Önnerfors,2020-12-30 This book explores the relevance of conspiracy theories in the modern social and political history of the Nordic countries The Nordic countries have traditionally imagined themselves as stable wealthy egalitarian welfare states Conspiracy theories mistrust and disunity the argument goes happened elsewhere in Europe especially Eastern Europe the Middle East or in the United States This book paints a different picture by demonstrating that conspiracy theories have always existed in the Nordic region both as a result of structural tensions between different groups and in the aftermath of traumatic events but seem to have become more prominent over the last 30 or 40 years While the book covers events and developments in each of the Nordic countries Sweden Norway Denmark Iceland and Finland it is not a comparative country analysis Rather the book focuses on conspiracy theories in and about the Nordic region as a region arguing that similarities in the trajectories of conspiratorial thinking are interesting to examine in cultural social and political terms The book takes a thematic approach including looking at states and elites family gender and sexuality migration and the outside view on the Nordic region conspiracy theories about the Nordic countries and Nordic noir This book will be of great interest to researchers on extremism conspiracy theories and the politics of the Nordic countries *The Apocalypse of St. John* James J. L. Ratton,1915 **Mennonite Life** ,1990 *Law, Religion, Health and Healing in Africa* M. Christian Green,Faith Kabata,Fortune Sibanda,2022-12-31 The Covid 19 pandemic was global in its spread and reach as well as in its medical social and economic effects In many respects the global effort to flatten the curve produced a flattening of experience around the world and a striking coincidence of similar experiences in countries the world over The identity simultaneity and uniformity of experience were also manifest in common concerns at the intersection of law and religion in many nations around the world including Africa The lockdowns and closure of religious worship centres churches mosques and religious organisations of all sorts raised questions of freedom of religion and the related concern for freedom of assembly along with concerns about the relation of religion to science and public health religious channels of communication and religious provision of social services After all health communications and social services are all areas in which African religious organisations play key roles Potential tensions around these issues raised further considerations about the nature of religion state relations the status of religious authority and whether religious and state actors would work together or at odds in addressing the Covid 19 pandemic

Confessions of God John Thomas Didymus, 2010-07. While Jesus died slowly and painfully on a cross at Golgotha, three men in a Jerusalem upper room sat in on a sinister resurrection conspiracy which they never thought would change world history. Who were these men? What were their motives? Who was the young man in long white garment the disciples found sitting in Jesus' tomb on the morning of Jesus' resurrection? Mark 16:5. What happened to the body of Jesus missing on the resurrection morning? Maverick Professor John Thomas Didymus, a creative but sensitive mind unable to find succor in the age-old traditions of Christianity, receives while recuperating on a psychiatric hospital bed on the Isle of Patmos healing, divine visitations and empowering trumpet call revelations of new Gospel truth. He reviews the historical evidence for a conspiracy theory of the resurrection in a compelling but disturbing alternative historical account of behind-the-scenes political power intrigue and counter-intrigue trailing the ministry of Jesus from Galilee to Judea, Golgotha, the resurrection conspiracy and beyond. Rebounding finally from the depths of mental illness back to his job at the university and now succored by his former nurse Mary Magdalene, John Thomas Didymus's career builds up into an apocalyptic confrontation with his colleagues of the ivory towers who ridicule his alternative Gospel, his pet Metaphysical Theory of Everything. A theory designed to grasp the entire spacetime fabric of reality in one fell swoop. A theory the cognitive mutations of a mind functioning precariously, dangerously on the edge of mental chaos, beyond mere genius, bearing his cross amid hostile jeers and taunts. Christ-like to Golgotha on a lonely, narrow, ascending cognitive bio-evolutionary pathway to infinity.

Reclaiming the Book of Revelation Wilfried E. Glabach, 2007. Progressive Christians have largely resisted studying the book of Revelation, but *Reclaiming the Book of Revelation* shows that the last book of the Bible has great relevance for progressive Christians and congregations in this world. It addresses themes such as how to avoid being drawn into the values of a consumerist society, how to describe our fears instead of fleeing from them, and how to live with hope in difficult times. Because Revelation has been claimed by the religious right and proponents of rapture theology, Wilfried E. Glabach addresses the need for more progressive Christians to give another interpretation of the book. *Reclaiming the Book of Revelation* offers an interpretation that stresses God's

forgiveness and the healing of the nations rather than the destruction of many and the redemption of a few Dr Glabach motivates and encourages preachers teachers and lay readers to explore Revelation's vision of assurance justice and peace
