The Modern Review Ramananda Chatterjee, 1909. Includes section Reviews and notices of books. Indian Liberalism between Nation and Empire Elena Valdameri, 2022-03-10. This book analyses the political thought and practice of Gopal Krishna Gokhale 1866-1915, preeminent liberal leader of the Indian National Congress who was able to give a global voice to the Indian cause. Using liberalism, nationalism, cosmopolitanism and citizenship as the four main thematic foci, the book illuminates the entanglement of Gopal Krishna Gokhale's political ideas and action with broader social, political and cultural developments within and beyond the Indian national frame. The author analyses Gokhale's thinking on a range of issues such as nationhood, education, citizenship, modernity, caste, social service, cosmopolitanism and the women's question, which historians have either overlooked or inserted in a rigid, nation-bounded historical narrative. The book provides new, enriching dimensions to the understanding of Gokhale, whose ideas remain relevant in contemporary India. A new biography of Gokhale that brings into consideration current questions within historiographical debates, this book is a timely and welcome addition to the fields of intellectual history, the history of political thought, Colonial history and Indian and South Asian history.

Colonial Transformation and Asian Religions in Modern History David W. Kim, 2018-10-12. The localisation of a region, group or culture was a common social phenomenon in pre-modern Asia, but global colonialism began to affect the lifestyle of local people. What was the political condition of the relationship between insiders and outsiders? The impact of colonial authorities over religious communities has not received significant attention, even though the Asian continent is the home of many religions including Hinduism, Buddhism, Confucianism, Taoism, Islam, Shintoism and Shamanism. *Colonial Transformation and Asian Religions in Modern History* presents multi-angled perspectives of socio-religious transition. It uses the cultural religiosity of the Asian people as a lens through which readers can re-examine the concepts of imperialism, religious syncretism and modernisation. The contributors interpret the growth of new religions as another facet of counter-colonialism. This new approach offers significant insight into comprehending the practical agony and sorrow of regional people throughout Asian history. *Changing Identities* Joachim Heidrich, 2021-10-11.
