strategy led him to the broader context of increased security measures and secrecy since World War II. One aspect of such government policies that has continued to hold the public's imagination for over half a century is the question of unidentified flying objects (UFOs) and the National Security State. This is the first volume of a two-part detailed chronological narrative of the national security dimensions of the UFO phenomenon from 1941 to the present. Working from hundreds of declassified records and other primary and secondary sources, Dolan centers his investigation on the American military and intelligence communities, demonstrating that they take UFOs seriously indeed. Included in this volume are the activities of more than fifty military bases relating to UFOs, innumerable violations of sensitive airspace by unknown craft, and analyses of the Roswell controversy, the CIA-sponsored Robertson Panel, and the Condon Committee Report. Dolan highlights the development of civilian anti-secrecy movements which flourished in the 1950s and 1960s until the adoption of an official government policy and subsequent closing of the door during the Nixon administration. A thorough and monumental undertaking, Dr. Edgar Mitchell, Apollo 14 astronaut, writes: "If there ever had been a must-read must-have book on the subject of UFOs or the American military intelligence establishment in the same light again, Don Ecker, senior editor of UFO Magazine, is it. I promise you that once you've read it, you'll never view the subject of UFOs or the American military intelligence establishment in the same light again." Don Ecker, senior editor, UFO Magazine. **UFOs** Jan Burns, 2008-06-06

This book provides eyewitness accounts paired with alternative explanations and other elements of reasoning to explore legends surrounding UFO sightings and alien abductions. The highly disputed Roswell Incident is richly evaluated. *UFO: Are We in Danger?* Egon Kragel, 2023-07-04. Should we be afraid of UFOs? In June 2021, NASA's boss admitted that "I've talked to those pilots and they know they saw something and their radars locked onto it and then all of a sudden it was here on the surface and then it's there. And they don't know what it is and we don't know what it is. We hope it's not an adversary here on Earth that has that kind of technology." The fear that the unexplained phenomena are a sign of an advancement, terrestrial or extraterrestrial, which is part of an aggressive project that is still in its infancy. In April 2022, a Pentagon report counted 57 effects suffered by people in contact with a UFO: abductions, brain lesions, paralysis, burns due to radiation, death. Egon Kragel, an outstanding researcher, has investigated dozens of cases where witnesses have not come out of encounters with UFOs unscathed. In a rigorous book rich with episodes, the author reveals unpublished archives, probes the credibility of testimonies, and questions the official thesis that UFOs represent a danger to humanity. No reader will come away unscathed from this new book that will rock the boat of official uncertainties. Egon Kragel is one of the great specialists in ufology in France. His work is recognized throughout the world, notably by his friend Jacques Vallée, who inspired the director Stephen Spielberg for the film *E.T.* He wrote his first book *Ovnis enquêtes sur un secret d'Etat*. He participates in numerous conferences, appears regularly on television, and takes part in radio programs and podcasts. **UFOs and Abductions** David Michael Jacobs, 2000.
