## **Paul Ricoeur Bibliographie Primaire Et Secondaire Primary And Secondary Bibliography 1935:**

*Paul Ricœur* Frans D. Vansina, 2000 Already more than sixty years Paul Ricoeur enriches the international philosophical patrimony with an astonishing number of highly technical books and enlightening reflections on actual problems and situations To serve the community of researchers in philosophy I have already published two systematic bibliographies of and on Ricoeur in 1985 and 1995 Encouraged by friends and colleagues I present now another updated bibliography as exhaustive as possible [The Oxford Handbook of Modern French Philosophy](#), 2024-06-25 French philosophy is an internationally celebrated national philosophical tradition and this Oxford Handbook offers a comprehensive approach to its history since 1800 The Handbook features essays written by renowned international specialists illuminating key movements and positions themes and thinkers in nineteenth twentieth and even twenty first century French philosophy The volume takes into account developments in recent historical scholarship by broadening the notion of Modern French Philosophy in two ways Whereas recent approaches in the field have often ignored early nineteenth century developments this volume offers comprehensive treatment of French thought of this period in order to grasp better later developments Moreover the volume extends the canon at the other end of the period of Modern French Philosophy by including work on philosophers who have come to prominence only in the last ten or twenty years The volume takes French philosophy in a broad sense to include all philosophy carried out in France over the last 200 years and it illuminates the institutional and cultural background of this national philosophical tradition in such a way as to provide a fuller and more comprehensive understanding of its unity and of its more famous moments in the twentieth century **Phenomenology World-Wide** Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology's universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl's project of a universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl's thought are here exfoliated Then the thought of the movement's classical figures and of representative thinkers in

succeeding generations is elucidated Phenomenology's geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project's new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement's vanguard This collection has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names

**Philosophy** Hans E. Bynagle, 2006-05-30 A newly reorganized up to date overview of key reference works in philosophy reflects a veritable explosion of reference sources both print and online published over the past decade Nearly 300 of the 700 entries consist of new material with an additional 50 entries substantially revised and updated English language sources are emphasized but important non English works are also well represented For professional philosophers philosophy educators students from beginning to graduate and librarians This guide represents a substantial updating and complete re organization of the author's 1997 *Philosophy A Guide to the Reference Literature* 2nd edition 1st edition 1986 It reflects a veritable explosion of reference sources both print and online in the field of philosophy over the past decade Nearly 300 entries or 40 percent are entirely new An additional 50 or so entries have substantial revisions recording new editions changes in serial publications series and websites or additional volumes completed in multi volume sets In addition it has been entirely re organized along topical lines Each of its twenty three chapters is divided into four sections 1 general sources 2 history of philosophy 3 branches of philosophy and 4 miscellanea This new arrangement accords better with the greatly expanded range of philosophy reference sources and makes it easier for the user to identify related sources of different types bibliographies dictionaries web gateways etc on the same topic Like its predecessor *Guide to Reference Sources in Philosophy* the 3rd edition aims to serve a diverse audience of professional philosophers philosophy educators students from beginning to graduate and librarians All entries include generous annotations that are often evaluative as well as descriptive English language sources are emphasized but non English works important to researchers or of interest to users with facility in other languages are also well represented

**Pathos and Praxis** Scott Davidson, 2025-04 *Pathos and Praxis* presents a new and original framework for an integrated phenomenology of life It provides the first comparative study of two influential French philosophers Paul Ricoeur and Michel Henry and shows that their debates over the interpretation of Sigmund Freud and Karl Marx signal two rival approaches to the phenomenology of life Author Scott Davidson demonstrates that while Henry reveals the phenomenological meaning of life through an inward turn to a pure subjective feeling of being alive Ricoeur anchors its significance in the reciprocal interaction between the self and the world But these two alternatives are not necessarily opposed *Pathos and Praxis* proposes an integrated phenomenology of life to which both Henry and Ricoeur make an important contribution To be a self is to suffer the pathos of having a life but also to be capable of engaging in the praxis of leading a life By thinking the pathos and praxis

of life together the integrated approach preserves human agency against deterministic conceptions of life and at the same time avoids the meritocratic hubris that depicts one's life solely as the result of one's own doing This integration of having and leading a life reframes our thinking about human capabilities and vulnerabilities in a way that has important implications for biopolitics and the ethics of life *Between Daily Routine and Violent Protest* Ernst Wolff, 2021-06-21 Most human action has a technical dimension This book examines four components of this technical dimension First in all actions various individual organizational or institutional agents combine actional capabilities with tools institutions infrastructure and other elements by means of which they act Second the deployment of capabilities and means is permeated by ethical aspirations and hesitations Third all domains of action are affected by these ethical dilemmas Fourth the dimensions of the technicity of action are typical of human life in general and not just a regional or culturally specific phenomenon In this study an interdisciplinary approach is adopted to encompass the broad anthropological scope of this study and combine this bigger picture with detailed attention to the socio historical particularities of action as it plays out in different contexts Hermeneutics the philosophical inquiry into the human phenomena of meaning understanding and interpretation and social science as the study of all human affairs are the two main disciplinary orientations of this book This study clarifies the technical dimension of the entire spectrum of human action ranging from daily routine to the extreme of violent protest

**Origeniana Nona** György Heidl, Róbert Somos, 2009 This volume contains the written versions of the lectures delivered by the participants of the Colloquium Origenianum Nonum held in Pecs Hungary 29 August 2 September 2005 The main topic of the conference was Origen and the religious practice of his time Here 49 scholars from some 18 countries publish their newest findings on the greatest and most influential Christian thinker before Augustine who laid the foundation of the Biblical textual studies created systematic theology and was regarded as an authentic spiritual leader of Christianity The papers not only provide the best overview on a lively field of studies but also demonstrate how Origen's heritage in Christian history theology and spirituality carried with it the imprint of one of the most vital traditions of our civilization Similarly to the volumes of the earlier conferences Boston 1989 Chantilly 1993 Hofgeismar Marburg 1997 and Pisa 2001 the contributions are published by the series *Bibliotheca Ephemeridum Theologicarum Lovaniensium* **Metaphors** Stefano Arduini, 2007 *Paul Ricoeur, la culture et les sciences humaines* Jonathan Roberge, 2008-04-28T00:00:00-04:00 Paul Ricoeur 1913 2005 a renouvel de multiples manières le dialogue entre la philosophie et les sciences humaines sur une période de plus d'un demi siècle Au cœur de son entreprise intellectuelle se trouve le concept de compréhension avec sa double valence ontologique ce que la compréhension dit de la condition humaine et épistémologique savoir ce qu'elle dit des conditions de la connaissance Ricoeur développe un modèle mixte une herméneutique critique en venant aussi retravailler une seule et même

grande ideia ao longo de sua obra, a do Cogito, permeia por todo o universo dos signos. Qual é a place de l'intersubjectivité dans la constitution de ce Cogito? Comment celui-ci se tient-il, se défie-t-il et se transmet-il dans son rapport à la culture? Une réflexion sur l'histoire et la pratique historique en est-elle alors insparable? C'est ces questions qui touchent toutes au destin la fois présent et futur des sciences humaines que tente de répondre cet ouvrage.

**Introdução a Ricoeur** Domenico Jervolino, 2021-09-17 Estas páginas pretendem fornecer uma nova e sintética introdução ao pensamento de Ricoeur, certamente um dos maiores filósofos do século XX, por mim sem jamais perder de vista a unidade e a coerência do seu itinerário filosófico. Apesar da vastidão complexa de sua obra, o autor considerou melhor determinar-se mais amplamente em seu último trabalho, *La Mémoire L'Histoire L'Oubli*. A memória, a história, o esquecimento: grande publicação da última década. Neste livro, o conceituado professor Domenico Jervolino analisa com esmero a trajetória do pensador francês em duas partes: O Itinerário Intelectual de Paul Ricoeur e Memória, História, Esquecimento no último Ricoeur. Ao final, o leitor encontra o discurso de Ricoeur proferido na Universidade de Barcelona em abril de 2001, momento em que todo o seu percurso intelectual exposto por ele próprio a partir de um belíssimo texto.

**Das Zeitdenken bei Husserl, Heidegger und Ricoeur** Inga Römer, 2010-06-17 Die Studie untersucht das Zeitdenken von Husserl, Heidegger und Ricoeur in philosophisch-historischer, systematischer und methodologischer Hinsicht. Den besonderen Gesichtspunkt der Studie bilden die drei von Ricoeur in *Zeit und Erzählung* behaupteten Aporien der Zeit. Der erste Teil untersucht Husserls Zeitdenken in den frühen Zeitvorlesungen, den Bernauer Manuskripten und den C-Manuskripten. Der zweite Teil führt eine Auseinandersetzung mit dem Zeitdenken des frühen Heidegger thematisiert jedoch auch dessen Entwicklung in Heideggers späteren Schriften. Der dritte Teil enthält eine umfassende Darstellung des Zeitdenkens von Ricoeur, die zugleich eine systematische Einheit in seinem Spätwerk aufweist. Die philosophisch-historische Untersuchung der Phänomenologie der Zeit unter dem systematischen Leitfaden der Zeitaporien zeichnet zudem die Entwicklung der phänomenologischen Methode nach, die von einer reinen Phänomenologie über eine hermeneutische bis zu einer kritisch-hermeneutischen Phänomenologie reicht. This study analyses the thinking on time in Husserl, Heidegger and Ricoeur from a historical, systematic and methodological perspective. The specific perspective of the study is provided by the three aporias of time that Ricoeur states in *Time and Narrative*. The first part of the book analyses

Husserl's thinking on time as it is presented in the early lectures on time the Bernau manuscripts and the C manuscripts The second part elaborates on Heidegger's early thinking on time but also takes into consideration the corresponding development in his later works The third part contains a comprehensive presentation of Ricœur's thinking on time and shows at the same time a systematic unity in his later works The historical analysis of the phenomenology of time under the systematic perspective of the aporias of time also exhibits the development of the phenomenological method which ranges from a pure phenomenology to a hermeneutic and from there to a critical hermeneutic phenomenology

The Political Ethics of Jean-François Lyotard and Jacques Derrida Georges de Schrijver, 2010 A genuine political ethics seems to require a universal perspective and yet we are told that the postmodern age eschews universal perspectives In this book Georges De Schrijver argues that the leading proponents of postmodernity have not as is commonly assumed abandoned the search for universals Rather they have sought to reshape the concept in ways that account for postmodernity's critique Examining the thought of both Jean François Lyotard who prophesies the end of the grand stories and Jacques Derrida the leading proponent of deconstruction De Schrijver comes to the conclusion that each in his turn is still in search of the universal Taking his lead from Kant's unrepresentable Idea Lyotard holds out hope for a universal expressed through respect for heterogeneity whereas Derrida arrives at this impossible dream through a critical study of Husserl's phenomenology The common bond for Lyotard and Derrida is their quest of the unrepresentable For Lyotard this comes through a sublime sadness urging him to side with the silenced party in legal disputes For Derrida the same quest is expressed through a yearning for the impossible things to come a justice that goes beyond legality a reshaping of the international juridical order and a hospitality that is truly unconditional in its reach Underlying the thought of both men is a profound appreciation for their Jewish ethical inheritance an appreciation they learn from Emmanuel Levinas In passing judgment on the new world order both authors go decidedly beyond Kant and thus beyond modernity in reaching for a truly transcultural perspective in this era of globalization
