The Future of Live Music Ewa Mazierska, Les Gillon, Tony Rigg, 2020-05-14 What live music means for one generation or culture does not necessarily mean live for another. This book examines how changes in economy, culture, and technology pertaining to post-digital times affect production, performance, and reception of live music. Considering established examples of live music such as music festivals alongside practices influenced by developments in technology including live streaming and holograms, the book examines whether new forms stand the test of live authenticity for their audiences. It also speculates how live music might develop in the future, its relationship to recorded music and mediated performance, and how business is conducted in the popular music industry.

[The Unknown Paul McCartney](#) Ian Peel, 2013-04-02 Internationally acclaimed, knighted, and immortalised in music's pantheon, Paul McCartney nevertheless remains one of the least fully appreciated of modern icons.

Throughout his career McCartney has initiated and participated in projects that have taken him very far away from the kind of music associated with his career in The Beatles in Wings and as a solo artist. From as far back as the 1960s there have been experimental solo projects both under his own name and incognito. These include the legendary Carnival of Light sixties freak out, the Percy Thrillington diversion in the 70s techno ambient and chill out releases as The Fireman, pure noise performance art as well as less publicised activity much of which Ian Peel now reveals in depth in print for the first time. What emerges is a unique critical insight into an apparently over familiar public figure Paul McCartney, avant garde musician. Undertaking extensive research for this book, Ian Peel interviewed many of McCartney's intimate musical associates from this less familiar side of his career, including Super Furry Animals on their carrot chewing percussion and electronic sound collage collaborations. Youth, the three times BRIT nominated producer, speaks in depth for the first time ever on his two albums of techno ambient and chill out recorded with McCartney as The Fireman. Nitin Sawhney on McCartney's first tentative steps into drum bass, holed up in Sawhney's London bedsit. Richard Hewson breaks a 20 year silence on the Thrillington project and pseudonym David Vaughan, the renowned psychedelic artist and organiser of 60s happenings, airs his strong views on Carnival of Light. The Beatles' most legendary unreleased track. Other interviewees include Yoko Ono, bassist Herbie Flowers, Gong's Daavid Allen, Frank Zappa's guitarist Mike Keneally, JJ Jeczalik, Art of Noise and members of Wings.

That Was Me Richard D. Driver, 2023-07-24 Paul McCartney has lived an extraordinary life in popular music and popular culture. His careers as a Beatle, as a solo musician and band leader in Wings and in areas outside music have varied tremendously and are well documented. *That Was Me* explores the impact of Paul McCartney as a musician outside the Beatles, identifying the continued excitement in generations of fans and listeners and his perennial efforts to perform and record music. Richard Driver argues that his solo career is multi faceted and extremely diverse, ranging from breaking sharply with the style and output of the Beatles to experimenting in orchestral and operatic music and returning to music designed to emulate and reproduce the style, success and popularity of the Beatles. Through McCartney we can literally and symbolically view and revisit the popular music phenomenon that was the Beatles and popular music from the 1950s to today.
