**Ruin the Sacred Truths** Harold BLOOM,Harold Bloom,2009-06-30 Bloom surveys with majestic view the literature of the West from the Old Testament to Samuel Beckett He provocatively rereads the Yahwist or J writer Jeremiah Job Jonah the Iliad the Aeneid Dante s Divine Comedy Hamlet King Lear Othello the Henry IV plays Paradise Lost Blake s Milton Wordsworth s Prelude and works by Freud Kafka and Beckett In so doing he uncovers the truth that all our attempts to call any strong work more sacred than another are merely political and social formulations This is criticism at its best Table of Contents 1 The Hebrew Bible 2 From Homer to Dante 3 Shakespeare 4 Milton 5 Enlightenment and

Transregional Connections in the History of East-Central Europe Katja Castryck-Naumann, 2021-10-25 Transregional connections play a fundamental role in the history of East Central Europe This volume explores this connectivity by showing how people from eastern and central parts of Europe have positioned themselves within global processes while in turn also shaping them The contributions examine different fields of action such as economy arts international regulations and law development aid and migration focusing on the period between the middle of the nineteenth century and the end of the Cold War The authors

Samuelson,1994-11-24

The topic of this book is creation It breaks down into discussions of two distinct but interrelated questions what does the universe look like and what is its origin The opinions about creation considered by Norbert Samuelson come from the Hebrew scriptures Greek philosophy Jewish philosophy and contemporary physics His perspective is Jewish liberal and philosophical It is Jewish because the foundation of the discussion is biblical texts interpreted in the light of traditional rabbinic texts It is philosophical because the subject matter is important in both past and present philosophical texts and to Jewish philosophy in particular Finally it is liberal because the authorities consulted include heterodox as well as orthodox Jewish sources The ensuing discussion leads to original conclusions about a diversity of topics including the limits of human reason and religious faith and the relevance of scientific models to religious doctrine      *Judaism* Eliezer Segal,2009

construction of the European Union from the end of the Second World War until the present day Assesses the relationship between the major world religions and the idea of Europe Book jacket     Tree Of Life, Tree Of Knowledge Michael Rosenak, 2019-03-22 From the Preface THE IDEA OF THIS BOOK came to my mind many years ago after several conversations with my friend and colleague in Jewish educational studies Joseph Lukins professor at the Jewish Theological Seminary in New York He had suggested that an educated Jew is among other things one who lives in some spiritual and cognitive proximity to the weekly Torah reading the parashat hashavua portion of the week He insisted that issues in the philosophy of education might be in the liturgy s scriptural readings that even the way messages of tradition divided the Torah into portions reflected discrete modes of teaching Torah In this book theoretical conceptions garnered from many places even if they do not precede reading of Torah are certainly prisms through which I can read it     Law and Revolution Harold J. Berman, 1985-01-01 The roots of modern Western legal institutions and concepts go back nine centuries to the papal revolution when the Western church established its political and legal unity and its independence from emperors kings and feudal lords Out of this upheaval came the Western idea of integrated legal systems developed over generations and centuries
