Practice, Committee on the Disposition of the Air Force Health Study, 2006-05-25 The Vietnam War was fought in a jungle environment that provided cover to the enemy and made battlefield observations difficult so military strategists used herbicides to remove foliage along key roads and waterways defoliate areas surrounding enemy bases and supply and communications routes and improve visibility in heavily canopied forests The last three decades have seen an ongoing debate about the effects of this military use of herbicides and the potential adverse long term health effects on those who may have been exposed to these herbicides In response to these concerns the Air Force Health Study AFHS was created to investigate the potential relationship between the herbicides used and the health problems of those exposed Disposition of the Air Force Health Study assesses the scientific merit of the AFHS operations and procedures and makes recommendations for improvement

Barraclough, 2011-01-01 In the first book length scholarly study of the San Fernando Valley home to one third of the population of Los Angeles Laura R Barraclough combines ambitious historical sweep with an on the ground investigation of contemporary life in this iconic western suburb She is particularly intrigued by the Valley s many rural elements such as dirt roads tack and feed stores horse keeping districts citrus groves and movie ranches Far from natural or undeveloped spaces these rural characteristics are she shows the result of deliberate urban planning decisions that have shaped the Valley over the course of more than a hundred years The Valley s entwined history of urban development and rural preservation has real ramifications today for patterns of racial and class inequality and especially for the evolving meaning of whiteness Immersing herself in meetings of homeowners associations equestrian organizations and redistricting committees Barraclough uncovers the racial biases embedded in rhetoric about open space and western heritage The Valley s urban cowboys enjoy exclusive semirural landscapes alongside the opportunities afforded by one of the world s largest cities Despite this enviable position they have at their disposal powerful articulations of both white victimization and with little contradiction color blind politics

Cattle In The Cold Desert, Expanded Edition James A. Young,B. Abbott Sparks,2002-08-01 A sophisticated ecological analysis of ranching in northern Nevada featuring a new chapter and new epilogue by the authors First published in 1985 Cattle in the Cold Desert has become a classic in the environmental history of the Great Basin brilliantly combining a lively account of the development of the Great Basin grazing industry with a detailed scientific discussion of the ecology of its sagebrush grassland plant communities The volume traces the history of white settlement in the Great Basin from about 1860 along with the arrival of herds of cattle and sheep to exploit the forage resources of a pristine environment and through the history of John Sparks a pioneer cattleman illustrates how the herdsmen interacted with the sagebrush grasslands of the cold desert West As the story unfolds on two levels that of the herdsmen adapting their livelihood to the challenging conditions of the Great Basin s scanty forage aridity and fierce winters and that of the fragile ecology of the desert plant communities responding to the presence of huge herds of livestock we see the results of a grand experiment initiated by men willing to venture beyond the limits of accepted environmental potential to settle the Great Basin as well as the often ruinous consequences of the introduction of domestic livestock into the plant communities of the region The result is a remarkably balanced and insightful discussion of the grazing industry in the Intermountain West This new paperback edition includes an additional chapter that addresses the impact of wild mustangs on the Great Basin rangelands and an epilogue that discusses changes in rangeland management and in rangeland conditions especially the impact of recent wildfires As concern over the future of the Great Basin s unique rangeland environment and its principal agricultural industry grows Cattle in the Cold Desert remains essential reading for everyone who cares about

this underappreciated region of the American West *Apache War Cry* David E Waddell, 2019-05-29 Annie Phillips is traveling to Tucson looking for buyers for her family's cattle. She is looking forward to a peaceful trip but that all changed after she heard her first Apache war cry. Hayden McCloud is rotting away behind bars for a crime he never committed. Since being locked up in the notorious hellhole called Yuma Territorial Prison, Hayden has dreamed of escaping and tracking down the men who wrongfully imprisoned him. One day someone pays the territorial governor a handsome sum of money to pardon Hayden and release him from the hellhole he's been rotting away in. Not knowing who paid the governor to pardon him, Hayden sets out for Tucson to find those responsible for setting him up for a crime he never committed. He wants revenge for his wrongful imprisonment and is determined to get it. Both Hayden and Annie must travel through the hot desert landscape of the Arizona Territory where an Apache uprising has just broken out. Will they both make it to Tucson safely so they can pursue their reasons for going there? Or will they be taken prisoner, tortured, and then killed by hostile Apache warriors who love scaring their enemies with the Apache war cry?
