full of prairie soil demanding that Amos Krebbs put down roots. That directs Stephano Romano's return to the sea. That moved Harry Krebbs from the Kansas prairie and focuses his eyes and those of his astronaut son Alan on the far horizon and beyond. That keeps the feet of industrialist Gilbert Krebbs and Congressman Bobby Dobbson firmly planted in the center. That drives a Monarch butterfly across a thousand miles of desert and mountains to a tiny spot on the California coast where she has never been but where she must return. That guides the sleek gray fish and the badly wounded Steve Romano to seek refuge in the Sea of Cortez. That fuels William Henry Stitt and his great grandson in their unending quest for knowledge. WHAT IS THE FORCE **Drawing Basics and Beyond** Sorie Kim, 2024-09-10. Take your sketching practice to the next level with this practical and inspiring guide to drawing what you see and beyond. Sketching from life is critical to learning how to draw. It's also an invaluable source of creative inspiration. *Beyond the Tragedy in Global Fisheries* D. G. Webster, 2017-09-08 An analysis of how responsive governance has shaped the evolution of global fisheries in cyclical patterns of depletion and rebuilding dubbed the management treadmill The oceans are heavily overfished and the greatest challenges to effective fisheries management are not technical but political and economic In this book D G Webster describes how the political economy of fisheries has evolved and highlights patterns that are linked to sustainable transitions in specific fisheries Grounded in the concept of responsive governance Webster s interdisciplinary analysis goes beyond the conventional view of the tragedy of the commons Using her Action Cycle Structural Context framework she maps long running patterns that cycle between depletion and rebuilding in a process that she terms the management treadmill Webster documents the management treadmill in settings that range from small coastal fishing communities to international fisheries that span entire oceans She identifies the profit disconnect in which economic incentives are out of sync with sustainable use and the power disconnect in which those who experience the costs of overexploitation are politically marginalized She examines how these disconnects shaped the economics of expansion and documents how political systems failed to prevent related cycles of serial resource depletion Webster also traces the increasing use of restrictive management in response to worsening fisheries crises and the emergence of new noncommercial interests that demand greater management but also generate substantial conflict She finds that the management treadmill is speeding up with population growth and economic development and so concludes that sustainable fisheries can only exist within a sustainable global economic system
