Sanz,2025-09-04 For more than 3 000 years the Amazons have been a recognised symbol that transcends mythology and has influenced history itself The image of the powerful warrior woman who defied the established patriarchal order proved so compelling that it became permanently enshrined in the collective imagination first through oral tradition and later through texts and images The contributions in this volume explore how this image has endured through the lens of classical reception From Wonder Woman to the war in Ukraine and across diverse genres such as video games fashion warfare and documentary film the Amazonian archetype has evolved beyond anything once imagined Today however we are witnessing a true transformation No longer embodying the negative traits the Greeks once ascribed to them the Amazons have become a symbol of strength resilience and empowerment a model for women s rights in a global society and an icon of feminism and the LGBTQIA community Divided into three parts this book analyses how the image of the Amazon has at different times and in different contexts been marginalised put on a pedestal and globalised For the first time media case studies and lived histories are examined to compare and contrast modern frameworks with each other and with the original Amazonian iconography What emerges is a concept of the Amazon as a modern paradigm that speaks as strongly to contemporary society as it did to the ancients but with a very different meaning     *Consideraciones en torno al amor en la literatura de la Grecia Antigua* Máximo Briosi Sánchez,Antonio Villarrubia Medina,2000     **Pícaros y Rameras** Pedro M. **misoginia en Grecia** Mercedes Madrid, 1999 La misoginia es una de las características que se suelen atribuir al pensamiento griego y esta atribución se justifica en la lectura de autores como Hesiodo o Senneca o en las afirmaciones de numerosos personajes del teatro griego por mencionar solo los ejemplos donde la hostilidad hacia las mujeres se manifiesta de una manera evidente y explícita. La misoginia de los antiguos griegos se constituye en un tema que ha permanecido incuestionable casi hasta nuestros días. Este libro plantea la revisión del concepto de misoginia por medio de la valoración que de la imagen de lo femenino se construye en el discurso político griego. Además se trata de hallar las razones históricas sociales, políticas o psicológicas que están en la base de la hostilidad hacia las mujeres e intenta delimitar la función que en el pensamiento griego cumplió la misoginia en la interpretación, ordenación y control de la realidad.

**Actas de las IV Jornadas Internacionales y V Nacionales de Estudios Clásicos** ORDIA PRIMA Marcos Flavio Carmignani, 2022-12-01 El objetivo de estas Jornadas fue generar y promover un amplio debate teórico y crítico respecto de la tradición clásica entendida como el conjunto de textos recibidos desde el mundo antiguo grecolatino a partir de diferentes disciplinas reales y perspectivas críticas. En los últimos años este debate se ha visto enriquecido por el aporte de al menos tres perspectivas teóricas que con sus análisis detallados y profundos han echado luz y han permitido resignificar algunos de los textos clásicos más allá de las lecturas críticas del feminismo como la identificación de las voces femeninas reprimidas en la poesía virgiliana con las voces subversivas de los vencidos. Los profundos avances interpretativos logrados a partir de la teoría narratológica como es el caso de las focalizaciones internas en la poesía grecolatina y la teoría de la recepción por ejemplo un mito como el de Antígona puede ser reinterpretado y reasimilado para no solo deconstruir la interpretación canónica del texto clásico sino para retratar con una nueva voz el período de la recuperación democrática en Argentina. A partir de estas lecturas toda la literatura clásica está siendo reinterpretada con resultados sorprendentes.

**«Aquella dolçor amarga»** Sònia Gros Lladós, 2015-09 Aquest estudi sobre la temática amorosa de la novela cavalleresca Curial y Gelfa explora la seu relació amb els textos dels poetes latins com Ovidi i els elegíacs. Se aborda a través de la connexió de la novela amb altres obres que havien filtrat la tradición amorosa dels clásicos grecolatinos en llengua vulgar com el Decamerón. Es pretende així profundizar en el coneixement del Curial y Gelfa, una de les obres más destacables de la literatura en llengua catalana del segle XV i estudiar la contextualització del text dentro de un marco más general en los corrientes culturales del período. Aquest volum ofereix doncs un interés especial d'estudiosos de la literatura del segle XV y de la novela cavalleresca, así como a los especialistas en trabajos sobre la recepción dels humanistes italianos y la tradición clásica en las lenguas peninsulares.
