Love to Hate Jody Roy, 2002-08-27 Why is the simple impulsive question we ask when confronted by horrible acts of hatred and violence Why do students shoot fellow students or employees their coworkers Why do mothers drown their children or husbands stalk and kill their wives Love to Hate challenges us to turn this question upon ourselves at a deeper level Why as a culture are we so fascinated by these acts Why do we bestow celebrity on the perpetrators while allowing the victims to fade into a second death of obscurity Are we as Pope John Paul II famously accused a culture of death And if so how can we break free of this unacknowledged aspect of the cycle of violence Unlike those who point solely to media imagery splintered families or lax gun control laws in search of the roots of America's endemic violence Jody M Roy suggests that we all must be held responsible She argues that we reveal our love affair with hatred and violence in the ways we think and speak in our daily lives and in our popular culture The very words we use function as building blocks of callousness and contempt betraying our immersion in subtexts of violence and hatred These subtexts are further revealed in our complex attitudes toward street gangs school shooters serial killers and hate groups and the paroxysms of violence they unleash As spectators driven by our impulse to watch we become an integral part of the equation of violence In the book's final section Freeing Ourselves of Our Obsession with Hatred and Violence Roy offers practical steps we can take as parents consumers and voters to free ourselves from linguistic and cultural complicity and to help create in America a culture of life

Hate and Reconciliation Guido Cuyvers, 2022-11-29 Every day the media confront us with the many forms and excesses of hatred cyber hatred hate speech bullying hate groups religiously inspired violence against dissidents and genocides Hatred is human and current It is an intrinsic part of what can happen between people Personal experiences can lead people to hate someone In society and even on a global level hatred is again and again the motor of misunderstanding and often also of violence between people Sometimes hate smoulders almost unconsciously at other times he is furious and serves as a flag for serious violence Hatred has many faces and seems omnipresent that much is clear The term Erida complex after the Greek goddess of hate symbolizes the common and deeply rooted nature of hatred Hatred is mighty as a destructive force He knows how to motivate individuals and large groups of people to bring out the worst in themselves He turns life among people into a desert However he cannot compete with Irene the goddess and the symbol of peace After all he is unable to correct what went wrong Nor is it a ground for building a peaceful society At the same time hatred is impotent against the positive freedom of people to transcend the negative Those who are open to this will see many connecting and therefore Irenian initiatives Hatred does not and should not have the last word Opposite the well of Erida is the Irenese the way to peace After examining the nature of hate this book focuses a wide angle lens on its many faces in individuals and groups as well as

peoples Facing the negativity of hatred this book presents constructive approaches to fostering relationships between people and peace A Field Guide to White Supremacy Kathleen Belew, Ramon A. Gutierrez, 2021-10-26 It is not a matter of argument among the vast majority of scholars but of demonstrable fact White supremacy includes both individual prejudice and for instance the long history of the disproportionate incarceration of people of color It describes a legal system still predisposed towards racial inequality even when judge counsel and jurors abjure racism at the individual level It is collective and individual It is old and immediate Some white supremacists turn to violence but there are also a lot of people who are individually white supremacist some openly so and reject violence This Field Guide proposes that a better understanding of hate groups white supremacy and the ways that racism and patriarchy have braided into our laws and systems can help people to tell and understand better stories **Crimes of Hate** Phyllis B. Gerstenfeld, Diana R. Grant, 2004 Crimes of Hate Selected Readings is the first comprehensive reader to offer an up to date multidisciplinary examination of hate crimes Editors Phyllis B Gerstenfeld and Diana R Grant include articles from a variety of disciplines including criminal justice criminology sociology psychology and political science With introductions discussion questions and resource lists this unique anthology combines the most current research on hate crimes with accessible articles from scholarly and legal journals in a single easily understood format Developed as a companion to Gerstenfeld s Hate Crimes Causes Controls and Controversies this innovative reader will provoke thought and discussion in undergraduate and graduate students in criminology criminal justice and sociology courses **Theology of Hate** George Michael, 2009 Smith s rampage was the first many Americans had heard of this small previously obscure organization In this comprehensive history of the Creativity Movement one of the most radical organizations in the history of the American far right George Michael reminds us that some of the most dangerous radical elements in the United States are home grown Jacket
