Moving Lives Kathy Burrell, 2017-03-02 Immigrants in Britain are often viewed as just that immigrants Their experiences as migrants are sidelined in favour of discussions about assimilation and integration how they adapt to us This book refocuses debates about migration by following the experiences memories and perceptions of three migrant groups in Britain the Polish Italian and Greek Cypriot populations In tracing some of the key themes of migration narratives Kathy Burrell illustrates that the act of migration creates enduring legacies which continue to influence the everyday lives of migrants long after they have moved The book is structured around four key themes The first is the migration process itself Burrell highlights the important contrast between voluntary and involuntary migration examining the different memories and legacies of migration The second theme is the national as opposed to ethnic identities of the groups studied The author demonstrates how national consciousness survives the upheaval of migration and is perpetuated through the recognition of national histories myths and traditional rituals The third theme is a memory of the homeland The author traces her respondents memories and experiences of their national territory focusing particularly on the transnational connections that are established with the homeland after migration Finally Burrell considers community analyzing her respondents experiences of community life and the shared social and cultural norms and values that underpin it

An Immigration History of Britain Panikos Panayi, 2014-09-11 Immigration ethnicity multiculturalism and racism have become part of daily discourse in Britain in recent decades yet far from being new these phenomena have characterised British life since the 19th century While the numbers of immigrants increased after the Second World War groups such as the Irish Germans and East European Jews have been arriving settling and impacting on British society from the Victorian period onwards In this comprehensive and fascinating account Panikos Panayi examines immigration as an ongoing process in which ethnic communities evolve as individuals choose whether to retain their ethnic identities and customs or to integrate and assimilate into wider British norms

Consequently he tackles the contradictions in the history of immigration over the past two centuries migration versus government control migrant poverty versus social mobility ethnic identity versus increasing Anglicisation and above all racism versus multiculturalism Providing an important historical context to contemporary debates and taking into account the complexity and variety of individual experiences over time this book demonstrates that no simple approach or theory can summarise the migrant experience in Britain *Transnational Families* Harry Goulbourne, Tracey Reynolds, John Solomos, Elisabetta Zontini, 2010-01-21 This innovative book provides an overview of the emergence of new understandings of ethnicities identities and family forms across a number of ethnic groups family types and national boundaries Italians in Wales and their Cultural Representations, 1920s-2010s Bruna Chezzi, 2015-11-25 Italian immigrants began to settle in Wales at the turn of the 19th century opening hundreds of coffee shops particularly in the South Wales Valleys Despite this such immigrants remain a largely unexplored case study in the history of Italian immigration to the UK This book uses a variety of unexplored sources and engages with the broader academic debate on migration identity and the trans generational transmission of memory to describe the emergence of Welsh Italian narratives and the formation of a distinctive yet complex Welsh Italian identity It follows a chronological journey moving from the interwar period a time in which Italians in Wales were generally regarded as fully established and integrated through to the Second World War a time when Italian identity became problematic and resulted in nearly seventy years of silencing up until the first decade of the 21st century where a mixture of commemorative events and cultural initiatives prompted the emergence of Welsh Italian narratives The book begins by studying photographic representations of Italians in Wales during the interwar period using photographs available in local history books private collections and history books The analysis of the photographic material draws from the work of scholars such as Sontag Noble Hirsh and Bate on photo textual analysis to show how photographs can reveal understudied yet important aspects of Italian migrant identity and of the relationship with the host community in the period that preceded the Second World War The book then examines how the events of the Second World War destabilised the images of family sociability and integration suggested by these photographs and how such events aggravated tensions between host and migrant cultures It continues by investigating recent Welsh Italian texts where in revisiting the past and the experience of their ancestors the authors bring different circumstances and personal factors into play determining the degree to which they reconcile their dual identity It concludes with a comparison between these narratives of belonging and the representation of the Italian migrant experience in Anglo Welsh literature Managing Ethnic Diversity Reza Hasmath, 2016-05-13 The management of ethnic diversity has become a topical and often controversial subject in recent times with much debate surrounding multiculturalism as a systematic and comprehensive response for dealing with ethnic diversity This book engages with these debates examining the tangible outcomes of multiculturalism as a policy and philosophy in a range of traditional and newer multi ethnic nations Exploring the questions of whether multiculturalism can

promote ethnic harmony employment equity and trust between various minority and non minority groups Managing Ethnic Diversity also adopts a comparative perspective on the experiences of multiculturalism in various international contexts in order to examine whether lessons learned from some jurisdictions can be applied to others With an international team of experts presenting the latest research from the UK North America Europe China and Australasia a truly global dialogue is fostered with regard to the utility and limits of multiculturalism in local and comparative contexts As such Managing Ethnic Diversity will appeal to social scientists interested in race and ethnicity multiculturalism and migration *Ethnic Diversity and Social Cohesion* Merlin Schaeffer, 2016-05-23 Exploring the debate within social sciences on the consequences of ethnic diversity for social cohesion and the production of public goods this book draws on extensive survey data from Germany to engage with questions surrounding the relationship between ethnic diversity and issues such as welfare provision and the erosion of public trust and civic engagement in Europe It moves away from the question of whether there is in fact a universal correlation between ethnic diversity and social cohesion in order to focus on the reasons for which people s reciprocity and trust might be reduced in more ethnically diverse areas Drawing attention to the importance of peoples perceptions of diversity in explaining levels of social cohesion Ethnic Diversity and Social Cohesion shows how specific types of perceived diversity can help explain the reasons for which ethnic diversity is associated with declines in social cohesion and the contexts and conditions in which this occurs The book also outlines potential courses of action revealing the important roles of residential segregation children and interethnic partners in overcoming barriers of language values and cognitive bias A rigorous timely study of ethnic diversity and its relation to liberal democracy as a form of deliberative conflict that requires certain levels of trust shared values and engagement Ethnic Diversity and Social Cohesion will be of interest to policy makers sociologists and political scientists working in the fields of race and migration ethnic diversity and community cohesion Paradoxes of Cultural Recognition Sharam Alghasi, 2016-05-13 Explicitly comparative in its approach Paradoxes of Cultural Recognition discusses central issues regarding multiculturalism in today s Europe based on studies of Norway and the Netherlands Distinguishing clearly the four social fields of the media education the labour market and issues relating to gender it presents empirical case studies which offer valuable insights into the nature of majority minority relationships whilst raising theoretical questions relevant for further comparisons With clear comparisons of integration and immigration policies in Europe and engagement with the questions surrounding the need for more culturally sensitive policies this volume will be of interest to scholars and policy makers alike Inside Immigration Law Tobias G.
