**Patriotism and Proletarian Internationalism** Ho Chi Minh, 2003-10-01 From the Foreword when this book was originally published in Hanoi in 1979 The national liberation revolution can only succeed if it accords with the world revolutionary movement and authentic patriotism in our time cannot dissociate itself from internationalism this leading idea which has inspired the Vietnamese revolution for nearly half a century was introduced into Vietnam by President Ho Chi Minh While struggling for its independence the Vietnamese people knows that millions and millions of comrades and friends are fighting by its side and that its own sacrifices also serve the just cause of other peoples With this in mind we have collected writings and speeches of President Ho Chi Minh in the period from 1920 to 1969 In simple terms they gave a well defined orientation to the Vietnamese revolutionary movement and greatly contributed to its victory Patriotism and Proletarian Internationalism Chí Minh Hồ, 1979 **Patriotism and Proletarian Internationalism** Ho-Chi-Minh (Pres. de República Democrática de Vietnam), 1979 *Nationalism and Internationalism Intertwined* Pasi Ihalainen, Antero Holmila, 2022-03-11 It is commonplace that the modern world is more international than at any point in human history Yet the sheer profusion of terms for describing politics beyond the nation state including international European global transnational and cosmopolitan among others is but one indication of how conceptually complex this field actually is Taking a wide view of internationalism in Europe since the eighteenth century *Nationalism and Internationalism Intertwined* explores discourses and practices to challenge nation centered histories and trace the entanglements that arise from international cooperation A multidisciplinary group of scholars in history discourse studies and digital humanities asks how internationalism has been experienced understood constructed debated and redefined across different European political cultures as well as related to the wider world *Translations on International Communist Developments*, 1962

working in postcommunist Poland Lim recognized striking similarities between Korean and Polish history and politics One realization stood out Both Korea and Poland at once the West for Asia yet Eastern Europe had been assigned the role of East This book explores entangled Easts to reconsider global history from the margins Examining the politics of history and memory Lim reveals the affinities linking Eastern Europe and East Asia He draws out commonalities in their experiences of modernity in their transitions from dictatorship to democracy and in the shaping of collective memory Ranging across Poland Germany Israel Japan and Korea Lim traces the global history of how notions of victimhood have become central to nationalism He criticizes mass dictatorships of right and left in the Global Easts considering Nazi jurist Carl Schmitt's notion of sovereign dictatorship and the concept of decisionist democracy Lim argues that nationalism is inherently transnational critiquing how the nationalist imagination of the Global East has influenced countries across borders Theoretically sophisticated and conceptually innovative this book sheds new light on the transnational complexity of historical memory and imagination the boundaries between democracy and mass dictatorship and the fluidity of East and West SSR

**Stalinism and the Dialectics of Saturn** Douglas Greene, 2023-03-20 This study examines the complicated legacy of Stalinism in the twentieth century The descent of the Russian Revolution into Stalinism has given rise to an oft accepted truism that revolutions are like Saturn and will devour their own children For anticommunists Stalinism is condemned as a bolt from blue whether an insidious contagion Big Brother or totalitarian reason that socialism cannot escape from On the other end Communists and their fellow travelers have seen Stalinism as a force of historical necessity and the only way for the working class to reach a communist society Both these twin camps accept a Dialectic of Saturn where Stalinism whether for evil or good is the preordained fate of all socialist revolutions However there is another position that views Stalinism as the product of material circumstance and class struggle This position was represented by Leon Trotsky in his seminal work *The Revolution Betrayed* In contrast to those who accept a mystical dialectic of Saturn Trotsky argued that Stalinism can be rationally explained and was not inevitable outcome of socialism **The Soviet Concept of 'Limited Sovereignty' from**

**Lenin to Gorbachev** Robert A. Jones, 2016-07-27 The book examines the origins development and contemporary significance of the Soviet doctrine of limited sovereignty Brezhnev Doctrine with particular reference to the Doctrine's implications for the Soviet Union's relations with Eastern Europe The author identifies and considers the multiple functions served by the Soviet Union's essentially dualistic or bi axial approach to sovereignty which embraces notions derived from both general international law and from Soviet Marxist Leninist doctrine The book also includes a comparative analysis of the US Monroe Doctrine The author argues that although in the Gorbachev era of new thinking the Soviet doctrine of sovereignty may be developing a third axis Western predictions of the imminent or actual demise of the Brezhnev Doctrine are premature
