[Access to Special Collections and Archives](#) Jae Jennifer Rossman, 2024-09-16 Since the early 20th century American academic libraries have collected and championed rare and unique non circulating materials now referred to as special collections Because of the rarity and value of these materials they are handled differently than materials in other parts of academic library collections Thus a different set of access policies and procedures as well as specialized staff have been employed This book provides a thorough exploration of access which is a cornerstone of the library profession It looks at how practitioners' perceptions of access to special collections have changed from the formative period of the 1930s to today Using a grounded theory approach on datasets comprised of LIS literature and interviews of special collections professionals with between 5 and 50 years of experience two conceptual models developed The two conceptual models are Aspects of Access which defines ten components that contribute to access goals Diversity Documentation Engagement Preservation Protection Provision Readers Spaces Stewardship and Technology A historical overview sets the stage for in depth discussion of each aspect Gatekeeping Model of Access which applies gatekeeping theory to chart how the Aspects of Access support or hinder the connection of readers to collection materials An exploration of access through the lens of special collections is especially meaningful because of the tension between the principles of preservation and access within the special collections community This project is also significant as the library

profession explores how representation of diversity within collections and the profession impacts readers Exploring how we think about access should be part of these ongoing conversations      **Front-Line Librarianship** Guy Robertson, 2018-11-28

Front Line Librarianship Life on the Job for Librarians presents a diverse range of observations viewpoints and useful commentary on the current workplace experiences of librarians and their associates The book's author presents an unrivalled portrait of front line librarianship that is based upon his unique experience and voice Chapters consider workplace matters the fate of hardcopy books speechmaking at conferences the effects of recessions on libraries continuing education and corporate gift giving programs This book will make an excellent and useful addition to library collections in library science Tells stories and presents interviews bringing color and texture to library experience Shows librarianship from the perspective of a long term practitioner Gives different approaches to a great range of real life workplace issues      *Art Museum Libraries and Librarianship* Joan M. Benedetti, 2007 Although most art museums possess a library of some kind these facilities are often hidden from the public and seldom discussed in library schools despite the important role they play as substantial research venues Co published with the Art Libraries Society of North America *Art Museum Libraries and Librarianship* serves as an introduction to the field of art museum librarianship and its diverse settings Editor Joan Benedetti has compiled contributions from practicing art museum librarians to present sixteen chapters that address the topics of leadership reader services automation security cataloging space planning collection development visual resources ephemera special collections archives fundraising public relations volunteers and interns professional development and solo librarianship Each chapter consists of several essays that deal with the distinct environment of art museum libraries from the largest research collections that serve many curatorial departments and multiple administrative layers to the smallest solo librarian venues whose unsung staff work in relative isolation The book concludes with a collection of brief institutional profiles which include statistical and descriptive information on fifteen diverse art museum libraries in the U S Canada and Europe appendixes that describe academic programs offering dual degrees in librarianship and art list international professional associations for art museum librarians and provide sample policies and procedures in use today in art museum libraries a bibliography and an index *Art Museum Libraries and Librarianship* the first publication of its kind is illustrated with over 90 black and white images of art museums their libraries and items from their collections      International Encyclopedia of Information and Library Science John Feather, Paul Sturges, 2003-09-02 This eagerly awaited new edition has been fully revised and updated to take full account of the many and radical changes which have taken place since the Encyclopedia was originally conceived      *Teaching Bibliography, Textual Criticism, and Book History* Ann R Hawkins, 2015-10-06 Offers a variety of approaches to incorporating discussions of book history or print culture into graduate and undergraduate classrooms This work considers the book as a literary historical cultural and aesthetic object These essays are of interest to university teachers incorporating textual studies and research methods into their courses      A

*History of Modern Librarianship* Pamela Spence Richards, Wayne A. Wiegand, Marija Dalbello, 2015-05-26 A broad comparative history of librarianship this intriguing work goes beyond the standard focus on institutions and collections to help you explore the part modern librarianship played and continues to play in forming Western cultures Previous histories of libraries in the Western world the last of which was published nearly 20 years ago concentrate on libraries and librarians This book takes a different approach It focuses on the practice of librarianship showing you how that practice has contributed to constructing the heritage of cultures To do so this groundbreaking collection of essays presents the history of modern librarianship in the context of recent developments of the library institution professionalization of librarianship and innovation through information technology Organized by region the book addresses the widely recognized international impact of Anglo American librarianship and its continuing influence over the past century combining critical analysis with chronological histories of modern librarianship in Europe North America Australia New Zealand and Africa An introductory chapter explains the origins of the project and a concluding chapter examines the effects of digitization on modern librarianship in the 21st century
