Pattern Of African Decolonization A New Interpretation:

The Pattern of African Decolonization : a New Interpretation, 1973 **The Pattern of African Decolonization: a New Interpretation** Warren Weinstein, John J. Grotzinger, 1973 Study based on case studies of Botswana Burundi Lesotho Rwanda and Swaziland demonstrating that the momentum toward independence was supplied more by political opposition to the role of European colonial powers than by colonial reaction to the pressures of African nationalism asserts that the development of political parties was at least in part a response to the initiative of the powers of colonialism and cites the role of chiefs tribal peoples in the emerging political process References **Sabelo Ndlovu-Gatsheni and African Decolonial Studies** Toyin Falola, 2023-09-15 This book considers the work of the preeminent scholar on decoloniality Sabelo Ndlovu Gatsheni as a means of examining the development of decoloniality discourse and considering the future direction of the African knowledge economy Sabelo Ndlovu Gatsheni has been instrumental in the construction of theories and ideas necessary for advancing a decolonial system of education and epistemology This book considers how Professor Ndlovu Gatsheni's work has helped to shape our thinking both on Mugabe and the history of Zimbabwe and beyond to the broader questions of race liberation higher education and the future of decolonial studies Renowned author Professor Toyin Falola then invites us to consider the dangers of continued repression of African epistemologies and the enormous benefits of an alternative knowledge economy in which a diverse multiplicity of ideas drives our understanding of the world on to new heights Unpacking the various conceptual leanings of decoloniality through the works of one of its leading lights this book will be an essential read for researchers across the fields of African Studies Race Studies Philosophy and Education **Albert Schweitzer in Thought and Action** James Carleton Paget, Michael J. Thate, 2016-12-09 In the 1940s and 1950s Albert Schweitzer was one of the best known figures on the world stage Courted by monarchs world statesmen and distinguished figures from the literary musical and scientific fields Schweitzer was awarded the Nobel Peace Prize in 1952 cementing his place as one of the great intellectual leaders of his time Schweitzer is less well known now but nonetheless a man of perennial fascination and this volume seeks to bring his achievements across a variety of areas philosophy theology and medicine into sharper focus To that end international scholars from diverse disciplines offer a wide ranging examination of Schweitzer's life and thought over the course of forty years Albert Schweitzer in Thought and Action gives readers a fuller richer and more nuanced picture of this controversial but monumental figure of twentieth century life and in some measure of that complex century itself

Patrons, Clients, and Empire Colin Newbury, 2003-01-02 Patrons Clients and Empire challenges the stereotypes of despotic imperial power in Asian African and Pacific colonies by analysing the relationship between rulers and ruled on both sides of the imperial equation It seeks an answer to the question how were European officials able to govern so many societies for so long Rejecting the usual explanations of collaboration and indirect rule this study looks to pre imperial structures in the indigenous hierarchies which supplied patrimonial models of chieftaincy for territorial government For

nawabs chiefs emirs sultans and their officials and followers there were dynastic and economic advantages in accepting the terms of European over rule as well as the threat of deposition For European officials few in numbers and with limited military and financial resources there were ready made systems of local government that could be co opted reformed or left relatively untouched Both sides played politics as patrons and clients within a dual system of administration based on a mixture of force and self interest Surveying a wide variety of cases and employing a patron client model this study embraces pre colonial colonial and post colonial politics in new states It covers the chronology of early European dependency on local rulers the reasons for reversal of status among chiefs and administrators the longer period of political bargaining over access to local resources in terms of land labour and taxes and the ultimate fate of indigenous rulers in the period of party politics leading to independence

The Eleventh Commandment: Ejike R. Egwuekwe,2020-03-19 he exhorts against fraud Here he scares the opinion that even though Slave trade Scramble and Partition as well as Colonialism had come and gone the impact of those social vices are still being felt He indicates that people still hide under the canopy and or shadow of such vices and use those as excuses for the socio politico economic problems ravaging our nations He suggests that it is time to let go of the past and move forward That it is time to divest ourselves of the spirit of atomism and imbibe ourselves with the spirit of collectivism and thereby work together towards identifying the various particles of problems that have thus far conglomerated in submerging our nations in economic backwardness He strongly advocates that it is time to emancipate ourselves from mental encumbrances and thereby realize that we are the only ones who can save our nations from economic squalor But he maintains that while he does not profess to have gotten all the right answers to our economic and socio politico anomalies the suggestions contained herein are a pointer in the right direction and only a mere attempt in that regard

introduction by renowned historian William Beinart the individual chapters written by a new generation of scholars address a number of themes public administration health and education culture ethnicity and politics ethnic nationalism historiographical reflections and personal recollections by three former public servants This book was originally published as a special issue of the South African Historical Journal Subject Guide to Books in Print ,1997 *Canadian Journal of African Studies* ,1980 **Psychology in Africa (Psychology Revivals)** Mallory Wober,2014-06-17 It is now well over a hundred and fifty years since the first celebrated geographical explorations of Africa took place However it was many years before there began quests of a different kind the investigation of behaviour personality attitude and ability among Africa s people Originally published in 1975 this book is an account of that work the first explorations in Africa of psychology In an exhaustive and well documented report the author a psychologist who had himself done research in Nigeria Uganda and who had lectured at Makerere University drew together the main threads of the research carried out so far putting the issues in an African perspective but anchoring them firmly within the framework of modern psychological thinking and technique of the time Are there any common personality and intellectual characteristics among Africans How does weaning affect African child development How have Africans feelings developed about city life and industrial work The questions the author considers range from the broad based to the specific The challenges which lay ahead for African investigators then moving into the mainstream of the work are also discussed But perhaps above all the book made a convincing case for psychology becoming a relevant and finely honed discipline in Black Africa characterised by practical application to Black African society Each chapter covers a defined area of modern psychology of the time and presents a comprehensive survey in a language no more technical than the subject warrants At the time it was felt this book would be invaluable to students of Africa secondary education whose course included a psychology component and to African students beginning a degree course in psychology It would also have provided an informative supplement to courses in medicine development studies political science sociology and anthropology **Sure Road? Nationalisms in Angola, Guinea-Bissau and Mozambique** Eric Morier-Genoud,2012-04-19 This book brings together new research on nations and nationalism in Angola Guinea Bissau and Mozambique It provides original case studies as well as a theoretical discussion on the subject A Comparative Study of Political Involvement in Three African States, Botswana, Ghana, and Kenya John D. Holm,1978 An Introduction to African Legal Philosophy John Murungi,2013-04-11 A book on legal philosophy necessarily focuses attention on law In addition to this focus An Introduction to an African Legal Philosophy focuses attention on philosophy The link between law and philosophy is brought into relief which is done through an African context An attempt is made to spell out what is African about legal philosophy without being cut off of African legal philosophy from non African legal philosophy The book draws attention to the view that a basic component of African legal philosophy consists of an investigation of what it is to be an African and because an African is a human being among other human beings the investigation is about what it is to be a human being

Ubuntuism is an African derived word that captures this mode of being human Moreover because human beings are cultural beings African cultural context guides the investigation Inescapably it is claimed that every legal philosophy is embedded in a culture African legal philosophy is not an exception It is deeply rooted in African culture a culture that is today shaped in part by a European colonialist culture One feature that will strike one as one reads the book is that the book approaches African legal philosophy as a means of decolonization of African culture African legal philosophy can accomplish this intelligently and effectively if it is itself decolonized In doing this it contrasts sharply with mainstream Western legal philosophy
