Pathologic Grief

John H. Harvey

Pathologic Grief:

Pathologic Grief Selby Jacobs, 1993 Jacobs psychiatry Yale U draws from both research and clinical experience to examine situations in which losses lead to psychiatric complications requiring professional intervention She considers a useful definition for the condition an approach to treatment and the tension between a patient's fear of stigmatization and the disability from refusing psychiatric care Annotation copyright by Book News Inc Portland OR *Traumatic Grief* Selby Jacobs, 2016-03-23 The loss of a family member significant other or friend exposes the afflicted person to a higher risk for several types of psychiatric disorders In addition to the potential complications that include major depression anxiety and PTSD there is much current and renewed interest in pathologic forms of grief Jacobs in this innovative new text introduces the term traumatic grief as description of this diagnostic entity Here working criteria associated descriptive features and the clinical course of traumatic grief are detailed as the author further verifies the concept of traumatic grief as a disorder As this is the first discussion of the clinical use of the diagnostic criteria for traumatic grief this text serves as a foundation for psychiatric diagnosis and treatment of traumatic grief The format follows the outline for disorders used in the DSM making this a useful tool for the practicing clinician **Does Stress Cause Psychiatric Illness?** Carolyn M. Mazure, 1995 Scientific yet readable *Does Stress Cause Psychiatric Illness* is a useful guide to clinicians clinical researchers and medical students Each chapter provides new empirical data that relate stress to psychiatric illness and addresses this relationship using up to date models **Bereavement** Institute of Medicine, Committee for the Study of Health Consequences of the Stress of Bereavement, 1984-02-01 The book is well organized well detailed and well referenced it is an invaluable sourcebook for researchers and clinicians working in the area of bereavement For those with limited knowledge about bereavement this volume provides an excellent introduction to the field and should be of use to students as well as to professionals states Contemporary Psychology The Lancet comments that this book makes good and compelling reading It was mandated to address three questions what is known about the health consequences of bereavement what further research would be important and promising and whether there are preventive interventions that should either be widely adopted or further tested to evaluate their efficacy The writers have fulfilled this mandate well **New Models of Bereavement Theory and Treatment** George Hagman, 2016-03-31 Honoring the centennial of Sigmund Freud's seminal paper Mourning and Melancholia *New Models of Bereavement Theory and Treatment* New Mourning is a major contribution to our culture's changing view of bereavement and mourning identifying flaws in old models and offering a new valid and effective approach George Hagman and his fellow contributors bring together key psychoanalytic texts from the past 20 years exploring contemporary research clinical practice and model building relating to the problems of bereavement mourning and grief They propose changes to the asocial intra psychic nature of the standard analytic model of mourning changes compatible with contemporary psychoanalytic theory and practice Arguing that the most important goal of mourning is often to preserve

rather than give up the relationship to the deceased this book provides a more positive hopeful model Crucially it emphasizes the importance of mourning together rather than alone New Models of Bereavement Theory and Treatment New Mourning will be the go to resource for researchers clinicians and interested lay people seeking a clear accessible overview of contemporary mourning theory useful in their daily lives and in clinical practice It will appeal to psychoanalysts psychotherapists grief counsellors as well teachers undergraduates and advanced students studying in the field

Adaptation to Loss Through Short-term Group Psychotherapy William E. Piper, Mary McCallum (Ph. D.), Hassan F. A. Azim, 1992-02-14 While the loss of a loved one through either death separation or divorce is a normal human experience it can arouse underlying conflicts that trigger pathological reactions For clinicians working with individuals who suffer from such pathological grief this volume integrates theory practice and research to describe a time limited interpretive group therapy approach Demonstrated to be successful in a large scale controlled clinical trial the approach provides an innovative alternative to such traditional forms of treatment as individual psychotherapy or group counseling The volume begins with a review of epidemiological data an examination of specific issues such as the distinction

between normal and abnormal reactions to loss and a summary of major psychoanalytic theories of pathological grief Also discussed are societal changes that have affected the resources available to loss patients Then a step by step description of the Short Term Group Therapy Program is provided It includes patient selection and preparation group composition and therapist technique Clinical material illustrates themes and roles as they evolve from the beginning of treatment through termination The clinical trial research that was conducted as part of the program is described in detail and its main outcome findings are discussed In addition results concerning the patient characteristic known as psychological mindedness and the process variable known as psychodynamic work are presented Finally the book addresses future directions concerning the group treatment of loss patients This practical volume with its detailed instructions and review of research results will be an invaluable resource to all professionals in psychiatry psychology social work occupational therapy and nursing who are interested in group forms of psychotherapy and or problems associated with loss Clinical researchers will also find the book of interest and it will serve as a valuable text for graduate level courses that focus on psychotherapy techniques group psychotherapy and approaches that deal with special patient populations
