**The Baylors of Newmarket** Thomas Katheder, 2009. Scholars and arm chair historians of eighteenth century America will take great pleasure in reading this exceptionally well researched slice of colonial history. In *The Baylors of Newmarket* author Thomas Katheder has meticulously researched one of the wealthiest and most socially prominent yet least known families in colonial Virginia. Drawing on mostly unpublished sources including British and French archives and Virginia court documents *The Baylors of Newmarket* is the fascinating and tragic story of Col John Baylor III and his son John IV including Col Baylor's relentless pursuit of equine perfection and his son's delusional quest for the perfect Virginia mansion. *The Baylors of Newmarket* places the family in the larger context of a pre Revolutionary Anglo Virginian elite that sought to emulate the British gentry in culture education books and reading dress furnishings and behavior. After the Revolution the Baylors struggled to maintain what was becoming an increasingly outmoded lifestyle. This extensively referenced history also describes in rich detail the library begun by Col Baylor III and expanded by his son John IV within the context of a strong book culture among the pre Revolutionary Virginia gentry that has been largely underappreciated by scholars.

*Darwin and the Art of Botany* James T. Costa, Bobbi Angell, 2023-10-17. Uncover Darwin's most important writings about plants with this important collection featuring expert interpretations and rare illustrations. Charles Darwin is best known for his work on the evolution of animals but in fact a large part of his contribution to the natural sciences is focused on plants. His observations are crucial to our modern understanding of everything from the amazing pollination process of orchids to the way that vines climb. *Darwin and the Art of Botany* collects writings from six often overlooked texts devoted entirely to plants and pairs each excerpt with beautiful botanical art from the library at the Oak Spring Garden Foundation creating a gorgeously illustrated volume that never existed in Darwin's own lifetime and hasn't since. Evolutionary botanist and science historian James Costa brings his expertise to each entry situating Darwin's words in the context of the knowledge and research of the time. The result is a new way of visualizing Darwin's work and a greater understanding of the ways he's shaped our world.
