Zimmerman, PhD, Denise G. Osborn-Harrison, 2016-12-15 Moves beyond traditional definitions of patient centered care to improve the experience of a real person as patient How might the entire system for producing delivering and paying for health care be changed so that real people fare better than they currently do This text applies person focused principles to health management decision making aimed at improving the personal experience of care within health care institutions to improve outcomes and cost savings Written and edited by distinguished educators and researchers with decades of health care policy experience the text examines how health care managers can initiate and direct the process of system transformation by understanding and using a greater person focus in their decision making It encompasses the key domains of management competencies defined by the AUPHA CAHME and NCHL The text brings together experts across a variety of health care management disciplines to examine how managerial decisions affect the personal experience of patient care It is based on observations that many of the current problems facing health care managers are caused by lack of attention to what happens when real people are transformed into patients and treated routinely by the US health care system Moving beyond traditional definitions of patient centered care the book explores how our entire system for producing delivering and paying for care can be changed so that the internal experience of people receiving care is a positive one The book helps to develop specific rules for improving the experience of care through better managerial decision making Case studies with discussion questions facilitate creative problem solving based on sound decision making Also included are extensive links to online content along with an Instructor s Manual PowerPoint slides and more Key Features Describes how the person focused model leads to better outcomes Discusses the impact of management decisions on the personal experience of clinical care Addresses the personal and clinical problems created through our current system s standard health care delivery and financing Applies basic principles of management decision making to key operational issues to improve the personal experience of care Fulfills key learning competencies defined by AUPHA CAHME and NCHL

**Patient and Person** Jane Stein-Parbury, 2017-08-10 A suite of scenario based videos supporting key communication skills and concepts including empathy challenging behaviours advocating for a patient and admitting a patient with

reflections from both the nurse and patient perspective A series of video interviews exploring diverse cultural backgrounds from the patient and practitioner perspective More than 40 Learning Activities to help develop featured skills and concepts Research highlights in each chapter covering the most recent research on communication in nursing      **The Philosophy of Person-Centred Healthcare** Derek Mitchell, Michael Loughlin, 2022-11-22 This book sets out a philosophical basis for person centred healthcare primarily using work by Heidegger and Gadamer but drawing on ideas derived from Aristotle and process philosophy in order to show how practice can be improved and how examples of person centred practice can be transferred between individuals and institutions involved in the commissioning and provision of healthcare By providing an underlying architectonic this work will help to enable practitioners to understand the benefits of person centred healthcare practice in promoting autonomy in those who are suffering from chronic and other illnesses The text takes a phenomenological approach to healthcare because it offers a rich and subtle way of thinking about how we know what we know and this applies to our knowledge and understanding of how healthcare works just as much as it does to all other kinds of knowledge For those in clinical practice this book provides a guide to the thinking behind person centred healthcare

Connecting: Person-Centered Therapy and Life Edenilson Brandl, 2025-06-19 This book is a compilation of studies and reflections on Person Centered Therapy a humanistic approach to psychotherapy that places the patient at the center of the therapeutic process Person Centered Therapy focuses on the whole person considering their emotions experiences and values rather than simply treating specific symptoms In this book we explore how Person Centered Therapy can be applied in a variety of clinical situations from Autism Spectrum Disorder ASD to parental relationship issues and workplace conflicts Each chapter addresses a specific area of therapy application providing an overview of the topic exploring concrete examples and offering practical guidance The aim of this book is to provide a deeper understanding of Person Centered Therapy and its application in different contexts Our authors are experienced practitioners who work with Person Centered Therapy on a daily basis and their work is based on years of research and practice We hope this book will be useful for psychologists therapists and mental health professionals in general as well as for patients seeking a deeper understanding of therapy and how it can help them to cope with their own challenges      **Delivering Person-Centred Care in Nursing** Bob

*Personhood and Health Care* David C. Thomasma, David N. Weissstub, Christian Hervé, 2013-04-17 PERSONHOOD AND HEALTH CARE This book arose as a result of a pre conference devoted to the topic held June 28 1999 in Paris France The pre conference preceded the Annual Congress of the International Academy of Law and Mental Health Other chapters were solicited after the conference in order to more completely explore the relation of personhood to health care The pre conference was held in honor of Yves Pelicier who led so many of our French colleagues in medicine philosophy and ethics as Christian Herve notes in his Tribute As health care is aimed at healing persons it is important to realize how difficult it is to construct a theory of personhood for health care and thus a theory of how healing in health care comes about or ought to occur The book is divided into four parts Concepts of the Person Theories of Personhood in Relation to Health Care and Bioethics Person and Identity and Personhood and His Relations Each section explores a critical arena in constructing the relation of personhood to health care Although no exploration of this nature can be exhaustive every effort was made to present both conflicting and complementary views of personhood from within similar and different philosophical and religious traditions
