Holocaust a History Deborah Dwork,Robert Jan Pelt,2003-08-26 Unrivaled in scope Holocaust is a story of all Europe of the vast sweep of events in which this great atrocity was rooted from the Middle Ages to the modern era **Environmental Justice and the Rights of Indigenous Peoples** Laura Westra,2012-05-16 More than 300 million people in over 70 countries make up the worlds indigenous populations Yet despite ever growing pressures on their lands environment and way of life through outside factors such as climate change and globalization their rights in these and other respects are still not fully recognized in international law In this incisive book Laura Westra deftly reveals the lethal effects that damage to ecological integrity can have on communities Using examples in national and international case law she demonstrates how their lack of sufficient legal rights leaves indigenous peoples defenceless time and again in the face of governments and

businesses who have little effective incentive to consult with them let alone gain their consent in going ahead with relocations mining plans and more The historical background and current legal instruments are discussed and through examples from the Americas Africa Oceania and the special case of the Arctic a picture emerges of how things must change if indigenous communities are to survive It is a warning to us all from the example of those who live most closely in tune with nature and are the first to feel the impact when environmental damage goes unchecked

The Hero of Budapest Bengt Jangfeldt, 2013-11-28 The story of Raoul Wallenberg the Swedish businessman who at immense personal risk rescued many of Budapest's Jews from the Holocaust and subsequently disappeared into the Soviet prison system is one of the most fascinating episodes of World War II Yet the complete story of his life and fate can only be told now and for the first time in this book following access to the Russian and Swedish archival sources previously not used Born into a wealthy Swedish family Wallenberg was a moderately successful businessman when he was recruited by the War Refugee Board to manage the rescue mission of thousands of Hungarian Jews Once in Budapest he created and distributed so called protective passports or Schutz Pass among the Jewish population thus managing to save up to 8 000 people Through the safe houses and clandestine networks that he established around the city many thousands more were saved from the concentration camps Yet when Budapest was liberated by the Red Army in January 1945 Wallenberg was arrested and taken to Moscow One of the reasons for his arrest was that the Soviets could not understand the nature of his mission formally he was a Swedish diplomat but he worked for an American agency On the basis of previously unseen Soviet sources Jangfeldt has been able to reconstruct the events surrounding Wallenberg's arrest almost hour by hour and for the first time he presents a highly plausible theory about the reasons why Wallenberg was arrested and what happened to him after he disappeared With access to previously unpublished material Bengt Jangfeldt provides the first complete account of Wallenberg's life from his childhood in Sweden to his disappearance in a Russian jail and sheds important new light on one of the greatest heroes of World War II This is a thrilling tale of intrigue espionage and heroism which will captivate all readers of modern European history

Schindler, Wallenberg, Miep Gies David K. Fremon, 2014-07-01 The heroes of the Holocaust were individuals who risked their own lives to save thousands of Jews from certain death Author David K Fremon recounts the actions some people took to save the lives of thousands of people trying to escape from the Nazis and their deadly persecution Some heroes are now famous but many unknown heroes took action to forge false identity papers leave out food for refugees and hide Jews in their homes

The Dynamics of Corporate Social Responsibilities Radu Mares, 2008 This book proposes that the responsible business practices of leading companies are significant not only as isolated instances of self regulation but that they also contribute to a broader rule making process which has been underway in the last decade and is aimed at making business more responsive to human rights and environmental concerns The flexibility of existing laws as well as the emergence of new regulations relevant to corporate social responsibility CSR are highlighted As CSR increasingly interacts

with public policy some insufficiently understood effects of CSR appear that can help us advance toward more systemic solutions in the business and human rights area This study identifies variables that states can stimulate through a wide range of interventions ranging from capacity building measures to policy to hard law so that responsible practices get diffused more broadly and deeply in the business community The intended audiences are legal experts with an interest in enhancing the protection of human rights in developing countries and CSR theorists and practitioners mindful of the broader social dynamics that surround the implementation of CSR commitments

The Responsibility to Protect Dan Kuwali, 2011
Explores the scope and limits of Article 4 h of the African Union Constitutive Act

Human Rights Law: From Dissemination to Application Jonas Grimheden, Rolf Ring, 2006-07-01 This unique collection of essays has been compiled in honour of Professor G ran Melander one of the founders of the Raoul Wallenberg Institute of Human Rights and Humanitarian Law RWI in Lund Sweden G ran Melander served as the Institute s first director and subsequently as the Chairman of the Board of Directors The volume illustrates the complex relationship between dissemination of human rights standards and their application in human rights law and thus serves as a tribute to Melander s belief in and commitment to the dynamics of education in human rights law The contributors are human rights scholars and activists all colleagues and friends associated with various stages of Melander s professional career

The Legal Culture of the European Court of Human Rights Nina-Louisa Arold, 2007-10-30 While the supervision of the European Court of Human Rights constantly grows in importance little is known about the people especially the judges inside the Court To what extent are human rights sensitive to different traditions and is their work burdened through the plurality of legal historical political or vocational experiences among the judges Looking at the first three years of permanent operation of the Court this book suggests that it is the legal culture that brings the judges together Based on interviews field study observations and an analysis of case law this book takes a novel approach on European human rights law and provides researchers and practitioners with an important basis for a full understanding of the Strasbourg case law
