Paths To The Middle East Ten Scholars Look Back:

Paths to the Middle East Thomas Naff, 2012-02-01 The field of Middle East studies is undergoing a generational change in academia government and the corporate community The men and women who trained the present generation of scholars and who shaped government and corporate policies toward the Middle East after World War II have begun to retire and unfortunately some have recently died To preserve their insights into the past and their visions of the future Thomas Naff asked a number of major Islamic and Middle East scholars to provide their perspectives and views in a short personal summation of their careers This book is a compilation of their responses It provides a unique evaluation of the last 30 or 40 years by ten of the most distinguished pioneers representing key branches of the field Pierre Cachia Albert Hourani J C Hurewitz Halil Inalcik Charles Issawi Ernest McCarus George Makdisi Don Peretz Dankwart A Rustow and Farhat J Ziadeh have provided their perspectives on the past and present their visions of future paths to be explored and their wisdom drawn from decades of experience and scholarship Whatever didacticism is offered in this book is not formal Lessons insights wisdom and inspiration are almost invisibly woven into the fabric of fascinating biographical narrative told with wit style self effacement and candor *Cultural Transfers in Dispute* Bee Yun, 2011-08-08 Our conception of cultures and cultural change has altered dramatically in recent decades no longer do we understand cultures as isolated units rather we see them as hybrid formations constantly engaged in a multidirectional process of exchange and influence with other cultures Yet the very process by which we represent these cultural transfers is itself subject to cultural political and ideological conditions that affect our understanding acknowledgment and representation of them Built around concrete examples of controversial representations of cultural transfer from Asia the Arab world and Europe *Cultural Transfers in Dispute* presents a critical self reflection on the scholarly practices that underpin our attempts to study and describe other cultures **Religion, Politics, and the Origins of Palestine Refugee Relief** A. Romirowsky, A. Joffe, 2013-12-18 This book examines the leading role of the Quaker American Friends Service Committee in the United Nations relief program for Palestine Arab refugees in 1948 1950 in the Gaza Strip Using archival data oral histories and biographical accounts it provides a detailed look at internal decision making in an early non governmental organization *American Arabists in the Cold War Middle East, 1946-75* Teresa Fava Thomas, 2016-07-06 This book examines the careers of 53 area experts in the US State Department's Middle East bureau during the Cold War Known as Arabists or Middle East hands they were very different in background education and policy outlook from their predecessors the Orientalists A highly competitive selection process and rigorous training shaped them into a small corps of diplomatic professionals with top notch linguistic and political reporting skills Case studies shed light on Washington's perceptions of Israel and the Arab world as well as how American leaders came to regard and often disregard the advice of their own expert advisors This study focuses on their transformative role in Middle East diplomacy from the Eisenhower through the Ford administrations *An Analysis of Albert Hourani's A History of the Arab*

Peoples Brown, Bryan Gibson, 2017-07-05 Few works of history make as well structured a case for the importance of studying continuity rather than change than Albert Hourani's *A History of the Arab Peoples*. Hourani's work had three major aims: to refute the idea that Arab society stagnated between 1000 and 1800; to study the period through the lens of diverse Arab rather than Muslim history; and to stress intellectual and cultural continuity. All of these intentions were the product of the author's evaluation of a great mass of secondary sources, many of them devoted to arguing for ideas that contradicted his, and it demanded considerable skill to synthesize from them a coherent and well-evidenced counter-argument. Hourani was able to do this largely because his grasp of the relevance and adequacy of his predecessors' arguments was second to none; his achievement lies in his ability to reject the reasoning of other historians while still making good use of their evidence. In this task, he was aided by an interpretative skill almost equal to his powers of evaluation. *A History of the Arab Peoples* is also a monument to the importance of properly understanding the meaning of available evidence. *Arab Intellectuals and*

American Power. M.D. Walhout, 2020-10-01 Edward Said, the famous Palestinian American scholar and activist, was one of the twentieth century's most iconic public intellectuals, whose pioneering and to some controversial work on Orientalism shaped Middle Eastern and postcolonial studies and beyond. But how exactly did he arrive at his famous maxim to speak truth to power? This dual biographical study examines the lives of Edward Said and the eminent Lebanese philosopher and diplomat Charles Malik, a distant relative 30 years his senior, whom Said knew from childhood as Uncle Charles. To Said, Malik was no ordinary relative; in his memoir, he called Malik the great negative intellectual lesson of my life and was to describe him as an ideal as I was growing up, only to later claim Malik went through an ugly transformation that I could never come to terms with. M.D. Walhout charts the development of these two remarkable figures, reconstructing in the process the way in which American power in the Middle East came to have a defining effect on Arab intellectuals in the twentieth century. Exploring issues of religion and nationalism, Walhout shows how Said came to reject much of what Malik stood for: Christian faith, hardline anti-Communism, and the benign nature of American power. He argues that the example of Malik was instrumental in the development of Said's later belief that the true vocation of the intellectual was not to compromise with power but to resist it. *Christians and the Middle East Conflict*. Paul Rowe, John Dyck, Jens Zimmermann, 2014-06-20 *Christians and the Middle East Conflict* deals with the relationship of Christians and Christian theology to the various conflicts in the Middle East, a topic that is often sensationalized but still insufficiently understood. Political developments over the last two decades, however, have prompted observers to rediscover and examine the central role religious motivations play in shaping public discourses. This book proceeds on the assumption that neither a focus on the eschatological nor a narrow understanding of the plight of Christians in the Middle East is sufficient. Instead, it is necessary to understand Christians in context and to explore the ways that Christian theology applies through the actions of Christians who have lived and continue to live through conflict in the region, either as native inhabitants or interested foreign observers. This volume addresses issues of

concern to Christians from a theological perspective from the perspective of Christian responses to conflict throughout history and in reflection on the contemporary realities of Christians in the Middle East The essays in this volume combine contextual political and theological reflections written by both scholars and Christian activists and will be of interest to students and scholars of Politics Religion and Middle East Studies **Historical Archives and the Historians'**

Commission to Investigate the Armenian Events of 1915 Yücel Güçlü, 2015-08-07 Historical Archives and the Historians Commission to Investigate the Armenian Events of 1915 demonstrates the vital importance of Ottoman and other relevant archives in Turkey for the study of the Armenian question Historians assisted by newly discovered or recently published materials must continually reassess events of the past in order to achieve a rounder view The Armenian events of 1915 are certainly no exception This study encourages further engagement between the policy making and the scholarly communities by indicating the continued importance of past records and documents for today's pressing debates In order to give a fuller picture this survey also looks at some major relevant archival sources outside Turkey including the state of archives of the First Republic of Armenia and those of the Dashnak Party Yücel Güçlü's inquiry sheds light on some of the British records relating to the First World War and its immediate aftermath located at the National Archives in Kew London and he examines the special relevance of repositories in Moscow and St Petersburg in understanding the Turkish Armenian conflict Güçlü assesses Turkey's proposal to establish an international historians commission to investigate the Armenian events of 1915 and reviews in depth the meanings and implications of the protocols of cooperation signed between Turkey and Armenia on 10 October 2009 By turning a modern eye on historical events this study gives great and necessary attention to discovering the precise chronology meaning and development of the continuing negotiations between Turkey and Armenia **Arabic**

Thought Against the Authoritarian Age Jens Hanssen, Max Weiss, 2018-02-15 Cutting edge scholarship on post war Arab intellectual history that challenges conventional thinking about authoritarianism religion and revolution in the modern Middle East **Field Notes** Zachary Lockman, 2016-03-30 Field Notes reconstructs the origins and trajectory of area

studies in the United States focusing on Middle East studies from the 1920s to the 1980s Drawing on extensive archival research Zachary Lockman shows how the Carnegie Rockefeller and Ford foundations played key roles in conceiving funding and launching postwar area studies expecting them to yield a new kind of interdisciplinary knowledge that would advance the social sciences while benefiting government agencies and the American people Lockman argues however that these new academic fields were not simply a product of the Cold War or an instrument of the American national security state but had roots in shifts in the humanities and the social sciences over the interwar years as well as in World War II sites and practices This book explores the decision making processes and visions of knowledge production at the foundations the Social Science Research Council and others charged with guiding the intellectual and institutional development of Middle East studies Ultimately Field Notes uncovers how area studies as an academic field was actually built a process replete with contention

anxiety dead ends and consequences both unanticipated and unintended **Between Arab and White** Sarah Gualtieri, 2009-05-06 Direct and accessible A tour de force of research that demonstrates seemingly unlikely origins evolutions and contradictions of social identities George Lipsitz author of *Footsteps in the Dark* and *American Studies in a Moment of Danger* **Quakers in the Israeli Palestinian Conflict** Nancy Gallagher, 2007-09-01 The Israeli Palestinian conflict has resulted in the longest standing refugee crisis in the world today Based on new archival research and interviews with surviving participants this book considers one early effort to resolve that crisis while offering helpful lessons for current efforts at conflict resolution in the Middle East and elsewhere When war broke out in Palestine in 1948 the American Friends Service Committee AFSC a Quaker service organization had just won the Nobel Peace Prize for its peacemaking endeavors and its service to war refugees during the Second World War On the basis of that experience the United Nations invited the highly visible AFSC to provide humanitarian relief to Arab refugees in Gaza The AFSC also sent volunteers to work in Israel where they hoped to serve both Arabs and Jews Its long term goal was repatriation of the refugees and conciliation and coexistence between Israelis and Palestinians As eyewitnesses to some of the major events of the conflict the AFSC volunteers came to understand it better than most outsiders at the time By examining these early efforts at peacemaking and assistance historian Nancy Gallagher has uncovered essential insights for today s peacemakers human rights activists and humanitarian NGOs **America's Dream Palace** Osamah F. Khalil, 2016-10-17 As the postwar U S national security establishment required Middle Eastern expertise it cultivated a beneficial relationship with universities But by the time the Bush administration declared its Global War on Terror Osamah Khalil shows think tank agendas aligned with neoconservative goals were the drivers of America s foreign policy **German Orientalism** Ursula Wokoeck, 2009-05-07 During the 19th century and the first part of the 20th German universities were at the forefront of scholarship in what we now call Orientalism Drawing upon a survey of thousands of published works this book presents a history of the development of Oriental studies during this period **Arab Awakening and Islamic Revival** Martin Kramer, 2017-07-05 Over the past decade the political ground beneath the Middle East has shifted Arab nationalism the political orthodoxy for most of this century has lost its grip on the imagination and allegiance of a new generation At the same time Islam as an ideology has spread across the region and Islamists bid to capture the center of politics Most Western scholars and experts once hailed the redemptive power of Arabism Arab Awakening and Islamic Revival is a critical assessment of the contradictions of Arab nationalism and Islamic fundamentalism and the misrepresentation of both in the West The first part of the book argues that Arab nationalism the so called Arab awakening bore within it the seeds of its own failure Arabism as an idea drew upon foreign sources and resources Even as it claimed to liberate the Arabs from imperialism it deepened intellectual dependence upon the West s own romanticism and radicalism Ultimately Arab nationalism became a force of oppression rather than liberation and a mirror image of the imperialism it defied Kramer s essays together form the only chronological telling and

the at fully documented postmortem of Arabism The second part of the book examines the similar failings of Islamism whose ideas are Islamic reworkings of Western ideological radicalism Its effect has been to give new life to old rationales for oppression authoritarianism and sectarian division Arab Awakening and Islamic Revival provides an alternative view of a century of Middle Eastern history As the region moves fitfully past ideology Kramer's perspective is more compelling than at any time in the past in Western academe no less than among many in the Middle This book will be of interest to sociologists political scientists economists and Middle East specialists

A History of False Hope Lori Allen, 2020-12-15 This book offers a provocative retelling of Palestinian political history through an examination of the international commissions that have investigated political violence and human rights violations More than twenty commissions have been convened over the last century yet no significant change has resulted from these inquiries The findings of the very first the 1919 King Crane Commission were suppressed The Mitchell Committee convened in the heat of the Second Intifada urged Palestinians to listen more sympathetically to the feelings of their occupiers And factfinders returning from a shell shocked Gaza Strip in 2008 registered their horror at the scale of the destruction but Gazans have continued to live under a crippling blockade Drawing on debates in the press previously unexamined UN reports historical archives and ethnographic research Lori Allen explores six key investigative commissions over the last century She highlights how Palestinians persistent demands for independence have been routinely translated into the numb language of reports and resolutions These commissions Allen argues operating as technologies of liberal global governance yield no justice only the oppressive status quo A History of False Hope issues a biting critique of the captivating allure and cold impotence of international law
