the birds of this exciting region this book will enable birders to identify any species found in any of the countries covered

Birds of Western Africa Helm 2001 was the first single volume guide to cover all the species of this region which comprises 23 countries from Senegal and southern Mauritania east to Chad and the Central African Republic and south to Congo This updated edition uses all of the illustrations from *Birds of Western Africa* along with a number of new paintings The book also has updated colour distribution maps for each species placed on the text pages for the first time On facing pages concise authoritative text aids identification to create a conveniently sized lightweight field reference covering all 1300 species found in the region This handy guide will enable birders to identify any species found in any of the countries covered *Handbook of Western Palearctic Birds, Volume 2* Lars Svensson, Hadoram Shirihai, 2018-08-27 The second volume in this incredible series on western palearctic birds This unique and spectacular handbook is the most complete and comprehensive photographic guide to the passerines of the Western Palearctic Written by two of the world's most respected ornithologists Hadoram Shirihai and Lars Svensson it contains the most up to date information available on bird identification covering all aspects of plumage moult ageing and sexing with sections on voice and other identification criteria and detailed taxonomic notes This second volume covers flycatchers reedlings tits nuthatches orioles and sunbirds shrikes corvids finches and buntings along with vagrants The exceptional text is backed up by a remarkable collection of more than 2 500 photographs in this volume alone featuring a comprehensive range of plumages that illustrate every race and morph of each species in the region This stunning handbook will be the definitive reference for the region for years to come no birder's shelf will be complete without it [The Birds of Great Britain and Ireland](#) sir William Jardine (bart.), 1876 **The Atlas of Wintering Birds in Britain and Ireland** Peter Lack, 2010-11-30 This companion volume to *The Atlas of Breeding Birds of Britain and Ireland* is derived from surveys of birds present in Britain and Ireland during the three winters 1981/82 1982/83 and 1983/84 The surveys were organised by the British Trust for Ornithology and the Irish Wildbird Conservancy as were the earlier breeding birds surveys The Winter Atlas maps 200 species 192 of which have full page two colour maps faced by a page of text The texts written by over 100 specialists comment on the survey results the species generally and the distribution and abundance as mapped In addition there are introductory chapters on the maps the weather in the three winters bird patterns and movements and appendices describing the planning organisation field methods and processing of the survey data from record cards to computer output and maps A team of 23 artists led by Robert Gillmor has provided the line drawings which head the species accounts **Birds New to Britain and Ireland** J.T.R. Sharrock, P. J. Grant, 2010-11-30 The 83 species featured in this book in date sequence of discovery had not been recorded in Britain or Ireland before 1946 The original accounts of the sightings published in issues of *British Birds* between 1947 and 1982 are now reprinted and supplemented with comment by Dr Sharrock on subsequent occurrences and current status In addition Peter Grant provides identification notes drawing attention to points not covered in the original accounts There is also a world distribution map for each species

and a line illustration to head each of the accounts At the end of the book a section of plates reproduces 81 first sighting photographs covering 32 of the species in the book

Rare Birds Day by Day Steve Dudley, Tim Benton, Peter Fraser, John Ryan, 2010-10-30 Covering 282 rare species and sub species plus records for a further 18 Category D species found in Britain and Ireland around 20 000 individual records of rare birds are listed in diary style with each individual bird appearing on the date on which it was originally found along with all the other rare birds found on that date between 1958 and 1994 *Rare Birds Day by Day* follows three earlier Poyser titles looking at scarce and rare birds recorded in Britain and Ireland *Scarce Migrant Birds in Britain and Ireland* Sharrock 1974 *Rare Birds in Britain and Ireland* Sharrock 1976 and *Rare Birds in Britain and Ireland* Dymond Fraser Gantlett 1989 Like these previous books this latest rare bird title has been brought to you by well known and experienced British birders and rare bird finders This book however differs markedly from the earlier volumes in that it moves away from the traditional presentation of species in systematic order Each record is listed in county order and is accompanied by the finding site number of birds for multiple records and length of stay for those birds remaining for more than one day This new and novel way of presenting rare bird data will prove fascinating to anyone with an interest in finding and watching rare migrant and vagrant species It will also prove a valuable and fun tool for the keenest rarity hunters enabling them to use the book as a rare bird predictor by following closely the birds found on each date over the 36 years covered by the book The book is enlivened with illustrations by Dave Nurney most of them specifically prepared for this volume
