Charles Leslie, Charles M. Leslie, Allan Young, 1992-06-05 From the perspectives of history and cultural anthropology the authors consider problems of knowledge in Chinese medicine the Hindu Buddhist traditions of South Asian medicine and the Greco Arabic traditions of Islamic medicine [Asian Medical Industries](#) Stephan Kloos, Calum Blaikie, 2022-02-28 This book develops the concept of Asian Medical Industries as a novel perspective on traditional Asian medicines Complementing and updating existing work in this field the book provides a critical and comparative analytic framework for understanding Chinese Medicine Ayurveda Sowa Rigpa and Japanese Kampo in the 21st century No longer subaltern health resources or conservative systems of traditional knowledge these medicines have become an integral part of modern Asia as innovative lucrative industries Ten original case studies employ insights from anthropology history geography pharmaceutical sciences botany and economics to trace the transformation of Asian medical traditions into rapidly growing and dynamic pharmaceutical industries Collectively these contributions identify this as a major phenomenon impacting Asian and global healthcare economics cultural politics and environments The book suggests that we can learn more about Asian medicines today by approaching them as industries rather than as cultural or epistemic systems Asian Medical Industries is a highly original resource for students and scholars across a range of academic fields such as anthropology history and Asian studies as well as medical practitioners health sector actors and policymakers [Healing at the Periphery](#) Laurent Pordié, Stephan Kloos, 2021-10-18 India has long occupied an important place in Tibetan medicine's history and development However Indian Himalayan practitioners of Tibetan medicine or amchi have largely remained overlooked at the Tibetan medical periphery despite playing a central social and medical role in their communities Power and legitimacy religion and economic development biomedical encounters and Indian geopolitics all intersect in the work and identities of contemporary Himalayan amchi This volume examines the crucial moment of crisis and transformation that occurred in the early 2000s to offer insights into the beginnings of Tibetan medicine's professionalization industrialization and official recognition in India and elsewhere Based on fine grained ethnographic studies in Ladakh Zangskar Sikkim and the Darjeeling Hills *Healing at the Periphery* asks how the dynamics of capitalism social change and the encounter with biomedicine affect small communities on the fringes of modern India and conversely what local transformations of Tibetan medicine tell us about contemporary society and health care in the Himalayas and the Tibetan world Contributors Florian Besch Calum Blaikie Sienna R Craig Barbara Gerke Isabelle Gu rin Kim Gutschow Pascale Hancart Petitet Stephan Kloos Fernanda Pirie Laurent Pordié *New Horizons in Medical Anthropology* Margaret Lock, Mark Nichter, 2003-09-02 *New Horizons in Medical Anthropology* is a

festschrift in honor of Charles Leslie whose influential career helped shape this subfield of anthropology This collection of cutting edge essays explores medical innovation and medical pluralism at the turn of the 21st century The book accomplishes two things it reflects recent research by medical anthropologists working in Asia who have been inspired by Charles Leslie s writing on such topics as medical pluralism and the early emergence of what has become a globalized biomedicine the social relations of therapy management and the relationship between the politics of the state and discourse about the health of populations illness and medicine The book also takes up lesser known aspects of Leslie s work his contribution as an editor and the role he played in carrying the field forward his ethics as a medical anthropologist committed to humanism and sensitive to racism and eugenics and the passion he inspired in his co workers and students Charles Leslie is a remarkable and influential social scientist *New Horizons in Medical Anthropology* is a fitting tribute to a sensitive scholar whose theories and codes of practice provide an essential guide to future generations of medical anthropologists

Recipes for Immortality Richard S Weiss, 2009-02-19 Despite the global spread of Western medical practice traditional doctors still thrive in the modern world In *Recipes for Immortality* Richard Weiss illuminates their continued success by examining the ways in which siddha medical practitioners in Tamil South India win the trust and patronage of patients While biomedicine might alleviate a patient s physical distress siddha doctors offer their clientele much more affiliation to a timeless and pure community the fantasy of a Tamil utopia and even the prospect of immortality They speak of a golden age of Tamil civilization and of traditional medicine drawing on broader revivalist formulations of a pure and ancient Tamil community Weiss analyzes the success of siddha doctors focusing on how they have successfully garnered authority and credibility While shedding light on their lives vocations and aspirations Weiss also documents the challenges that siddha doctors face in the modern world both from a biomedical system that claims universal efficacy and also from the rival traditional medicine ayurveda which is promoted as the national medicine of an autonomous Indian state Drawing on ethnographic data premodern Tamil texts on medicine alchemy and yoga government archival resources college textbooks and popular literature on siddha medicine and on the siddhar yogis he presents an in depth study of this traditional system of knowledge which serves the medical needs of millions of Indians Weiss concludes with a look at traditional medicine at large and demonstrates that siddha doctors despite resent trends toward globalization and biomedicine reflect the wider political and religious dimensions of medical discourse in our modern world *Recipes for Immortality* proves that medical authority is based not only on physical effectiveness but also on imaginative processes that relate to personal and social identities conceptions of history secrecy loss and utopian promise

Asian Medicine and Globalization Joseph S. Alter, 2013-03-26 Medical systems function in specific cultural contexts It is common to speak of the medicine of China Japan India and other nation states Yet almost all formalized medical systems claim universal applicability and thus are ready to cross the cultural boundaries that contain them There is a critical tension in theory and practice in the ways regional medical systems are conceptualized as nationalistic or inherently transnational This volume is concerned with questions and problems created by the friction between nationalism and transnationalism at a time when globalization has greatly complicated the notion of cultural political and economic boundedness Offering a range of perspectives the contributors address questions such as How do states concern themselves with the modernization of traditional medicine How does the global hegemony of science enable the nationalist articulation of alternative medicine How do global discourses of science and new age spirituality facilitate the transnationalization of Asian medicine As more and more Asian medical practices cross boundaries into Western culture through the popularity of yoga and herbalism and as Western medicine finds its way east these systems of meaning become inextricably interrelated These essays consider the larger implications of transmissions between cultures

Economic Studies of Indigenous and Traditional Knowledge Nirmal Sengupta, 2007 Till recently the mention of traditional knowledge would only elicit metaphors like the Vedas and Upanishads Aryabhatta Panini and Charaka or the invention of zero The perspective is changing This book deals with the traditional and indigenous knowledge of common men and women of India that of its tribal and Dalit population fisher folk craftsmen artisans and leather workers their agriculture housing and irrigation methods medicinal knowledge drinking water collection arts and culture Different chapters establish that the economic significance of such knowledge in the modern world is continuing even increasing and is being utilised in a wide variety of ways Globally there is an increased interest in traditional and indigenous knowledge It is now recognised as an underutilised resource that can help to reduce poverty and also as a dormant reserve with considerable commercial potential Book jacket
