feminist writing demonstrates the complexity and diversity of women's movements worldwide. Bits of Life Anneke M. Smelik, Nina Lykke, 2010-07-01 Since World War II the biological and technological have been fusing and merging in new ways resulting in the loss of a clear distinction between the two. This entanglement of biology with technology isn't new but the pervasiveness of that integration is staggering as is the speed at which the two have been merging in recent decades. As this process permeates more of everyday life the urgent necessity arises to rethink both biology and technology. Indeed the human body can no longer be regarded either as a bounded entity or as a naturally given and distinct part of an unquestioned whole. *Bits of Life* assumes a posthuman definition of the body. It is grounded in questions about today's biocultures which pertain neither to humanist bodily integrity nor to the anthropological assumption that human bodies are the only ones that matter. Editors Anneke Smelik and Nina Lykke aid in mapping changes and transformations and in striking a middle road between the metaphor and the material. In exploring current reconfigurations of bodies and embodied subjects the contributors pursue a technophilic yet critical path while articulating new and thoroughly appraised ethical standards.

Making the Personal Political Jane Fenoulhet, 2017-12-02 *Making the Personal Political* is an interdisciplinary account of a now forgotten success story in the history of the society and culture of the Netherlands. While Dutch women had apparently retreated into domesticity after gaining the vote in 1919, women writers were out there in the market place selling the inside story of women's lives. Eight case studies of women writers between 1919 and 1970 trace the unconscious politics of the personal in narratives of women's identity and experience through close readings of texts located in the culture of the time. Jane Fenoulhet whose knowledge of Dutch literature and culture in the twentieth century is unparalleled in the English speaking world tracks the public representation of women's private project of self development to the moment when the personal is finally accepted as politically important in Dutch society.

Feminism & Geography Gillian Rose, 1993 Geography is a subject that throughout its history has been dominated by men. Men have undertaken the heroic explorations that form the mythology of its foundation; men have written most of its texts and as many feminist geographers have remarked men's interests have structured what counts as legitimate geographical knowledge. This book offers a sustained examination of the masculinism of contemporary geographical discourses. Drawing on the work of feminist theories about the intersection of power, knowledge and subjectivity, Rose discusses different aspects of the discipline's masculinism in a series of essays that bring influential approaches in recent geography together with feminist accounts of the space of the everyday, the notion of a sense of place and views of landscape. In the final chapter she examines the spatial imagery of a variety of feminists in order to argue that the geographical imagination implicit in feminist discussions of the politics of location is one example of a geography that does not deny

Resentment and the Feminine in Nietzsche's Politico-Aesthetics Caroline Joan S.

Picart, 2010-11-01 Nietzsche's remarks about women and femininity have generated a great deal of debate among philosophers some seeing them as ineradicably misogynist others interpreting them more favorably as ironic and potentially useful for modern feminism In this study Kay Picart uses a genealogical approach to track the way Nietzsche's initial use of feminine mythological figures as symbols for modernity's regenerative powers gradually gives way to an increasingly

misogynistic politics resulting in the silencing and emasculation of his earlier configurations of the feminine While other scholars have focused on classifying the degree of offensiveness of Nietzsche's ambivalent and developing misogyny Picart examines what this misogyny means for his political philosophy as a whole Picart successfully shows how Nietzsche's increasingly derogatory treatment of the feminine in his post Zarathustran works is closely tied to his growing resentment over his inability to revive a decadent modernity
