The Ultimate Random Encounters Book Travis "Wheels" Wheeler, Logan Jenkins, Lee Terrill, Greg Leatherman, 2021-10-05
Playing a role playing game is a delicate dance If everything runs smoothly it feels like you and your friends are able to maneuver effortlessly through dramatic epic and uproariously silly scenes where everyone gets a chance to shine And yet other times it just doesn't come together Combat slows to a repetitive grind the Game Master runs out of good Non Player Character NPC ideas or after twenty six rounds maybe even the most beautifully designed encounter just gets a bit stale Sure you could prep an absolute powerhouse of an all killer no filler role playing session Spend time getting fun character voices ready for every NPC But that sounds like way too much work This is the book you turn to for help It's a big book of ideas designed to slot right into your existing campaign organized into neat little tables If you salivate at chaos magic effect tables and daydream about wild unexpected die results you already know it can also be fun to throw caution to the wind and let randomness determine as much as possible Even the most organized GMs and the tightest adventure modules benefit from a little spice
