concerning extinction how and why it happens and what can be done about it Whilst man is to blame for many of the causes such as persecution and habitat loss species have become extinct on a regular basis since life began After several thought provoking introductory chapters the book showcases about 20 species on the brink of extinction from around the world and describes the work that is being undertaken to save them Some are success stories but a few are not This is a subject close to the hearts of all birders and ornithologists and this book written by a team of leading conservationists will strike a chord in most of them Facing Extinction Paul Donald,Nigel Collar,Stuart Marsden,Deborah J. Pain,2013-12-19 Examines extinction in birds with case studies of critically endangered species and the research initiatives designed to save them Rare Birds Dan Bessie,2021-11-30 What does a writer do when he has a family that includes a blacklisted member of the Hollywood Ten the brains behind Tony the Tiger and the Marlboro Man a trio of gay puppeteers the world s leading birdwatcher 1960s hippies a Dutch stowaway who served in an all black regiment during the American Civil War and a convicted murderer He tells their stories and secrets illuminating 150 years of American life along the way Dan Bessie begins the journey through his family history with his great grandfather in the cargo hold of a ship bound for New York on the storm tossed Atlantic What follows are stories of his grandfather s various entrepreneurial schemes including a folding butter box business a grandmother who was voted New York s prettiest shop girl and who resisted the recruitment efforts of various city madams and his uncle Harry s Turnabout Theater in Los Angeles a renowned puppet theater drawing patrons as diverse as Shirley Temple Ray Bradbury and Albert Einstein An extraordinary strain of creativity runs through the Bessie and Burnett clans and Rare Birds celebrates the colorful diversity of this remarkable and accomplished family While their choices and professions run the gamut of the American experience in the twentieth century the history of the nation can be traced in these people s lives Bessie s passionate birds of a feather gather to sing their unique song across decades and generations Rare Birds Elizabeth Gehrman,2015-07-14 The inspiring story of David Wingate a living legend among birders who brought the Bermuda petrel back from presumed extinction Rare Birds is a tale of obsession of hope of fighting for redemption against incredible odds It is the story of how Bermuda s David Wingate changed the world or at least a little slice of it despite the many voices telling him he was crazy to try This tiny island in the middle of the North Atlantic was once the breeding ground for millions of Bermuda petrels Also known as cahows the graceful and acrobatic birds fly almost nonstop most of their lives drinking seawater and sleeping on the wing But shortly after humans arrived here more than three centuries ago the cahows had vanished eaten into extinction by the country s first settlers Then in the early 1900s tantalizing hints of the cahows continued existence began to emerge In 1951 an American ornithologist and a Bermudian naturalist mounted a last ditch effort to find the birds that had come to seem little more than a legend bringing a teenage Wingate already a noted birder along for the ride When the stunned scientists pulled a blinking docile cahow from deep within a rocky cliffside it made headlines around the world and told Wingate what he was put on this earth to do Starting with just seven nesting pairs of the birds Wingate

would devote his life to giving the cahows the chance they needed in their centuries long struggle for survival battling hurricanes invasive species DDT the American military and personal tragedy along the way It took six decades of obsessive dedication but the cahow still among the rarest of seabirds has reached the hundred pair mark and continues its nail biting climb to repopulation And Wingate has seen his dream fulfilled as the birds returned to Nonsuch an island habitat he hand restored for them plant by plant in anticipation of this day His passion for resuscitating this Lazarus species has made him an icon among birders and his story is an inspiring celebration of the resilience of nature the power of persistence and the value of going your own way
