Hemphill, Richard Ross, 2005-06-01 What if we raise our children to gain the world but in the process they forfeit their souls? Ask the writers of Parenting with Kingdom Purpose: True Love Waits founder Richard Ross and best-selling author Ken Hemphill. Indeed, children are a constant reminder of God's goodness. In that light, Christian parents are called to celebrate and nurture the unique personality traits and talents of each precious one with a gracious and eternal perspective. Yet studies indicate 70 percent of teenagers from evangelical homes will drop out of church within two years after high school graduation. What the world has to offer will win their closer attention. Parenting with Kingdom Purpose looks at Bible teaching and the recent National Study of Youth and Religion to shape a fresh approach to raising children that cuts through the chaos of modern life and brings families closest to each other and the Lord. *Purpose-Driven Parent* Wendy Felton, 2023-02-09 Purpose-Driven Parents: How to Raise an Academically Sound Child for College and Career Readiness is an engaging book that immediately grabs your attention with the author's storytelling capabilities of real-life examples. The author divides the book into ten sections that provide guidance when preparing your child for academic success, college and career readiness. Each section is filled with several real-life stories that address the topic of these sections. There are more than sixty stories in all. You will experience the behavior that other parents have exemplified. After the short story, you will experience the author's personal reflection on the story as well as the lesson she learned from the situation, how it personally affected her or how it potentially could affect that child. Some of these stories start with children as early as three years old; however, you should start working with your children as early as birth. Remember, children are like sponges; they absorb what they see and hear, especially from

their parents and the people around them They will think If my parent did it then it must be acceptable Parents actions lead to their future If you want a better future for your child then this book is a must read For an online course 6 99 visit www.PurposeDrivenParents.com Parent-Child Relations: A Guide to Raising Children (Revised Edition) Hisham Altalib ,AbdulHamid Ahmad AbuSulayman ,Omar Hisham Altalib ,2024-03-11 Modern families face challenges unprecedented in human history The time attention and vigilance required of parents is exhausting and consuming family life Parents are required to balance complex schedules be technology aware social media informed constantly monitor children s screen time and media communication cope with academic problems shield them from the dangers of immorality find inventive ways to overcome their boredom organize extracurricular activities and handle everything within financially constrained circumstances that increasingly require both to be working Little wonder that anxiety is on the rise and parents are increasingly fearing for their children s future The authors in this book attempt to address parents concerns and equip them with the confidence and tools necessary to work towards understanding and addressing the real needs of both themselves and their children to nurture the child s character self confidence life skills moral boundaries spiritual development and much more There is no quick fix Myths are debunked and practical tips offered throughout which can be implemented immediately with fun activities outlined at the end of each chapter with the aim of improving parent child relationships through bonding love patience openness respect and communication Parenting Secrets: Wisdom from Native American Traditions Pasquale De Marco,2025-05-03 Parenting Secrets Wisdom from Native American Traditions is a comprehensive guide to parenting based on the wisdom of Native American traditions It offers a unique perspective on child rearing that emphasizes the importance of connection respect and responsibility Drawing on centuries of experience Native American traditions offer a wealth of insights into the nature of children and how to raise them to be happy healthy and successful individuals This book distills these insights into practical advice that can be applied by parents of all backgrounds The book is divided into 10 chapters each of which focuses on a different aspect of parenting The chapters cover topics such as The power of connection Raising children with purpose Teaching the value of responsibility Cultivating emotional intelligence The importance of discipline The role of community Spiritual development Cultural identity Parenting in the modern world The journey of parenthood Parenting Secrets Wisdom from Native American Traditions is not a how to manual but rather a collection of stories insights and teachings that can inspire and guide parents on their parenting journey It is a book that will be treasured by parents for years to come Parenting Secrets Wisdom from Native American Traditions is a must read for parents who want to Raise happy healthy and successful children Build strong and loving relationships with their children Pass on their cultural heritage to their children Create a positive and supportive environment for their children to grow up in Parenting Secrets Wisdom from Native American Traditions is a book that will change the way you think about parenting It is a book that will help you to raise your children to be the best that they can be If you like this book write a review on google
