Patterns of Soviet Thought Richard T. De George,1970 **USSR: Strategic Survey** United States. Department of the Army,1969 **Research Report R.** ,1981 **External Research List** ,1967 **Dialectical Materialism** Zedong Mao,Nick Knight,2016-09-16 New and annotated translations of philosophical essays written by Mao Zedong in 1937 which have come to be regarded as a cornerstone in the development of Chinese Marxism The editor analyzes their textual philosophical and historical significance **External Research. ER List** United States. Department of State. External Research Division,1967 *Patterns of Soviet Thought; the Origins and Development of Dialectical and Historical Materialism [by] Richard T. DeGeorge* Richard T. De George,1970 **Patterns of Conventional Warfighting under the Nuclear Umbrella** Igor Davidzon,2020-05-04 This book explores how nuclear weapons influence conventional warfighting through three case studies of countries not party to the Non Proliferation Treaty Pakistan India and Israel The author examines how decision makers choose a preferred pattern of war management as well as how these choices affect conflicts suggesting that nuclear weaponization constitutes a clear change in the relative power of countries This distribution of power within the international system expands or reduces the selection of strategies or war management patterns available to members of the international community However historic traumatic events like military defeats countries self images and images of enemies form the perceptions of decision makers regarding material power and change thereof suggesting that choices of decision makers are not affected directly by changes in relative power relations but rather through an intermediate level of strategic culture parameter **Mao Tse-Tung's Theory of Dialectic** F.Y.K. Soo,2012-12-06 The year 1979 ushered in a new phase in China s long and continuous revolution Currently this new phase is being symbolically referred to by the Chinese leaders themselves as the New Long March a continuation of the legendary and historical Long March in terms of modernization which comprises the Four Modernizations Agriculture Industry Science and Technology and Military Defense Such an all encompassing attempt at modernization may appear to some at least to be something new or may indicate a radical shift in her policy But upon closer examination this decision seems only to reflect an historical continuity in terms of the two major long term goals of the Chinese Revolution national independence and modernization or industrialization The former would make China strong the latter wealthy For ever since the Opium War in 1840 and throughout the Revolutions of 1911 and 1949 China has always pursued these two revolutionary goals though with different emphases at different times This has been especially true during the past three decades as this twofold goal has dictated all of China s important policies both domestic and foreign In other words while the concrete policies may have appeared to be lacking in unity at times they have been formulated with the specific intent of achieving national independence and modernization From this perspective the New Long March marks the passage of post Mao China beyond the transition of succession toward the continued pursuit of the same revolutionary goals **Problems of Communism** ,1968
