

PATRICK WHITE SPEAKS

# PATRICK WHITE SPEAKS

Here, published in Britain for the first time, are the collected essays, studies and speeches of one of the most beloved writers of our time. They show why Nobel Prize-winner Patrick White relinquished his self-appointed role of artist and observer to become an active political animal - outspoken on the subject of human rights, a fierce campaigner for international nuclear disarmament, and Republican, and committed anti-communist.

They show too Patrick White the man. Close to his subjects, he is a captivating and provocative speaker: his speeches receive rousing ovations from the young and dispossessed while the media and the establishment grumble 'older old man'. His newspaper articles cause floods of letters, both abusive and admiring. He has inspired admiration and adulation for dragging off the literary socialists that have been longest gone from. Whether you agree or not with Patrick White's dialectics - they are most of all standard - he is a man and does what you know is often asked - this remarkable and fiery collection of his writing is undeniably challenging, entertaining, and always useful.
