Paul Ricoeur's Hermeneutics and the Discourse of Mark 13 Peter C. de Vries, 2016-12-14 The apocalyptic discourse of Mark 13 predicts that cataclysmic events will occur within the generation of Jesus contemporaries but readers today know these events have not taken place Paul Ricoeur's hermeneutics enables a reader to understand this text as a presentation of truth rather than as a failed prediction Ricoeur argues that the meaning of a text is not defined by the author's intention nor by the reader's reception but by the text itself Therefore although Mark 13 was originally understood literally today's reader is able to read it as metaphor and to discern latent meaning that is present in the text As Ricoeur explains metaphor associates previously unrelated concepts and creates new multiple meanings In doing metaphor is able to present truth not as a verifiable presentation of the world but as a novel manifestation of the world Mark 13 functions as metaphor because of a double dissonance first between the configured world of the text and the lived world of the reader and second between claim that Jesus is able to predict when the events will take place v 30 and the assertion that he is not able to do so v 32 One option for the metaphorical meaning that Mark 13 offers for today's reader is the perception of the presence of forces that challenge and subvert powers which appear to be dominant and which deceive destroy and persecute This book will appeal to two sets of readers First scholars who study New Testament apocalyptic texts and the eschatological expectations of the early church will appreciate a new approach to a challenging subject matter Second Ricoeur scholars who focus upon the religious aspects of his work will enjoy the employment of his interpretive approach on a Biblical genre that has heretofore received only cursory attention

Truth and Memory Michael A. Hayes, David Tombs, 2001 *Hermeneutics of Education* Andrzej Wiercinski, 2020-03-10 A hermeneutics of education pays special attention not to educational structures but the central role of conversation in the educational process The key issue is the formation of the person as a unique reality of being and acting while supporting intersubjective understanding The polyphony of understanding places the human search for meaning within the horizon of incompleteness and allows for both spontaneity and rigor in order to reach an understanding of what is happening to us and in us when we understand Reflection on education is always inseparable from educational practice

A Postmodern Theology of Ritual Action Jonathan L. Best, 2019-02-26 A Postmodern Theology of Ritual Action is a unique work that seeks to explore where we find meaning within ritual and actions within the church Bridging hermeneutics philosophy and postmodern thought this work seeks to explore how to do theology with the community through conversation Beginning with the mindset that meaning is already present within ritual action rather than outside it Best engages the practice of foot washing among the Original Free Will Baptist denomination of eastern North Carolina Foot washing suggests a new future for theology a future that models love service and acceptance Incorporating insights gained from conversing with philosophy theology and the Original Free Will Baptists foot washing points toward a future relational practical theology A Postmodern

Theology of Ritual Action is a captivating work that draws from both philosophers and theologians to show that we can learn much by listening to the voices of religious practitioners

Hermeneutics Paul Ricoeur, 2013-02-04 Paul Ricoeur's contribution to the theory of interpretation or hermeneutics is considerable; he ranks among the masters of this discipline alongside Schleiermacher, Dilthey, Heidegger, and Gadamer. In addition to major works like *The Conflict of Interpretations*, he wrote many articles and shorter texts which deserve to be discovered and rediscovered. These allow us to gain a deeper understanding of the development of his work over time and to appreciate the full range of his contribution. Some of the texts examine the nature of metaphor while others guide the reader through the many challenges of the hermeneutic problem from the symbol to the text, then to the text as action, taking full account of the ethical implications. Here one encounters Ricoeur's reflections on the future of hermeneutics and his abiding concern to explore the relations between hermeneutics and analytical philosophy. Ricoeur's contribution to biblical hermeneutics has also been decisive. Two masterful studies in this volume attest to Ricoeur's attempt to explore the relations between revelation and truth on the one hand and between myths of salvation and reason on the other. This book, the second volume of Ricoeur's writings and lectures, brings together texts which appeared between 1972 and 2006. It is published under the auspices of Le Fonds Ricoeur.

Continental Philosophy and Philosophy of Religion Morny Joy, 2010-11-05 This is the first book that provides access to twelve Continental philosophers and the consequences of their thinking for the philosophy of religion. Basically, in the second half of the twentieth century, it has been treated from within the Anglo-American school of philosophy which deals mainly with proofs and truths and questions of faith. This approach is more concerned with human experience and pays more attention to historical context and cultural influences. As such, it provides challenging questions about the way forward for philosophy of religion in the twenty-first century.

Towards Recognition of Minority Groups Marek Zirk-Sadowski, Bartosz Wojciechowski, 2016-02-24 This volume analyses current debates concerning problems in the nature, justification, and legal protection of human rights for minorities with reference to the issues surrounding social milieu as a source of any legitimized law which is in itself in need of legal recognition as well as being an object of legal protection. With

contributions from a global network of scientists across several continents the work examines the debate dedicated to the understanding of the normative framework expressed in terms of human rights that guarantee autonomous action in public and private for minority groups as well as individuals The chapters go on to study the particular claims that need to be audible and visible for others in the public sphere with reference to the legal protection of human rights The work concludes with the completion of an interpretative circle debating the issues of legal consensus and legal identity with respect to the specificity of the patterns and modes guiding human interactions Going beyond the legal analysis to discuss communication strategies in human rights this collection will be of great interest to those studying the philosophy and theory of law practical philosophy in general political sciences and theory of democracy

The Text of Human Action and Its Hermeneutic Patricia Ann Fleming, 1983

A Double Vision Hermeneutic Samuel Hio-Kee Ooi, 2015-02-26 The aim of this thesis is to unfold the multilayered intersubjective experience of the author himself a Chinese pastor The author postulates himself as the subject in whom the said experience was evident so that it can be analyzed and interpreted The author argues for a cultural linguistic experience of shi as the locus at which the intersubjective experience takes place He then shows that such experience embodies a Chinese Christian's two texts inheritance and argues that it is through unfolding or revealing of such experience that the nature of his relationship with them can be demonstrated

Existential Hermeneutica Andrzej Wiercinski, 2020-03-10 Existential hermeneutica is phronetic existence with the aim of cultivating practical wisdom in human life It comes from life influences life and transforms life Understanding what is happening in life requires reaching the hermeneutic truth which is the truth of understanding The experience of hermeneutic truth calls for personal commitment and existential response and thus expresses the hermeneutic moral imperative Referring to Heidegger's phenomenological analytics of Dasein Gadamer emphasizes that understanding is not only one of the human capabilities but a way of Dasein's being in the world

Philosophy of History and Action Y. Yovel, 2012-12-06 This volume contains the proceedings of the First Jerusalem Philosophical Encounter started by the Hebrew University Institute of Philosophy now the S H Bergman Centre for Philosophical Studies which took place on December 28-31 1974 In recent years the culture gap that separates philosophers seems slowly indeed much too slowly to be narrowing Although short circuits in communication still do happen and mutual disrespect has not vanished it is becoming unfashionable to demonstrate ignorance of another philosophical tradition or to shrug it off with a supercilious smile Perhaps dialectically the insufficiency of any self-centred view that tries to immunize itself to challenges from without starts to disturb it from within Moreover as the culture and language bound nature of many philosophical divergencies is sinking more deeply into consciousness the irony of an attitude

of intolerance to them becomes more apparent Our aim was to make a modest contribution to this development We did not however mean to confuse genuine differences and problems in communication Consequently the more realistic term encounter was preferred to the idealizing dialogue The Israeli hosts themselves trained in a variety of philosophical traditions felt that there is something in between real dialogue on the one hand and mutual estrangement on the other and wished to provide a meeting place for it

Pillars in the History of Biblical Interpretation, Volume 2 Stanley E. Porter, Sean A. Adams, 2016-11-03 This two volume set is part of a growing body of literature concerned with the history of biblical interpretation The ample introduction first situates key players in the story of the development of the major strands of biblical interpretation since the Enlightenment identifying how different theoretical and methodological approaches are related to each other and describing the academic environment in which they emerged and developed Volume 1 contains fourteen essays on twenty two interpreters who were principally active before 1980 and volume 2 has nineteen essays on twenty seven of those who were active primarily after this date Each chapter provides a brief biography of one or more scholars as well as a detailed description of their major contributions to the field This is followed by an often new application of the scholar s theory By focusing on the individual scholars and their work the book recognizes that interpretive approaches arise out of certain circumstances and that scholars are influenced by and have influences upon both other interpreters and the times in which they live This set is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the current field of biblical studies developed
