Raising A Thinking Preteen:

Raising a Thinking Preteen Myrna B. Shure, Roberta Israeloff, 2001-04 A tailored plan developed especially for 8 to 12 year olds offers guidance to developing the essential skills needed to resolve daily conflicts and to think for themselves

Thinking Parent, Thinking Child Myrna Shure, 2004-09-21 You've tried everything you can think of but nothing you do seems to have any effect on your child's chronic procrastinating. The school called again to complain that your daughter is still bullying the other kids in her class and you don't know how to make her stop without becoming a bully yourself. Your son explodes in anger if he loses at anything sports or even fun family games. And your kids constantly argue with each other and with you. If you're looking for a different way to handle problems like these, this book is for you. Written by internationally acclaimed parenting author Dr. Myrna Shure, *Thinking Parent, Thinking Child* arms you with powerful techniques for dealing with these and dozens of other issues confronting today's parents. In her national bestseller *Raising a Thinking Child*, Dr. Shure introduced parents to her original I Can Problem Solve approach to teaching children the critical thinking skills they need to solve problems on their own. Now in *Thinking Parent, Thinking Child*, she shows how to apply I Can Problem Solve techniques to the top concerns of parents and children from preschoolers through those in their preteen years. Not only will children learn to think about their own and others' feelings, they'll also learn to appreciate that you have feelings too. You'll see how weighing your options before responding to your children will inspire them to weigh their options. As you reflect on your own behavior toward your children, you may wonder: Is time out really useful or will spanking help or hurt? And just as you want your child to listen to you, you'll find yourself asking: Am I really listening to him? The important lessons presented in this book go far beyond how to manage or control specific problems. Instead, you'll be able to help your child find her own best solutions to problems ranging from getting her homework done to test anxiety to teasing to being teased to peer pressure. *Thinking Parent, Thinking Child* gives you tools to help your kids become less aggressive, inhibited, and fearful and more cooperative, empathic, and better able to handle life's frustrations and disappointments. **Raising a Thinking Child**

Workbook Myrna B. Shure, Theresa Foy DiGeronimo, 2000 This unique workbook is based on Dr. Shure's I Can Problem Solve ICPS approach, widely used in schools throughout the country. *Raising a Thinking Child Workbook* stands alone as a practical parenting manual and is the ideal parent involvement component for use with ICPS classroom manuals. Sheila B. Anderson, 2006-11-30 Notable teen experts and stellar practitioners from across the country explain why library service to adolescents in this age range is so important and how you can enhance your collection and services to accommodate and win over this important group. Topics range from understanding adolescent informational needs and building and promoting a winning collection to creating programs with tween appeal. Contributors include Sheila B. Anderson, James Rosinia, Deb Taylor, Robyn Lupa, and Kristine Mahood. Brimming with valuable insights and fresh ideas as well as nuts and bolts directions, this is a must read for all librarians who work with

young adolescents If someone is described as a young adult what image comes to mind In fact a young adult can be a twelve year old middle schooler or a high school graduate Libraries have traditionally offered a variety programs and services for YAs and although more emphasis has been given to serving teens in recent years little has been done to distinguish between groups within the category and meet the specific developmental needs of this broad range of library users This collection complements Anderson s previous collection *Serving Older Teens* by focusing on the needs of tweens and young teens ages 11-14 This is the age range when many young people stop using the library and lose interest in reading Notable teen experts and stellar practitioners from across the country explain why service to adolescents in this age range is so important and how you can enhance your collection and services to accommodate and win over this important group Topics range from understanding adolescent informational needs and building and promoting a winning collection to creating programs with tween appeal Contributors include Sheila Anderson James Rosinia Deb Taylor Robyn Lupa Brenda Hager and Kristine Mahood Brimming with valuable insights and fresh ideas as well as nuts and bolts directions this is a must read for all librarians who work with young adolescents *Raising Children Who Think for Themselves* Elisa Medhus M.D., 2011-02-22

Raising Children Who Think for Themselves offers a new approach to parenting that has the power to reverse the trend of external direction in our children and help parents bring up empathetic self confident moral independent thinkers Children who are externally directed make decisions based on the peer groups violent movies sexually explicit television shows and rap lyrics that permeate their lives When children are self directed on the other hand they use their power of reason like a sword to cut through the jungle of external influences Fortunately the author shows us it is never too late to foster in our children the ability to weigh options consider sources and think for themselves Filled with real life examples humorous anecdotes and countless interviews with parents children and teachers *Raising Children Who Think for Themselves* identifies the five essential qualities of self directed children Outlines the seven strategies necessary for parents to develop these qualities in their children Addresses nearly one hundred child raising challenges from body piercing to whining wars and offers solutions to help encourage self direction ***It Takes a Child to Raise a Parent*** Janis Clark Johnston, 2013-04-04

While advice abounds from a variety of sources before parents embark on their parenting journeys the only parent preparation we actually receive comes from our family and peer stories Yet most adults do not realize that in day to day challenges of guiding our children something interesting happens As we steer our children through life we reopen our own childhood roads Just when our child most needs us we become needy ourselves as adults and parents we find that we have unresolved raising issues basic needs that were not met in our childhoods Our needs and memories echo and influence many of the parenting decisions we make even though we re unaware of those influences at times Fortunately children help parents reach their needs as much as their parents help them fulfill their own Our child ends up guiding us by connecting us to some earlier time in our life when we encountered distress We dredge up a lesson and we adapt by adhering to or

changing the story that we tell ourselves about who we are We re negotiate the five basic needs that surface from our childhood memories as our youngsters pass through each of the developmental phases The self aware parent focuses on creative problem solving by focusing on one interaction at a time It Takes a Child to Raise a Parent offers an exploration of how our own childhood memories and needs influence and shape our parenting decisions in our adult lives Offering tips stories from a variety of families and step by step exercises Janis Johnston helps parents better understand and grasp the tools necessary to face parenting challenges head on and to explore new ways of understanding ourselves our children and our family interactions Expectant parents and current parents interested in understanding their own personality development as well as the many moods of childhood and their own children will find clear guidelines for understanding their roles in their children s lives as well as concrete suggestions for how to navigate the choppy waters of raising children
