The Metabolist Imagination William O. Gardner, 2020-04-14 Japan's postwar urban imagination through the Metabolism architecture movement and visionary science fiction authors The devastation of the Second World War gave rise to imaginations both utopian and apocalyptic In Japan a fascinating confluence of architects and science fiction writers took advantage of this space to begin remaking urban design In *The Metabolist Imagination* William O Gardner explores the unique Metabolism movement which allied with science fiction authors to foresee the global cities that would emerge in the postwar era This first comparative study of postwar Japanese architecture and science fiction builds on the resurgence of interest in Metabolist architecture while establishing new directions for exploration Gardner focuses on how these innovators created unique versions of shared concepts including futurity megastructures capsules and cybercities making lasting contributions that resonate with

contemporary conversations around cyberpunk climate change anime and more The Metabolist Imagination features original documentation of collaborations between giants of postwar Japanese art and architecture such as the landmark 1970 Osaka Expo It also provides the most sustained English language discussion to date of the work of Komatsu Saky considered one of the big three authors of postwar Japanese science fiction These studies are underscored by Gardner s insightful approach treating architecture as a form of speculative fiction while positioning science fiction as an intervention into urban design making it a necessary read for today s visionaries

Anime Aesthetics Alistair D. Swale,2015-08-10 Japanese animation has been given fulsome academic commentary in recent years However there is arguably a need for a more philosophically consistent and theoretically integrated engagement While this book covers the key thinkers of contemporary aesthetic theory it aims to reground reflection on anime within the aesthetics of R G Collingwood
