existing literature The book challenges a rainbow of standard interpretations and entrenched Tangerois urban legends It ranges widely from recent hypotheses to newly confirmed toponyms contentious architectural details and the design and construction of the fortifications The scope extends to historic environmental factors affecting the Old Port studied through a new 3D bathymetric model of the historic anchorage the only such model available for now The well known Tangier series of drawings and etchings by the Bohemian artist Wenceslas V clay Hollar 1607 1677 comes into its own here in a fresh analytical modelling oriented context that interlinks Portuguese and English data tightly The Portuguese period 1471 1662 is set in a frame that encompasses both the pre 1471 Muslim port and various 1662 1684 English components of the urban fabric genuine as well as spurious The book targets mainly a specialist audience historians conservationists heritage planners urban archaeologists itinerary and exhibit designers dealing with Tangier but will also reward the patient casual reader genuinely interested in the fortified m dina and its history In stock Purchase direct from Baywolf Press ditions Baywolf
