Alvis, 2020-03-24 Throughout the church s long history Christians have sought out wise mentors to guide them on the journey toward God A Science of the Saints explores the dynamics of spiritual direction as revealed in the lives and writings of a wide array of exemplary disciples from the Desert Fathers and Mothers to Thomas Merton and from St Teresa of Avila to St Teresa Benedicta of the Cross Edith Stein This groundbreaking work sheds new light on an essential dimension of the Christian experience yielding timeless wisdom to inform the practice of spiritual direction in our own day **Global Pentecostal and Charismatic Healing** Candy Gunther Brown, 2011-02-24 Divine healing is an essential marker of the global phenomenon of Pentecostal and charismatic Christianity But although we know that healing is central in these movements we know surprisingly little about how divine healing beliefs and practices reflect the interplay of local and global patterns of cultural development The essays in this collection seek to discover what is the same and what is different about such beliefs and practices in diverse contexts trace formal and informal lines of cultural influence across geographic and national boundaries and ask how healing both reflects and contributes to larger processes of globalization **Mind Is Flat** Nick Chater, 2018-08-07 In a radical reinterpretation of how the mind works an eminent behavioral scientist reveals the illusion of mental depth Psychologists and neuroscientists struggle with how best to interpret human motivation and decision making The assumption is that below a mental surface of conscious awareness lies a deep and complex set of inner beliefs values and desires that govern our thoughts ideas and actions and that to know this depth is to know ourselves In this profoundly original book behavioral scientist Nick Chater contends just the opposite rather than being the plaything of unconscious currents the brain generates behaviors in the moment based entirely on our past experiences Engaging the reader with eye

opening experiments and visual examples the author first demolishes our intuitive sense of how our mind works then argues for a positive interpretation of the brain as a ceaseless and creative improviser *Light* ,1905 Saints, Scoundrels and Storytellers Kirin Narayan,1987 **Mother Jones Magazine** ,1992-03 Mother Jones is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues
