Retreat From Class A New True Socialism:

The Retreat from Class Ellen Meiksins Wood, 2016-02-23 Exploring the connections between class ideology and politics In this classic study which won the Isaac Deutscher Memorial Prize Ellen Wood provides a critical survey of influential trends in post Marxist theory Challenging their dissociation of politics from class she elaborates her own original conception of the complex relations between class ideology and politics In the process Wood explores the links between socialism and democracy and reinterprets the relationship between liberal and socialist democracy In a new introduction Wood discusses the relevance of The Retreat from Class in a post Soviet world She traces the connections between post Marxism and current academic trends such as postmodernism and argues that a re examination of class politics is a necessary counter to the current cynical acceptance of capitalism

Social Change Theories in Motion Thomas C. Patterson, 2018-02-01 This book assesses how theorists explained processes of change set in motion by the rise of capitalism It situates them in the milieu in which they wrote They were never neutral observers standing outside the conditions they were trying to explain Their arguments were responses to those circumstances and to the views of others commentators living and dead Some repeated earlier views others built on those perspectives a few changed the way we think While surveying earlier writers the author's primary concerns are theorists who sought to explain industrialization imperialism and the consolidation of nation states after 1840 Marx Durkheim and Weber still shape our understandings of the past present and future Patterson focuses on explanations of the unsettled conditions that crystallized in the 1910s and still persist the rise of socialist states anti colonial movements prolonged economic crises and almost continuous war After 1945 theorists in capitalist countries influenced by Cold War politics saw social change in terms of economic growth progress and modernization their contemporaries elsewhere wrote about underdevelopment dependency or uneven development In the 1980s theorists of postmodernity neoliberalism globalization innovations in communications technologies and post socialism argued that they rendered earlier accounts insufficient Others saw them as manifestations of a new imperialism capitalist accumulation on a global scale environmental crises and nationalist populism
