**Paul Almasy** Klaus Kleinschmidt, Paul Almasy, Axel Schmidt, 2001 *Paris* Paul Almasy, 2020 Unique snapshots from photojournalist legend Paul Almasy 1906 2003 An ideal gift for all fans and lovers of the city of Paris With photographs of artists and stars such as Alberto Giacometti Colette Serge Gainsbourg Man Ray and Yves Saint Laurent **Bikini Story** Patrik Alac, 2015-09-15 It was in 1946 that the world first came to hear of a coral atoll in the Marshall Islands called Bikini The following year French couturier Louis Rard borrowed the name and applied it to a bathing costume for women Breaking from decades of conformity Rard dared to undress women's bodies in order to better emphasize what remained clothed albeit in tiny wisps of material By taking up the bikini as popular beachwear women also found themselves thinking differently about their bodies An ideal of perfection was reinforced by the appearance on the cinema screen of stars such as Marilyn Monroe Brigitte Bardot and Ursula Andress all of whom were featured in bikinis that accentuated their own curvaceous contours More than a bathing costume the bikini made its own contribution during the 1970s to the sexual revolution and to the changing relationship between men and women in general This book investigates the history of the bikini and its effect on the evolution in the perception of women in society as women regained responsibility for the way they look and laid claim once more to full sexual equality A collection of images throughout this book illustrates this progression step by step over a period of more than 50 years France Jean-Louis Cohen, 2014-08-15 Everyone knows Notre Dame the Eiffel Tower and the chateaux of the Loire Valley but French architects have also produced some of the most iconic buildings of the twentieth century playing a central role in the emergence and development of modernism In France Jean Louis Cohen presents a complete narrative of the unfolding architectural modernity in the country grappling not only with the buildings but also with the political and critical context surrounding them Cohen examines the developments in urban design and architecture within France depicting the continuities and breaks in French architecture since 1900 against a broader international background Describing the systems of architectural exchange with other countries including Italy Germany Russia and the United States he offers a new view on the ideas projects and buildings otherwise so often considered only from narrow nationalistic perspectives Cohen also maps the problematic search for a national identity against the background of European rivalries and France's colonial past Drawing on a wealth of recent research this authoritatively written book will challenge the way design professionals and historians view modern French architecture **Paris OGN** Andi Watson, 2022-07-06 A new and expanded edition with artwork created specially for this volume Juliet a penniless American art student travels to the city of light to study painting To pay her way she paints portraits of wealthy debutantes One of her subjects is Deborah a young English woman suffocated by the narrow expectations of her aristocratic family Juliet is equally confined by the rigid academic structure of her art education and finds an unlikely kindred spirit in Deborah Juliet and Deborah's love for art brings them together even as their friends and family try to drive them apart A fairy tale romance

Flooded Pasts examines a world famous yet critically underexamined event UNESCO s International Campaign to Save the Monuments of Nubia 1960 80 to show how the project its genealogy and its aftermath not only propelled archaeology into the postwar world but also helped to recolonize it In this book William Carruthers asks how postwar decolonization took shape and what role a colonial discipline like archaeology forged in the crucible of imperialism played as the new nations asserted themselves in the face of the global Cold War As the Aswan High Dam became the centerpiece of Gamal Abdel Nasser s Egyptian revolution the Nubian campaign sought to salvage and preserve ancient temples and archaeological sites from the new barrage s floodwaters Conducted in the neighboring regions of Egyptian and Sudanese Nubia the project built on years of Nubian archaeological work conducted under British occupation and influence During that process the campaign drew on the scientific racism that guided those earlier surveys helping to consign Nubians themselves to state led resettlement and modernization programs even as UNESCO created a picturesque archaeological landscape fit for global media and tourist consumption Flooded Pasts describes how colonial archaeological and anthropological practices and particularly their archival and documentary manifestations created an ancient Nubia severed from the region s population As a result the Nubian campaign not only became fundamental to the creation of UNESCO s 1972 World Heritage Convention but also exposed questions about the goals of archaeology and heritage and whether the colonial origins of these fields will ever be overcome      **Paris Pictured** Julian Stallabrass,2002 This selection of images examines the growth and development of photography through the changing character of Paris in the remarkable period of 1900 1968 During these years photography became a mass medium with cheap reproductions appearing in the press Technical advances made it possible to capture rapid movement and street photography flourished some of the finest images in documentary photography were made on the streets of Paris by Atget Brassai Cartier Bresson Doisneau and Ronis among many others The transience of city life and the histories of Paris are brilliantly evoked in these images from the elegiac photographs of the early twentieth century which recorded those quarters later condemned by modernisation projects through the Occupation to the upheaval of the May 1968 demonstrations With over 130 photographs and Julian Stallabrass s authoritative text this book is an essential purchase for anyone interested in the art of photography and the city of Paris Jacket      **Belonging and Betrayal** Charles Dellheim,2021-09-21 The old masters new masters Was modernism Jewish In the middle To have and have not      **The Unesco Courier** Unesco,1975      A Glorious Disaster Ted Byfield,2008 The first and final victory      **The Great Cities in History** John Julius Norwich,2016-08-02 A portrait of world civilization told through the stories of the world s greatest cities from ancient times to the present Today for the first time in history the majority of people in the world live in cities The

The Wall Beside the Work Derek Pigrum,2021-06-23 This book is about the way artists generate an endless chain of substitute objects for something they can never quite find It explores the work involved in art with a focus upon finding gathering and assembling charged and auratic objects on the wall beside the work The author employs the term Das Gegenwerk or the work towards the work This concept avoids definitive closure and expands the notion of drafting and related practices to include qualitative research methods The multi mode transitional practices of Das Gegenwerk are devoid of any demand for a preconceived goal but instead hinge upon the provisional and indeterminate As such it is a far cry from the binary logic of the computer and the design cycle but is of interest to an audience engaged with both Das Gegenwerk hinges on our capacity to respond to the outside rather than the inwardness often attributed to creative agency A fundamental belief of the book is that by investigating and adapting the practices of expert practitioners we can gain an understanding of high level creativity It is neither a recipe nor a linear or cyclic approach Rather artistic creation is an interweave of transitional multi mode practices where the overriding emphasis is on the handling or habituation of transitional materials in physical place The author addresses the urgent need to provide a balance between the promise of new technology and our capacity to both respond to and work with what the world bestows
