Hastings,1989      **Montezuma Castle - A National Monument, Arizona** Albert H. Schroeder Homer F. Hastings,2016-08-21 MONTEZUMA CASTLE a pueblo ruin in the Verde River valley of central Arizona has no connection with the Aztec emperor whose name it bears The name was given by early settlers in the Verde Valley in the belief that the striking 5 story ruin with its 20 rooms had been built by Aztec refugees fleeing from central Mexico at the time of the Spanish conquest It follows naturally that the small lake inside a hill 7 miles away should be named Montezuma Well While the story of the flight is known to be false the names remain The aboriginal builders of the Castle left no records but they did leave broken pottery trash and other debris of their everyday life The analysis of this material tells us that these people whom we call Sinagua see glossary were peaceful farmers who occupied this area from the 1100 s until the 1400 s that they were similar in physical type to many of today s Pueblo peoples in northern Arizona and New Mexico and that they differed somewhat in their daily life from their neighbors in the desert to the south and in the mountains and plateaus to the north This is their story and we hope that it can take you back in your mind s eye to the time when their fingers left marks as they plastered the walls of Montezuma Castle and to the time when their fires left the smoke deposits you still see on those walls But this story must begin with the land itself      *Montezuma Castle National Monument, Arizona* United States National Park Service,2025-03-29 Explore the ancient Southwest with this historical guide to Montezuma Castle National Monument 1959 meticulously republished Authored by the National Park Service this volume offers a fascinating glimpse into one of Arizona s best preserved Native American ruins Delve into the history and landscape of Montezuma Castle a remarkable testament to the ingenuity and resilience of early inhabitants This guide originally published in 1959 provides valuable insights into the
