Return to Life, 2000 *The Portrait Bust and French Cultural Politics in the Eighteenth Century* Ronit

Milano, 2015-02-24 In *The Portrait Bust and French Cultural Politics in the Eighteenth Century* Ronit Milano probes the rich and complex aesthetic and intellectual charge of a remarkably concise art form and explores its role as a powerful agent of epistemological change during one of the most seismic moments in French history The pre Revolutionary portrait bust was inextricably tied to the formation of modern selfhood and to the construction of individual identity during the Enlightenment while positioning both sitters and viewers as part of a collective of individuals who together formed French society In analyzing the contribution of the portrait bust to the construction of interiority and the formulation of new gender roles and political ideals this book touches upon a set of concerns that constitute the very core of our modernity **Portraiture**

Shearer West, 2004-04-08 This fascinating new book explores the world of portraiture from a number of vantage points and asks key questions about its nature How has portraiture changed over the centuries How have portraits represented their subjects and how have they been interpreted Issues of identity modernity and gender are considered within a cultural and historical context Shearer West uncovers much intriguing detail about a genre that has often been seen as purely representational featuring examples from African tribes to Renaissance princes and from stars such as David and Victoria Beckham to ordinary people In the process she shows us how to communicate with the past in an exciting new way

Return to Life Penelope Curtis, Peter Funnell, Nicola Kalinsky, Henry Moore Institute (Leeds, England), National Portrait Gallery (Great Britain), Scottish National Portrait Gallery, 2001 **The Poetics of Transubstantiation** Douglas

Burnham, 2017-03-02 The essays in this collection explore the concept of transubstantiation its adaptations and transformations in English and European culture from the Elizabethans to the twentieth century Favoring an interartistic and comparative perspective a wide range of critical approaches from the philosophical to the semiological from cultural materialism to gender and queer studies are brought to bear on authors ranging from Descartes Shakespeare and Joyce to Macpherson Madox Ford and Winterson as well as on contemporary sculpture and an Italian adaptation of Conrad for the screen in an unusually comic vein The volume edited by Douglas Burnham of Staffordshire University and by Enrico Giaccherini of Pisa University will be of interest to those concerned with the cultural history of Christianity and with the remarkable critical and theoretical insights generated by contemporary approaches to this traditional theme *Burning*

Bright Diana Dethloff, Caroline Elam, Tessa Murdoch, Kim Sloan, 2015-09-11 This book celebrates the work and career of the internationally renowned art historian David Bindman on the occasion of his 75th birthday and is above all a tribute to him from his former students and colleagues **The Anatomy Museum** Elizabeth Hallam, 2008 Anatomy museums around the

world showcase preserved corpses in service of education and medical advancement but they are little known and have been largely hidden from the public eye Elizabeth Hallam here investigates the anatomy museum and how it reveals the

fascination and fears that surround the dead body in Western societies Hallam explores the history of these museums and how they operate in the current cultural environment Their regulated access increasingly clashes with evolving public mores toward the exposed body as demonstrated by the international popularity of the Body Worlds exhibition The book examines such related topics as artistic works that employ the images of dead bodies and the larger ongoing debate over the disposal of corpses Issues such as aesthetics and science organ and body donations and the dead body in Western religion and ritual are also discussed here in fascinating depth The Anatomy Museum unearths a strange and compelling cultural history that investigates the ideas of preservation human rituals of death and the spaces that our bodies occupy in this life and beyond
