Paul Klee for Children Silke Vry,2011 Loved by young people across the globe Paul Klee s playful paintings are a natural introduction for children to the world of creativity and art It s no wonder that young people are drawn to the work of Paul Klee The German artist was fascinated by children s drawings and incorporated their energy and simplicity into his own work This beautiful introduction to Klee s paintings focuses on the artist s love of color and symbols his lighthearted technique and his belief that music and painting were inextricably linked Children will relate to the stories about Klee s life and struggles as an artist while learning about art Eye catching reproductions of Klee s masterpieces show children how the artist used lines

pigments and texture in imaginative new ways Best of all enticing suggestions invite readers to try different art activities and projects *Paul Klee and Children's Art* Dawn McKillop,1986 *Paul Klee* Ernest Raboff,1980 **Paul Klee** Anja Edelmann,2014-05-06 Swiss artist Paul Klee 1879 1940 especially liked the style and characters he saw in children's paintings He once said he borrowed ideas for his own work from the way children used shapes lines and colors to conjure up a new world on a sheet of paper This fun and imaginative activity book borrows Klee's ideas back encouraging children to use their artistic instinct and get creative Some of the drawings invite new characters and others introduce Klee's own the tightrope walker the ventriloquist the angry leopard as well as inspiring other ideas like tracing and cutting out playing with and expanding on Klee's own paintings Sparking endless possibilities this activity book is an ideal and immersive introduction to an accessible modern artist **The Art of Children in Paul Klee** Blythe Bohnen,1973 Paul Klee Ernest Lloyd Raboff,1988 A brief biography of this twentieth century German artist accompanies reproductions and analyses of several of his works *Paul Klee* Annie Bourneuf,2015-07-20 The book offers a new original look at the great European modernist Paul Klee and the interplay of word and image in the work he produced after WWI when the European avant garde was at its most adamant Bourneuf asks why was it that Klee immersed himself in crossings of image and text at the same time that so much avant garde art focused fiercely on the visual She proposes that Klee created forms that hover between the pictorial and the written to provoke the viewer to look slowly and contemplatively a mode of viewing the artist saw as both analogous to reading and threatened by new technological media such as film mass printing telephones and radio Bourneuf demonstrates how Klee's concern for the literary aspects of visual art is both the motive for and the means of his ironic play with modernist art theories and practices *Paul Klee and artworks* Donald Wigal,2023-11-16 An emblematic figure of the early 20th century Paul Klee participated in the expansive Avant Garde movements in Germany and Switzerland From the vibrant Blaue Reiter movement to Surrealism at the end of the 1930s and throughout his teaching years at the Bauhaus he attempted to capture the organic and harmonic nature of painting by alluding to other artistic mediums such as poetry literature and above all music While he collaborated with artists like August Macke and Alexej von Jawlensky his most famous partnership was with the abstract expressionist Wassily Kandinsky Exploring Children's Creative Narratives Dorothy Faulkner,Elizabeth Coates,2011-04-04 How should we understand children's creativity This fascinating collection of international research offers fresh perspectives on children's creative processes and the expression of their creative imagination through dramatic play stories artwork dance music and conversation Drawing on a range of research evidence from innovative educational initiatives in a wide variety of countries Exploring Children's Creative Narratives develops new theoretical and practical insights that challenge traditional thinking about children's creativity The chapters written by well respected international contributors offer new conceptual and interpretive frameworks for understanding children's creativity contest conventional discourses about the origins and nature of creativity challenge the view that young children's

creativity can only be judged in terms of their creative output explore the significance children themselves attribute to their creative activity argue the need for a radical reappraisal of the influence of the sociocultural context on children's creative expression discuss the implications of this research in relation to teacher education and curriculum design This broad yet coherent compilation of research on creativity in childhood is essential reading for students researchers and policy makers in early childhood as well as for Early Years professionals with a particular interest in creativity

Paul Klee/art & Music Andrew Kagan, 1983 **What Paul Made - A Story about a Young Paul Klee.** Valerie Downs, 2024-10-16 A story inspired by artist Paul Klee's quote A line is a dot that went for a walk WHAT PAUL MADE is a story about friendship creativity and the innocence of a child's imagination Readers will follow a young Paul on a visual journey turning a simple stroll into an adventure full of color nature curiosity and joy Together with his dot Paul returns home to discover his imagination created something wonderful The story ends with an informative artist bio and a creative prompt bringing readers full circle into their own dot inspired creation Famous for merging inner and outer worlds into his compositions artist Paul Klee's artistic life began with a childhood filled with music nature and poetry As a young man Klee decided that visual expression was the creative path that interested him the most It was then that Paul began a lifelong adventure of creating and developing his unique vision through artistic study practice and experimentation Throughout his career Klee remained dedicated to color theory practice while he experimented with materials and Impressionist Post Impressionist Abstract Expressionist Cubist and Futurist concepts Paul Klee eventually became an instructor at the Bauhaus and Desseldorf Academy and was a member of the artistic movement called the Die Blaue Reiter The Blue Rider

The Making of Paul Klee's Career, 1914-1920 Otto Karl Werckmeister, 1989-07-10 Paul Klee one of the preeminent artists of the twentieth century was associated with all of the major movements of the first half of the century expressionism cubism surrealism and abstraction In this economic and political history O K Werckmeister traces Klee's career as a professional artist concentrating on the years 1914-20 in which Klee rose from obscurity to recognition in the visual culture of the incipient Weimar Republic Werckmeister reveals the degree to which Klee who has been traditionally portrayed as aloof from

politics and the vicissitudes of the art market was subject to and interacted with material conditions Drawing on rich documentary evidence records of Klee's sales reviews of his exhibitions the artist's published writings about his art unpublished correspondence as well as contemporary criticism Werckmeister follows Klee's transformation from an idiosyncratic abstract individualist to a metaphysical storyteller to mystical sage Werckmeister argues that this latter image was promoted by a number of influential art critics and dealers acting in cooperation with the artist himself This posture prompted Klee's success first in the war weary modernist art world of 1916-18 and then in the pseudo revolutionary art world of 1919-20 This work is a critical challenge to the myth of Klee's art and to the hagiography of his artistic personality Werckmeister's historical account is sure to be a controversial yet significant contribution to Klee studies one that will change the nature of Klee scholarship for some time to come **Paul Klee** Sylvie Delpech, Caroline Leclerc, 2006-06-05 Paul Klee defined himself as a painter poet and his art perfectly reflects that phrase He was interested in colour and formed friendships with other artists also exploring colour such as Kandinsky Picasso and Braque His experimentation with backgrounds shapes colour sign and pictograms as well as with light and colour are all portrayed in his work This book contains six of his most famous paintings and with over 75 large sized stickers it allows both children and adults to experiment themselves placing the re usable stickers on different paintings to see how small and large changes completely change a work of art Sylvie Delpech studied history of art and worked in imaging technology for television before returning to Paris where she works in photography and on children's books *Museum Design with, by, and for Children* Clare Murray, 2025-06-13 *Museum Design with by and for Children* makes an important contribution to contemporary museum theory and practice by focusing on the role and rights of children in museums from a new angle design At a time when museum practitioners are challenged to work within their particular buildings and contexts to help the children in their communities feel welcome invited and involved this book presents alternative approaches that are being implemented across the world and pushing the museum field further in its commitment to children starting with design This book provides inspirational insights into large and small scale ways that children can participate in museum design and therefore exercise their human rights gain agency develop their sense of belonging and form part of museum communities Drawing on case studies from Argentina Australia England Italy Mexico and Paraguay and theoretical insights from the Reggio Emilia Approach constructivism designerly learning laboratory style design and the work of Paulo Freire and Francesco Tonucci this book explores the extent to which museums design processes are child centered and how children's material culture can be reflected in the museum design work that will ultimately shape their own early learning experiences This book explores museum design as a process that involves key stakeholders in procedural planning and associated tasks and discussions such as those regarding color light shape form space and building materials *Museum Design with by and for Children* will be valuable for museum practitioners students and researchers with an interest in children's experiences in museums

particularly how children can be empowered as active participants with rights to the museum *Discovering Child Art*
Jonathan David Fineberg, Jonathan Fineberg, 2001-01-23 This book brings together thirteen distinguished critics and scholars to explore children's art and its profound but rarely documented influence on the evolution of modern art. It shows that children's art and childhood have inspired major works of art, served as central metaphors for artistic spontaneity and honesty, and provided a window into the fundamental human qualities explored by modern artists. The volume complements editor Jonathan Fineberg's groundbreaking new book *The Innocent Eye* (Princeton, 1997) in which he showed how many of the greatest masters of modern art collected and were directly influenced by children's drawings. Contributors here both expand on Fineberg's themes and take the study of children's art in new directions. They examine, for example, the influence of child art on such artists as Kandinsky, Klee, Larionov, and Mir; the diverse styles of children's art; the influence of Romantic ideas on perceptions of children's art; the conception of giftedness versus education in children's drawings; and the relationship between children's art and primitivism. The book offers unique glimpses into the working processes of great modern artists, presenting, for example, Dora Vallier's personal recollections of Mir and his creative process, and new documentation about the works of the Russian avant-garde. The essays draw on art theory, psychology, and the close study of individual works of art and written texts. *Discovering Child Art* will appeal to a wide range of readers, including art historians, psychologists, and art educators. Contributors to the book are Troels Andersen, Rudolf Arnheim, John Carlin, Marcel Franciscono, Ernst Gombrich, Christopher Green, Josef Helfenstein, Werner Hofmann, Yuri Molok, G. G. Pospelov, Richard Shiff, Dora Vallier, and Barbara W. Wrag.
